 37.15 allow for restoration, including overseeding
 37.16 and harvesting, of native prairie vegetation
 37.17 for use for energy production in a manner that
 37.18 does not devalue the natural habitat, water
 37.19 quality benefits, or carbon sequestration
 37.20 functions of the area enrolled in the easement.

37.21 This shall occur after seed production and
 37.22 minimize impacts on wildlife. Of this
 37.23 appropriation, up to five percent may be used

 38.9 by the board. The board may enter into
 38.10 agreements with the federal government,
 38.11 other state agencies, political subdivisions,
 38.12 and nonprofit organizations or fee owners to

38.17 Subd. 4. **Clean Water Legacy** 1,275,000

38.18 \$1,275,000 is for improving water quality.

38.19 The board may expend this amount for the

 38.22 County to acquire conservation easements,
 38.23 design and construct water control structures
 38.24 and pumping infrastructure, and plant
 38.25 native prairie species of a local ecotype as

38.32 (2) \$475,000 for a grant to the city of
 38.33 Gaylord to improve water quality in the Lake
 38.34 Titlow watershed. The funds may be used to
 38.35 predesign and design holding ponds upstream

39.1 from Lake Titlow. The design must include
 39.2 the best location for the ponds, an estimate
 39.3 of the cost of land acquisition or easements,
 39.4 construction costs of the holding ponds, and
 39.5 the estimated expense of maintaining the
 39.6 structures and who will be responsible for
 39.7 the expense. The funds may also be used
 39.8 to construct and reconstruct storm water
 39.9 sewer drains and related facilities to divert
 39.10 water that currently drains into Lake Titlow
 39.11 into holding ponds south of the city. The
 39.12 cost of reconstructing city streets as part of
 39.13 this diversion, and as outlined in the city of
 39.14 Gaylord's street improvement plan, is the
 39.15 responsibility of the city. This diversion
 39.16 will keep phosphorus and other chemicals
 39.17 from entering the lake, and will improve
 39.18 the water quality of Lake Titlow. The city
 39.19 must also coordinate with state and county
 39.20 conservation officials to ensure correct
 39.21 conservation practices and improvements
 39.22 in the watershed. For the purposes of this
 39.23 appropriation, the criteria, limitations, and
 39.24 assessment requirements in Minnesota
 39.25 Statutes, sections 103D.701, 103D.705, and
 39.26 103D.901, are waived. The information
 39.27 gained from this project must be made
 39.28 available for public use. This appropriation
 39.29 is not available until the commissioner of
 39.30 finance determines that \$200,000 has been
 39.31 committed to the project from other sources.

 65.22 state in an amount up to \$1,027,751,000 in the manner, upon the terms, and with the effect
 65.23 prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by the Minnesota
 65.24 Constitution, article XI, sections 4 to 7.

65.25 Subd. 2. **Maximum effort school loan fund.** To provide the money appropriated in
 65.26 this act from the maximum effort school loan fund, the commissioner of finance shall sell
 65.27 and issue bonds of the state in an amount up to \$32,000,000 in the manner, upon the terms,
 65.28 and with the effect prescribed by Minnesota Statutes, sections 16A.631 to 16A.675, and by
 65.29 the Minnesota Constitution, article XI, sections 4 to 7. The proceeds of the bonds, except
 65.30 accrued interest and any premium received on the sale of the bonds, must be credited to a
 65.31 bond proceeds account in the maximum effort school loan fund.

65.32 **Sec. 27. BOND SALE AUTHORIZATION CANCELLATIONS; REDUCTIONS.**

66.1 (a) \$17,262,000 of the appropriation in Laws 2002, chapter 393, section 19,
66.2 subdivision 2, to the Metropolitan Council for the Northwest busway, is canceled. The
66.3 bond sale authorization in Laws 2002, chapter 393, section 30, is reduced by \$17,262,000.

66.4 (b) \$2,571,000 of the appropriation in Laws 2003, First Special Session chapter 20,
66.5 article 1, section 2, subdivision 2, paragraph (c), for the teaching and technology center, is
66.6 canceled. The bond sale authorization in Laws 2003, First Special Session chapter 20,
66.7 article 1, section 16, is reduced by \$2,571,000.

66.8 (c) The bond sale authorization in Laws 2003, First Special Session chapter 20,
66.9 article 1, section 16, is reduced by \$1,500,000.

66.10 (d) The bond sale authorization in Laws 2005, chapter 20, article 1, section 28,
66.11 subdivision 1, is reduced by \$2,000,000.

66.12 (e) The bond sale authorization in Laws 2006, chapter 258, section 25, subdivision
66.13 1, is reduced by \$3,282,000.

66.14 Sec. 28. Minnesota Statutes 2007 Supplement, section 16A.695, subdivision 3, is
66.15 amended to read:

66.16 Subd. 3. **Sale of property.** (a) A public officer or agency shall not sell any state
66.17 bond financed property unless the public officer or agency determines by official action
66.18 that the property is no longer usable or needed by the public officer or agency to carry
66.19 out the governmental program for which it was acquired or ~~constructed~~ bettered, the
66.20 sale is made as authorized by law, the sale is made for fair market value, and the sale is
66.21 approved by the commissioner.

66.22 (b) If any state bonds issued to purchase or better the state bond financed property
66.23 that is sold remain outstanding on the date of sale, the net proceeds of sale must be
66.24 applied as follows:

66.25 (1) if the state bond financed property was acquired and bettered solely with state
66.26 bond proceeds, the net proceeds of sale must be paid to the commissioner and deposited
66.27 in the state treasury; or

66.28 (2) if the state bond financed property was acquired or bettered partly with state
66.29 bond proceeds and partly with other money, the net proceeds of sale must be used:
66.30 first, to pay to the state the amount of state bond proceeds used to acquire or better the
66.31 property; second, to pay in full any outstanding public or private debt incurred to acquire
66.32 or better the property; third, to pay interested public and private entities, other than any
66.33 public officer or agency or any private lender already paid in full, the amount of money
66.34 contributed to the acquisition or betterment of the property; and fourth, any excess over the
66.35 amount needed for those purposes must be divided in proportion to the shares contributed

67.1 to the acquisition or betterment of the property and paid to the interested public and
67.2 private entities, other than any private lender already paid in full, and the proceeds are
67.3 appropriated for this purpose. In calculating the share contributed by each entity, the
67.4 amount to be attributed to the owner of the property shall be the fair market value of the
67.5 property that was bettered by state bond proceeds at the time the betterment began.

67.6 (c) If no state bonds issued to purchase or better the state bond financed property
67.7 that is sold remain outstanding on the date of sale, the net proceeds of the sale must be
67.8 applied as provided in paragraph (b) except as provided in this paragraph. If the state bond
67.9 financed property was acquired or bettered partly with state bond proceeds totaling not
67.10 more than \$100,000, and partly with other money and was owned and directly operated
67.11 and managed by a political subdivision, the net proceeds of the sale must be paid to the
67.12 political subdivision and are appropriated for that purpose.

67.13 (d) When all of the net proceeds of sale have been applied as provided in this
67.14 subdivision, this section no longer applies to the property.

67.15 Sec. 29. Minnesota Statutes 2006, section 16B.32, is amended by adding a subdivision
67.16 to read:

67.17 Subd. 1a. **Onsite energy generation from renewable sources.** A state agency
67.18 that prepares a predesign for a new building must consider meeting at least two percent
67.19 of the energy needs of the building from renewable sources located on the building site.
67.20 For purposes of this subdivision, "renewable sources" are limited to wind and the sun.
67.21 The predesign must include an explicit cost and price analysis of complying with the
67.22 two-percent requirement compared with the present and future costs of energy supplied
67.23 by a public utility from a location away from the building site and the present and future
67.24 costs of controlling carbon emissions. If the analysis concludes that the building should
67.25 not meet at least two-percent of its energy needs from renewable sources located on the
67.26 building site, the analysis must provide explicit reasons why not. The building may not
67.27 receive further state appropriations for design or construction unless at least two percent of
67.28 its energy needs are designed to be met from renewable sources, unless the commissioner
67.29 finds that the reasons given by the agency for not meeting the two-percent requirement
67.30 were supported by evidence in the record.

67.31 Sec. 30. Minnesota Statutes 2006, section 16B.325, is amended to read:

67.32 **16B.325 SUSTAINABLE BUILDING GUIDELINES.**

67.33 Subdivision 1. **Development of sustainable building guidelines.** The Department
67.34 of Administration and the Department of Commerce, with the assistance of other agencies,

68.1 shall develop sustainable building design guidelines for all new state buildings by January
68.2 15, 2003, and for all major renovations of state buildings by February 1, 2009. The
68.3 primary objectives of these guidelines are to ensure that all new state buildings, and
68.4 major renovations of state buildings, initially exceed ~~existing~~ the state energy code, as
68.5 established in Minnesota Rules, chapter 7676, by at least 30 percent.

68.6 Subd. 2. **Lowest possible cost; energy conservation.** The guidelines must focus
68.7 on achieving the lowest possible lifetime cost for new buildings and major renovations,
68.8 and allow for changes in the guidelines that encourage continual energy conservation
68.9 improvements in new buildings: and major renovations. The guidelines must define
68.10 "major renovations" for purposes of this section. The definition may not allow "major
68.11 renovations" to encompass less than 10,000 square feet or to encompass less than the
68.12 complete replacement of the mechanical, ventilation, or cooling system of the building or
68.13 a section of the building. The design guidelines must establish sustainability guidelines
68.14 that include air quality and lighting standards and that create and maintain a healthy
68.15 environment and facilitate productivity improvements; specify ways to reduce material
68.16 costs; and must consider the long-term operating costs of the building, including the use of
68.17 renewable energy sources and distributed electric energy generation that uses a renewable
68.18 source or natural gas or a fuel that is as clean or cleaner than natural gas.

68.19 Subd. 3. **Development of guidelines; applicability.** (a) In developing the
68.20 guidelines, the departments shall use an open process, including providing the opportunity
68.21 for public comment. The guidelines established under this section are mandatory for all
68.22 new buildings receiving funding from the bond proceeds fund after January 1, 2004, and
68.23 for all major renovations receiving funding from the bond proceeds fund after February
68.24 1, 2009.

68.25 (b) The commissioners of administration and commerce shall review the guidelines
68.26 periodically and incorporate performance standards developed under section 216B.241,
68.27 subdivision 9, into the guidelines as soon as practicable.

68.28 Sec. 31. Minnesota Statutes 2006, section 16B.335, subdivision 2, is amended to read:

68.29 Subd. 2. **Other projects.** All other capital projects for which a specific appropriation
68.30 is made must not proceed until the recipient undertaking the project has notified the chair
68.31 of the senate Finance Committee, the chair of the house Capital Investment Committee,
68.32 and the chair of the house Ways and Means Committee that the work is ready to begin.
68.33 Notice is not required for capital projects needed to comply with the Americans with
68.34 Disabilities Act, for asset preservation projects to which section 16A.307 applies, or
68.35 for projects funded by an agency's operating budget or by a capital asset preservation

69.1 and replacement account under section 16A.632, or a higher education ~~capital~~ asset
69.2 preservation and ~~renewal~~ replacement account under section 135A.046.

69.3 Sec. 32. Minnesota Statutes 2006, section 103D.335, subdivision 17, is amended to
69.4 read:

69.5 Subd. 17. **Borrowing funds.** The managers may borrow funds from an agency of
69.6 the federal government, a state agency, a county where the watershed district is located
69.7 in whole or in part, or a financial institution authorized under chapter 47 to do business
69.8 in this state. A county board may lend the amount requested by a watershed district. A
69.9 watershed district may not have more than a total of ~~\$200,000~~ \$600,000 in loans from
69.10 counties and financial institutions under this subdivision outstanding at any time.

69.11 Sec. 33. Minnesota Statutes 2007 Supplement, section 103G.222, subdivision 1,
69.12 is amended to read:

69.13 Subdivision 1. **Requirements.** (a) Wetlands must not be drained or filled, wholly
69.14 or partially, unless replaced by restoring or creating wetland areas of at least equal
69.15 public value under a replacement plan approved as provided in section 103G.2242, a
69.16 replacement plan under a local governmental unit's comprehensive wetland protection
69.17 and management plan approved by the board under section 103G.2243, or, if a permit to
69.18 mine is required under section 93.481, under a mining reclamation plan approved by the
69.19 commissioner under the permit to mine. Mining reclamation plans shall apply the same
69.20 principles and standards for replacing wetlands by restoration or creation of wetland areas
69.21 that are applicable to mitigation plans approved as provided in section 103G.2242. Public
69.22 value must be determined in accordance with section 103B.3355 or a comprehensive
69.23 wetland protection and management plan established under section 103G.2243. Sections
69.24 103G.221 to 103G.2372 also apply to excavation in permanently and semipermanently
69.25 flooded areas of types 3, 4, and 5 wetlands.

69.26 (b) Replacement must be guided by the following principles in descending order
69.27 of priority:

69.28 (1) avoiding the direct or indirect impact of the activity that may destroy or diminish
69.29 the wetland;

69.30 (2) minimizing the impact by limiting the degree or magnitude of the wetland
69.31 activity and its implementation;

69.32 (3) rectifying the impact by repairing, rehabilitating, or restoring the affected
69.33 wetland environment;

70.1 (4) reducing or eliminating the impact over time by preservation and maintenance
70.2 operations during the life of the activity;

70.3 (5) compensating for the impact by restoring a wetland; and

70.4 (6) compensating for the impact by replacing or providing substitute wetland
70.5 resources or environments.

70.6 For a project involving the draining or filling of wetlands in an amount not exceeding
70.7 10,000 square feet more than the applicable amount in section 103G.2241, subdivision 9,
70.8 paragraph (a), the local government unit may make an on-site sequencing determination
70.9 without a written alternatives analysis from the applicant.

70.10 (c) If a wetland is located in a cultivated field, then replacement must be
70.11 accomplished through restoration only without regard to the priority order in paragraph
70.12 (b), provided that a deed restriction is placed on the altered wetland prohibiting
70.13 nonagricultural use for at least ten years.

70.14 (d) If a wetland is drained under section 103G.2241, subdivision 2, paragraphs
70.15 (b) and (e), the local government unit may require a deed restriction that prohibits
70.16 nonagricultural use for at least ten years unless the drained wetland is replaced as provided
70.17 under this section. The local government unit may require the deed restriction if it
70.18 determines the wetland area drained is at risk of conversion to a nonagricultural use within
70.19 ten years based on the zoning classification, proximity to a municipality or full service
70.20 road, or other criteria as determined by the local government unit.

70.21 (e) Restoration and replacement of wetlands must be accomplished in accordance
70.22 with the ecology of the landscape area affected and ponds that are created primarily to
70.23 fulfill stormwater management, and water quality treatment requirements may not be
70.24 used to satisfy replacement requirements under this chapter unless the design includes
70.25 pretreatment of runoff and the pond is functioning as a wetland.

70.26 (f) Except as provided in paragraph (g), for a wetland or public waters wetland
70.27 located on nonagricultural land, replacement must be in the ratio of two acres of replaced
70.28 wetland for each acre of drained or filled wetland.

70.29 (g) For a wetland or public waters wetland located on agricultural land or in a greater
70.30 than 80 percent area, replacement must be in the ratio of one acre of replaced wetland
70.31 for each acre of drained or filled wetland.

70.32 (h) Wetlands that are restored or created as a result of an approved replacement plan
70.33 are subject to the provisions of this section for any subsequent drainage or filling.

70.34 (i) Except in a greater than 80 percent area, only wetlands that have been restored
70.35 from previously drained or filled wetlands, wetlands created by excavation in nonwetlands,
70.36 wetlands created by dikes or dams along public or private drainage ditches, or wetlands

71.1 created by dikes or dams associated with the restoration of previously drained or filled
71.2 wetlands may be used in a statewide banking program established in rules adopted under
71.3 section 103G.2242, subdivision 1. Modification or conversion of nondegraded naturally
71.4 occurring wetlands from one type to another are not eligible for enrollment in a statewide
71.5 wetlands bank.

71.6 (j) The Technical Evaluation Panel established under section 103G.2242, subdivision
71.7 2, shall ensure that sufficient time has occurred for the wetland to develop wetland
71.8 characteristics of soils, vegetation, and hydrology before recommending that the wetland
71.9 be deposited in the statewide wetland bank. If the Technical Evaluation Panel has reason
71.10 to believe that the wetland characteristics may change substantially, the panel shall
71.11 postpone its recommendation until the wetland has stabilized.

71.12 (k) This section and sections 103G.223 to 103G.2242, 103G.2364, and 103G.2365
71.13 apply to the state and its departments and agencies.

71.14 (l) For projects involving draining or filling of wetlands associated with a new public
71.15 ~~transportation~~ road project, and for public road projects expanded solely for additional
71.16 traffic capacity, public ~~transportation~~ road authorities may purchase credits from the board
71.17 at the cost to the board to establish credits. Proceeds from the sale of credits provided
71.18 under this paragraph are appropriated to the board for the purposes of this paragraph.
71.19 For purposes of this paragraph, public road authorities include: the state of Minnesota,
71.20 counties, cities, and townships.

71.21 (m) A replacement plan for wetlands is not required for individual projects that
71.22 result in the filling or draining of wetlands for the repair, rehabilitation, reconstruction,
71.23 or replacement of a currently serviceable existing state, city, county, or town public road
71.24 necessary, as determined by the public transportation authority, to meet state or federal
71.25 design or safety standards or requirements, excluding new roads or roads expanded solely
71.26 for additional traffic capacity lanes. This paragraph only applies to authorities for public
71.27 transportation projects that:

71.28 (1) minimize the amount of wetland filling or draining associated with the project
71.29 and consider mitigating important site-specific wetland functions on-site;

71.30 (2) except as provided in clause (3), submit project-specific reports to the board, the
71.31 Technical Evaluation Panel, the commissioner of natural resources, and members of the
71.32 public requesting a copy at least 30 days prior to construction that indicate the location,
71.33 amount, and type of wetlands to be filled or drained by the project or, alternatively,
71.34 convene an annual meeting of the parties required to receive notice to review projects to
71.35 be commenced during the upcoming year; and

72.1 (3) for minor and emergency maintenance work impacting less than 10,000 square
72.2 feet, submit project-specific reports, within 30 days of commencing the activity, to the
72.3 board that indicate the location, amount, and type of wetlands that have been filled
72.4 or drained.

72.5 Those required to receive notice of public transportation projects may appeal
72.6 minimization, delineation, and on-site mitigation decisions made by the public
72.7 transportation authority to the board according to the provisions of section 103G.2242,
72.8 subdivision 9. The Technical Evaluation Panel shall review minimization and delineation
72.9 decisions made by the public transportation authority and provide recommendations
72.10 regarding on-site mitigation if requested to do so by the local government unit, a
72.11 contiguous landowner, or a member of the Technical Evaluation Panel.

72.12 Except for state public transportation projects, for which the state Department of
72.13 Transportation is responsible, the board must replace the wetlands, and wetland areas of
72.14 public waters if authorized by the commissioner or a delegated authority, drained or filled
72.15 by public transportation projects on existing roads.

72.16 Public transportation authorities at their discretion may deviate from federal and
72.17 state design standards on existing road projects when practical and reasonable to avoid
72.18 wetland filling or draining, provided that public safety is not unreasonably compromised.
72.19 The local road authority and its officers and employees are exempt from liability for
72.20 any tort claim for injury to persons or property arising from travel on the highway and
72.21 related to the deviation from the design standards for construction or reconstruction under
72.22 this paragraph. This paragraph does not preclude an action for damages arising from
72.23 negligence in construction or maintenance on a highway.

72.24 (n) If a landowner seeks approval of a replacement plan after the proposed project
72.25 has already affected the wetland, the local government unit may require the landowner to
72.26 replace the affected wetland at a ratio not to exceed twice the replacement ratio otherwise
72.27 required.

72.28 (o) A local government unit may request the board to reclassify a county or
72.29 watershed on the basis of its percentage of presettlement wetlands remaining. After
72.30 receipt of satisfactory documentation from the local government, the board shall change
72.31 the classification of a county or watershed. If requested by the local government unit,
72.32 the board must assist in developing the documentation. Within 30 days of its action to
72.33 approve a change of wetland classifications, the board shall publish a notice of the change
72.34 in the Environmental Quality Board Monitor.

72.35 (p) One hundred citizens who reside within the jurisdiction of the local government
72.36 unit may request the local government unit to reclassify a county or watershed on the basis

73.1 of its percentage of presettlement wetlands remaining. In support of their petition, the
73.2 citizens shall provide satisfactory documentation to the local government unit. The local
73.3 government unit shall consider the petition and forward the request to the board under
73.4 paragraph (o) or provide a reason why the petition is denied.

73.5 Sec. 34. Minnesota Statutes 2006, section 116.155, subdivision 2, is amended to read:

73.6 Subd. 2. **Appropriation.** (a) Money in the general portion of the remediation fund
73.7 is appropriated to the agency and the commissioners of agriculture and natural resources
73.8 for the following purposes:

73.9 (1) to take actions related to releases of hazardous substances, or pollutants or
73.10 contaminants as provided in section 115B.20;

73.11 (2) to take actions related to releases of hazardous substances, or pollutants or
73.12 contaminants, at and from qualified landfill facilities as provided in section 115B.42,
73.13 subdivision 2;

73.14 (3) to provide technical and other assistance under sections 115B.17, subdivision
73.15 14, 115B.175 to 115B.179, and 115C.03, subdivision 9;

73.16 (4) for corrective actions to address incidents involving agricultural chemicals,
73.17 including related administrative, enforcement, and cost recovery actions pursuant to
73.18 chapter 18D; ~~and~~

73.19 (5) to make debt service payments on revenue bonds issued under section 116.156;
73.20 and

73.21 (6) together with any amount approved for transfer to the agency from the petroleum
73.22 tank fund by the commissioner of finance, to take actions related to releases of petroleum
73.23 as provided under section 115C.08.

73.24 (b) The commissioner of finance shall allocate the amounts available in any
73.25 biennium to the agency, and the commissioners of agriculture and natural resources for the
73.26 purposes provided in this subdivision based upon work plans submitted by the agency and
73.27 the commissioners of agriculture and natural resources, and may adjust those allocations
73.28 upon submittal of revised work plans. Copies of the work plans shall be submitted
73.29 to the chairs of the senate and house committees having jurisdiction over environment
73.30 and environment finance.

73.31 (c) Priority for appropriations from the general portion of the remediation fund must
73.32 be given to debt service payments under paragraph (a), clause (5).

73.33 Sec. 35. Minnesota Statutes 2006, section 116.155, subdivision 3, is amended to read:

74.1 Subd. 3. **Revenues.** The following revenues shall be deposited in the general
74.2 portion of the remediation fund:

74.3 (1) response costs and natural resource damages related to releases of hazardous
74.4 substances, or pollutants or contaminants, recovered under sections 115B.17, subdivisions
74.5 6 and 7, 115B.443, 115B.444, or any other law;

74.6 (2) money paid to the agency or the Agriculture Department by voluntary parties
74.7 who have received technical or other assistance under sections 115B.17, subdivision 14,
74.8 115B.175 to 115B.179, and 115C.03, subdivision 9;

74.9 (3) money received in the form of gifts, grants, reimbursement, or appropriation from
74.10 any source for any of the purposes provided in subdivision 2, except federal grants; ~~and~~

74.11 (4) money received from revenue bonds sold under section 116.156 and placed
74.12 in a special bond proceeds account; and

74.13 (5) interest accrued on the fund.

74.14 Sec. 36. **[116.156] CLOSED LANDFILL CLEANUP REVENUE BONDS.**

74.15 Subdivision 1. **Bonding authority.** (a) The commissioner of finance, if requested
74.16 by the commissioner of the Pollution Control Agency, shall sell and issue state revenue
74.17 bonds for the following purposes:

74.18 (1) to take actions related to hazardous substances, pollutants, or contaminants at
74.19 and from qualified landfill facilities as provided in section 115B.42, subdivision 2;

74.20 (2) to pay the costs of issuance, debt service, and bond insurance or other credit
74.21 enhancements and to fund reserves; and

74.22 (3) to refund bonds issued under this section.

74.23 (b) The amount of bonds that may be issued for the purposes of paragraph (a),
74.24 clause (1), may not exceed \$25,000,000. The amount of bonds that may be issued for the
74.25 purposes of paragraph (a), clauses (2) and (3), is not limited.

74.26 Subd. 2. **Procedure.** The commissioner of finance may sell and issue the bonds
74.27 on the terms and conditions the commissioner of finance determines to be in the best
74.28 interests of the state. The bonds may be sold at public or private sale. The commissioner
74.29 of finance may enter any agreements or pledges the commissioner of finance determines
74.30 necessary or useful to sell the bonds that are not inconsistent with this section. Sections
74.31 16A.672 to 16A.675 apply to the bonds. The proceeds of the bonds issued under this
74.32 section must be credited to a special bond proceeds account in the remediation fund and
74.33 are appropriated to the commissioner of the Pollution Control Agency for the purposes
74.34 specified in subdivision 1.

75.1 Subd. 3. **Revenue sources.** The debt service on the bonds is payable only from the
75.2 following sources:

75.3 (1) the remediation fund; and

75.4 (2) other revenues pledged to the payment of the bonds.

75.5 Subd. 4. **Refunding bonds.** The commissioner of finance may issue bonds to refund
75.6 outstanding bonds issued under subdivision 1, including the payment of any redemption
75.7 premiums on the bonds and any interest accrued or to accrue to the first redemption date
75.8 after delivery of the refunding bonds. The proceeds of the refunding bonds may, in the
75.9 discretion of the commissioner of finance, be applied to the purchases or payment at
75.10 maturity of the bonds to be refunded, or the redemption of the outstanding bonds on the
75.11 first redemption date after delivery of the refunding bonds and may, until so used, be
75.12 placed in escrow to be applied to the purchase, retirement, or redemption. Refunding
75.13 bonds issued under this subdivision must be issued and secured in the manner provided
75.14 by the commissioner of finance.

75.15 Subd. 5. **Not a general or moral obligation.** Bonds issued under this section are
75.16 not public debt, and the full faith, credit, and taxing powers of the state are not pledged
75.17 for their payment. The bonds may not be paid, directly in whole or in part from a tax of
75.18 statewide application on any class of property, income, transaction, or privilege. Payment
75.19 of the bonds is limited to the revenues explicitly authorized to be pledged under this
75.20 section. The state neither makes nor has a moral obligation to pay the bonds if the pledged
75.21 revenues and other legal security for them is insufficient.

75.22 Subd. 6. **Trustee.** The commissioner of finance may contract with and appoint a
75.23 trustee for bondholders. The trustee has the powers and authority vested in it by the
75.24 commissioner of finance under the bond and trust indentures.

75.25 Subd. 7. **Pledges.** Any pledge made by the commissioner of finance is valid and
75.26 binding from the time the pledge is made. The money or property pledged and later
75.27 received by the commissioner of finance is immediately subject to the lien of the pledge
75.28 without any physical delivery of the property or money or further act, and the lien of
75.29 any pledge is valid and binding as against all parties having claims of any kind in tort,
75.30 contract, or otherwise against the commissioner of finance, whether or not those parties
75.31 have notice of the lien or pledge. Neither the order nor any other instrument by which a
75.32 pledge is created need be recorded.

75.33 Subd. 8. **Bonds; purchase and cancellation.** The commissioner of finance, subject
75.34 to agreements with bondholders that may then exist, may, out of any money available for
75.35 the purpose, purchase bonds of the commissioner of finance at a price not exceeding
75.36 (1) if the bonds are then redeemable, the redemption price then applicable plus accrued

76.1 interest to the next interest payment date thereon, or (2) if the bonds are not redeemable,
76.2 the redemption price applicable on the first date after the purchase upon which the bonds
76.3 become subject to redemption plus accrued interest to that date.

76.4 Subd. 9. **State pledge against impairment of contracts.** The state pledges and
76.5 agrees with the holders of any bonds that the state will not limit or alter the rights vested
76.6 in the commissioner of finance to fulfill the terms of any agreements made with the
76.7 bondholders, or in any way impair the rights and remedies of the holders until the bonds,
76.8 together with interest on them, with interest on any unpaid installments of interest, and all
76.9 costs and expenses in connection with any action or proceeding by or on behalf of the
76.10 bondholders, are fully met and discharged. The commissioner of finance may include this
76.11 pledge and agreement of the state in any agreement with the holders of bonds issued
76.12 under this section.

76.13 Sec. 37. **[116.195] BENEFICIAL USE OF WASTEWATER; CAPITAL GRANTS**
76.14 **FOR DEMONSTRATION PROJECTS.**

76.15 Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms
76.16 have the meanings given them.

76.17 (b) "Agency" means the Pollution Control Agency.

76.18 (c) "Beneficial use of wastewater" means use of the effluent from a wastewater
76.19 treatment plant that replaces use of groundwater.

76.20 (d) "Capital project" means the acquisition or betterment of public land, buildings,
76.21 and other public improvements of a capital nature for the treatment of wastewater intended
76.22 for beneficial use. Capital project includes projects to retrofit, expand, or construct new
76.23 treatment facilities.

76.24 Subd. 2. **Grants for capital project design.** The agency shall make grant awards
76.25 to political subdivisions for up to 50 percent of the costs to predesign and design capital
76.26 projects that demonstrate the beneficial use of wastewater. The maximum amount for a
76.27 grant under this subdivision is \$500,000. The grant agreement must provide that the
76.28 predesign and design work being funded is public information and available to anyone
76.29 without charge. The agency must make the predesign and design work available on its
76.30 Web site.

76.31 Subd. 3. **Grants for capital project implementation.** The agency shall make
76.32 grant awards to political subdivisions for up to 50 percent of the costs to acquire,
76.33 construct, install, furnish, and equip capital projects that demonstrate the beneficial use
76.34 of wastewater. The political subdivision must submit design plans and specifications
76.35 to the agency as part of the application.

77.1 The agency must consult with the Public Facilities Authority and the commissioner
 77.2 of natural resources in reviewing and ranking applications for grants under this section.

77.3 The application must identify the uses of the treated wastewater and greater weight
 77.4 will be given to applications that include a binding commitment to participate by the
 77.5 user or users.

77.6 The agency must give preference to projects that will reduce use of the greatest
 77.7 volume of groundwater from aquifers with the slowest rate of recharge.

77.8 Subd. 4. **Application form; procedures.** The agency shall develop an application
 77.9 form and procedures.

77.10 Subd. 5. **Reports.** The agency shall report by February 1 of each year to the chairs
 77.11 of the house and senate committees with jurisdiction over environment policy and finance
 77.12 and capital investment on the grants made and projects funded under this section. For each
 77.13 demonstration project funded, the report must include information on the scale of water
 77.14 constraints for the area, the volume of treated wastewater supply, the quality of treated
 77.15 wastewater supplied and treatment implications for the industrial user, impacts to stream
 77.16 flow and downstream users, and any considerations related to water appropriation and
 77.17 discharge permits.

77.18 Sec. 38. Minnesota Statutes 2006, section 116J.423, is amended by adding a
 77.19 subdivision to read:

77.20 Subd. 2a. **Grants authorized.** Notwithstanding subdivision 2, the commissioner
 77.21 may use money in the fund to make grants to a county, or to a county regional rail authority
 77.22 as appropriate, for public infrastructure needed to support an eligible project under this
 77.23 section. Grant money may be used by the county or regional rail authority to acquire
 77.24 right-of-way and mitigate loss of wetlands and runoff of storm water; to predesign, design,
 77.25 construct, and equip roads and rail lines; and, in cooperation with municipal utilities, to
 77.26 predesign, design, construct, and equip natural gas pipelines, electric infrastructure, water
 77.27 supply systems, and wastewater collection and treatment systems. Grants made under this
 77.28 subdivision are available until expended.

77.29 Sec. 39. Minnesota Statutes 2006, section 119A.45, is amended to read:

77.30 **119A.45 EARLY CHILDHOOD LEARNING AND CHILD PROTECTION**
 77.31 **FACILITIES.**

77.32 Subdivision 1. **Grant authority.** The commissioner may make grants to state
 77.33 agencies and political subdivisions to construct or rehabilitate facilities for early childhood
 77.34 programs, ~~with priority to centers in counties or municipalities with the highest percentage~~

78.1 ~~of children living in poverty. The commissioner may also make grants to state agencies~~
 78.2 ~~and political subdivisions to construct or rehabilitate facilities for crisis nurseries, or~~
 78.3 ~~parenting time centers. The following requirements apply:~~

78.4 (a) The facilities must be owned by the state or a political subdivision, but may
 78.5 be leased under section 16A.695 to organizations that operate the programs. The
 78.6 commissioner must prescribe the terms and conditions of the leases.

78.7 (b) A grant for an individual facility must not exceed ~~\$200,000~~ \$300,000 for each
 78.8 program that is housed in the facility, up to a maximum of ~~\$500,000~~ \$750,000 for a
 78.9 facility that houses three programs or more. Programs include Head Start, ~~early childhood~~
 78.10 ~~and family education programs~~ School Readiness, Early Childhood Family Education,
 78.11 licensed child care, and other early childhood intervention programs.

78.12 (c) State appropriations must be matched on a 50 percent basis with nonstate funds.
 78.13 The matching requirement must apply programwide and not to individual grants.

78.14 Subd. 2. **Grant priority.** (a) The commissioner must give priority to:

78.15 (1) projects in counties or municipalities with the highest percentage of children
 78.16 living in poverty;

78.17 (2) grants that involve collaboration among sponsors of programs under this section;
 78.18 and

78.19 (3) grants for programs that utilize Youthbuild under sections 116L.361 to 116L.366
 78.20 for at least 25 percent of each grant awarded or \$50,000 of the labor portion of the
 78.21 construction, whichever is less, if:

78.22 (i) the work is appropriate for Youthbuild, as mutually agreed upon by the grantee
 78.23 and the local Youthbuild program, considering safety and skills needed;

78.24 (ii) it is demonstrated by Youthbuild that using Youthbuild will not increase the
 78.25 overall cost of the project; and

78.26 (iii) eligible programs consult with appropriate labor organizations to deliver
 78.27 education and training.

78.28 (b) The commissioner may give priority to:

78.29 (1) projects that collaborate with child care providers, including all-day and
 78.30 school-age child care programs, special needs care, sick child care, nontraditional
 78.31 hour care, and programs that include services to refugee and immigrant families. ~~The~~
 78.32 ~~commissioner may give priority to;~~ and

78.33 (2) grants for programs that will increase their child care workers' wages as a result
 78.34 of the grant. ~~If there is work that is appropriate for youthbuild, as mutually agreed upon by~~
 78.35 ~~the grantee and the local youthbuild program, considering safety and skills needed, and if~~
 78.36 ~~it is demonstrated by youthbuild that using youthbuild will not increase the overall cost~~

79.1 ~~of the project, then priority must be given to grants for programs that utilize youthbuild~~
 79.2 ~~under sections 116L.361 to 116L.366 for at least 25 percent of each grant awarded or~~
 79.3 ~~\$50,000, whichever is less, of the labor portion of the construction. Eligible programs~~
 79.4 ~~must consult with appropriate labor organizations to deliver education and training. State~~
 79.5 ~~appropriations must be matched on a 50 percent basis with nonstate funds. The matching~~
 79.6 ~~requirement must apply programwide and not to individual grants.~~

79.7 Sec. 40. **[137.61] PURPOSE.**

79.8 (a) Sections 137.61 to 137.64 provide for a biomedical science research funding
 79.9 program to further the investment in biomedical science research facilities in Minnesota to
 79.10 benefit the state's economy, advance the biomedical technology industry, benefit human
 79.11 health, and facilitate research collaboration between the University of Minnesota and other
 79.12 private and public institutions in this state.

79.13 (b) For the purposes of the Department of Finance debt management guidelines,
 79.14 appropriations under section 137.64 must be treated the same as appropriations for the
 79.15 stadium under section 137.54.

79.16 Sec. 41. **[137.62] DEFINITIONS.**

79.17 Subdivision 1. **Applicability.** The definitions in this section apply to sections
 79.18 137.51 to 137.60.

79.19 Subd. 2. **Biomedical science research facility.** "Biomedical science research
 79.20 facility" means a facility located on the campus of the University of Minnesota to be used
 79.21 as a research facility and laboratory for biomedical science and biomedical technology. A
 79.22 hospital licensed under sections 144.50 to 144.56 is not a biomedical science research
 79.23 facility.

79.24 Subd. 3. **Commissioner.** "Commissioner" means the commissioner of finance.

79.25 Subd. 4. **Project costs.** "Project costs" means the sum of all obligations incurred,
 79.26 paid, or to be paid that are reasonably required for the design, construction, and completion
 79.27 of the project, including, but not limited to:

79.28 (1) site acquisition;

79.29 (2) soil and environmental testing, surveys, estimates, plans and specifications,
 79.30 supervision of construction, and other engineering and architectural services;

79.31 (3) payments under construction contracts and payments for performance bonds; and

79.32 (4) purchase and installation of furniture, fixtures, and equipment.

79.33 Subd. 5. **Project.** "Project" means the acquisition, construction, improvement,
 79.34 expansion, repair, or rehabilitation of all or part of a structure, facility, infrastructure, or

80.1 equipment necessary for a biomedical science research facility approved by the Board of
80.2 Regents.

80.3 Sec. 42. **[137.63] BIOMEDICAL SCIENCE RESEARCH FACILITIES**
80.4 **FUNDING PROGRAM.**

80.5 Subdivision 1. **Program established.** A biomedical science research facilities
80.6 funding program is established to provide appropriations to the Board of Regents of the
80.7 University of Minnesota for up to two-thirds of the project costs for each of four projects
80.8 approved by the Board of Regents under section 137.64.

80.9 Subd. 2. **Project requirements.** The Board of Regents of the University of
80.10 Minnesota, either acting on its own or in collaboration with another private or public
80.11 entity, must pay at least one-third of the project costs for each of four projects. The board
80.12 must not use tuition revenue to pay for the university's share of the costs for the projects
80.13 approved under section 137.64.

80.14 Sec. 43. **[137.64] CONDITIONS FOR PAYMENTS TO UNIVERSITY.**

80.15 Subdivision 1. **Certifications.** Before the commissioner may make any payments
80.16 authorized in this section to the Board of Regents for a biomedical science research
80.17 facility project, the commissioner must certify that the board has, by board resolution,
80.18 approved the maximum project cost for the project and complied with the requirements of
80.19 section 137.63, subdivision 2. For each project approved by the board, the board must
80.20 certify to the commissioner the amount of the annual payments of principal and interest
80.21 required to service each series of bonds issued by the University of Minnesota for the
80.22 project, and the actual amount of the state's annual payment to the University of Minnesota
80.23 under subdivision 2. The annual payment must not exceed the state's share of the amount
80.24 required to service the bonds issued for the project costs.

80.25 Subd. 2. **Payments.** On July 1 of each year after the certification under subdivision
80.26 1, but no earlier than July 1, 2009, and for so long thereafter as any bonds issued by the
80.27 board for the construction of a project are outstanding, the state must transfer to the board
80.28 annual payments as certified under subdivision 1, up to the maximum amounts in the
80.29 appropriation schedule under subdivision 3. Payments under this section are to reimburse
80.30 the Board of Regents for the state's share of the project costs for the biomedical science
80.31 research facility projects provided that the bonds issued to pay the state's share of such
80.32 costs shall not exceed \$195,600,000.

80.33 Subd. 3. **Appropriations.** Annual appropriations are made from the general fund to
80.34 the commissioner of finance for transfer to the Board of Regents, as follows:

81.1 (1) up to \$1,000,000 is appropriated in fiscal year 2010;
 81.2 (2) up to \$4,000,000 is appropriated in fiscal year 2011;
 81.3 (3) up to \$9,000,000 is appropriated in fiscal year 2012;
 81.4 (4) up to \$14,000,000 is appropriated in fiscal year 2013;
 81.5 (5) up to \$16,000,000 is appropriated in fiscal year 2014; and
 81.6 (6) up to \$16,575,000 is appropriated in fiscal year 2015 and each year thereafter, up
 81.7 to 25 years following the certification of the last project by the commissioner.

81.8 Subd. 4. **Report to legislature.** The Board of Regents must report to the committees
 81.9 of the legislature with responsibility for capital investment by January 15 of each
 81.10 even-numbered year on the biomedical science research facility projects authorized under
 81.11 this section. The report must at a minimum include for each project, the total cost, the
 81.12 number of researchers, research grants, and the amount of debt issued by the Board.

81.13 Subd. 5. **Reinvestment.** The Board of Regents must, to the extent permitted under
 81.14 federal law, place a priority on reducing the state's share of project costs by dedicating a
 81.15 share of the proceeds from any commercialization or licensing revenues attributable
 81.16 to research conducted in the biomedical science facilities to reduce the state's payment
 81.17 of debt service.

81.18 Subd. 6. **Services to individuals and firms.** Consistent with its mission and
 81.19 governing policies and the requirements for tax exempt bonds, the university shall make
 81.20 available laboratory and other services on a fee-for-service basis to individuals and firms
 81.21 in the bioscience industry in Minnesota. The university will not assert patent rights when
 81.22 providing services that do not involve its innovative intellectual contributions.

81.23 **Sec. 44. [137.65] NO FULL FAITH AND CREDIT.**

81.24 Any bonds or other obligations issued by the board under this act, are not public
 81.25 debt of the state, and the full faith and credit and taxing powers of the state are not pledged
 81.26 for their payment, or of any payments that the state agrees to make under this act.

81.27 **Sec. 45.** Minnesota Statutes 2006, section 462A.21, is amended by adding a
 81.28 subdivision to read:

81.29 Subd. 32. **Nonprofit housing bonds account.** The agency may establish a nonprofit
 81.30 housing bond account as a separate account within the housing development fund.
 81.31 Proceeds of nonprofit housing bonds and payments made by the state pursuant to section
 81.32 462A.36 may be deposited in the account. The agency may transfer the proceeds of
 81.33 nonprofit housing bonds to another account within the housing development fund that it

82.1 determines appropriate to accomplish the purposes for which the bonds are authorized
82.2 under section 462A.36.

82.3 Sec. 46. **[462A.36] NONPROFIT HOUSING BONDS; AUTHORIZATION;**
82.4 **STANDING APPROPRIATION.**

82.5 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms
82.6 have the meanings given them.

82.7 (b) "Debt service" means the amount payable in any fiscal year of principal of,
82.8 premium, if any, and interest on nonprofit housing bonds and the fees, charges, and
82.9 expenses related to the bonds.

82.10 (c) "Internal Revenue Code" means the Internal Revenue Code of 1986, as amended.

82.11 (d) "Nonprofit housing bonds" means bonds issued by the agency under this chapter
82.12 that are "qualified 501(c)(3) bonds" (within the meaning of Section 145(a) of the Internal
82.13 Revenue Code) or are not "private activity bonds" (within the meaning of Section 141(a)
82.14 of the Internal Revenue Code) for the purpose of financing or refinancing affordable
82.15 housing authorized under this chapter.

82.16 Subd. 2. **Appropriation of debt service; payment to agency or trustee.** (a) Up to
82.17 \$2,400,000 annually is appropriated from the general fund for deposit in the nonprofit
82.18 housing bond account established in section 462A.21, subdivision 32, to pay the debt
82.19 service on nonprofit housing bonds. The appropriation may be made for no more than 20
82.20 years, commencing with the fiscal year beginning July 1, 2009.

82.21 (b) On July 1 of each year, but no earlier than July 1, 2009, and for so long as any
82.22 nonprofit housing bonds are outstanding, the state must transfer from the general fund
82.23 to the nonprofit housing bond account established under section 462A.21, subdivision
82.24 32, the amount of debt service payable in the fiscal year certified by the agency to the
82.25 commissioner of finance, not to exceed \$2,400,000 annually.

82.26 (c) The agency may pledge to the payment of the nonprofit housing bonds the
82.27 payments to be made by the state pursuant to this section.

82.28 Subd. 3. **No full faith and credit.** The nonprofit housing bonds are not public debt
82.29 of the state, and the full faith and credit and taxing powers of the state are not pledged
82.30 to the payment of the nonprofit housing bonds or to any payment that the state agrees to
82.31 make under this section. The bonds must contain a conspicuous statement to such effect.

82.32 Subd. 4. **Authorization.** The agency may issue up to \$30 million of nonprofit
82.33 housing bonds in one or more series to which the payments made pursuant to this section
82.34 may be pledged. The nonprofit housing bonds authorized in this subdivision may be issued
82.35 for the purpose of making loans, on terms and conditions the agency deems appropriate,

83.1 to finance the costs of the construction, acquisition, preservation, and rehabilitation of
 83.2 permanent supportive housing for individuals and families who: (1) either have been
 83.3 without a permanent residence for at least 12 months or at least four times in the last three
 83.4 years; or (2) are at significant risk of lacking a permanent residence for 12 months or at
 83.5 least four times in the last three years. An insubstantial portion of the bond proceeds
 83.6 may be used for permanent supportive housing for individuals and families experiencing
 83.7 homelessness who do not meet the criteria of the previous sentence. For purposes of this
 83.8 subdivision, "permanent supportive housing" means housing that is not time-limited and
 83.9 provides or coordinates with linkages to services necessary for residents to maintain
 83.10 housing stability and maximize opportunities for education and employment.

83.11 Sec. 47. Laws 1997, chapter 21, section 1, is amended to read:

83.12 Section 1. **NASHWAUK GAS UTILITY.**

83.13 The city of Nashwauk may construct and own one gas distribution line connecting
 83.14 an area recently acquired by the city, and not currently served by a natural gas utility, with
 83.15 a natural gas pipeline serving the region. ~~Solely for the purpose of operating this gas line,~~
 83.16 ~~and distributing gas to customers located in the recently acquired area;~~ The city may
 83.17 establish a municipal gas utility without the election required under Minnesota Statutes,
 83.18 section 412.321, subdivision 2, for the purpose of constructing, owning, and operating this
 83.19 and other gas pipelines, and distributing gas to customers located within the municipal
 83.20 boundaries of Nashwauk and to customers located within neighboring municipalities.
