

2.1 Sec. 2. Minnesota Statutes 2006, section 144.651, subdivision 10, is amended to read:

2.2 Subd. 10. **Participation in planning treatment; notification of family members.**

2.3 (a) Patients and residents shall have the right to participate in the planning of their  
2.4 health care. This right includes the opportunity to discuss treatment and alternatives  
2.5 with individual caregivers, the opportunity to request and participate in formal care  
2.6 conferences, and the right to include a family member or other chosen representative, or  
2.7 both. In the event that the patient or resident cannot be present, a family member or other  
2.8 representative chosen by the patient or resident may be included in such conferences. A  
2.9 patient who is an expectant mother has the right to the presence of a doula of the patient's  
2.10 choice except in the case of an emergency as provided in section 144.652, subdivision 2.

2.11 (b) If a patient or resident who enters a facility is unconscious or comatose or is  
2.12 unable to communicate, the facility shall make reasonable efforts as required under  
2.13 paragraph (c) to notify either a family member or a person designated in writing by the  
2.14 patient as the person to contact in an emergency that the patient or resident has been  
2.15 admitted to the facility. The facility shall allow the family member to participate in  
2.16 treatment planning, unless the facility knows or has reason to believe the patient or  
2.17 resident has an effective advance directive to the contrary or knows the patient or resident  
2.18 has specified in writing that they do not want a family member included in treatment  
2.19 planning. After notifying a family member but prior to allowing a family member to  
2.20 participate in treatment planning, the facility must make reasonable efforts, consistent  
2.21 with reasonable medical practice, to determine if the patient or resident has executed an  
2.22 advance directive relative to the patient or resident's health care decisions. For purposes of  
2.23 this paragraph, "reasonable efforts" include:

2.24 (1) examining the personal effects of the patient or resident;

2.25 (2) examining the medical records of the patient or resident in the possession  
2.26 of the facility;

2.27 (3) inquiring of any emergency contact or family member contacted under this  
2.28 section whether the patient or resident has executed an advance directive and whether the  
2.29 patient or resident has a physician to whom the patient or resident normally goes for  
2.30 care; and

2.31 (4) inquiring of the physician to whom the patient or resident normally goes for care,  
2.32 if known, whether the patient or resident has executed an advance directive. If a facility  
2.33 notifies a family member or designated emergency contact or allows a family member  
2.34 to participate in treatment planning in accordance with this paragraph, the facility is not  
2.35 liable to the patient or resident for damages on the grounds that the notification of the

3.1 family member or emergency contact or the participation of the family member was  
3.2 improper or violated the patient's privacy rights.

3.3 (c) In making reasonable efforts to notify a family member or designated emergency  
3.4 contact, the facility shall attempt to identify family members or a designated emergency  
3.5 contact by examining the personal effects of the patient or resident and the medical records  
3.6 of the patient or resident in the possession of the facility. If the facility is unable to notify  
3.7 a family member or designated emergency contact within 24 hours after the admission,  
3.8 the facility shall notify the county social service agency or local law enforcement agency  
3.9 that the patient or resident has been admitted and the facility has been unable to notify a  
3.10 family member or designated emergency contact. The county social service agency and  
3.11 local law enforcement agency shall assist the facility in identifying and notifying a family  
3.12 member or designated emergency contact. A county social service agency or local law  
3.13 enforcement agency that assists a facility in implementing this subdivision is not liable  
3.14 to the patient or resident for damages on the grounds that the notification of the family  
3.15 member or emergency contact or the participation of the family member was improper or  
3.16 violated the patient's privacy rights.
