2.3 The county board may also provide by ordinance for a transfer of development credits  
2.4 bank with the power to purchase, hold and sell development credits, or designate as the  
2.5 county's transfer of development credits bank a nongovernmental entity, including a

2.9 Sec. 2. Minnesota Statutes 2006, section 462.357, subdivision 1, is amended to read:

2.10 Subdivision 1. **Authority for zoning.** For the purpose of promoting the public  
2.11 health, safety, morals, and general welfare, a municipality may by ordinance regulate  
2.12 on the earth's surface, in the air space above the surface, and in subsurface areas, the  
2.13 location, height, width, bulk, type of foundation, number of stories, size of buildings  
2.14 and other structures, the percentage of lot which may be occupied, the size of yards and

2.18 conservation, water supply conservation, conservation of shorelands, as defined in  
2.19 sections 103F.201 to 103F.221, access to direct sunlight for solar energy systems as  
2.20 defined in section 216C.06, flood control or other purposes, and may establish standards  
2.21 and procedures regulating such uses. To accomplish these purposes, official controls  
2.22 may include provision for purchase of development rights by the governing body in the  
2.23 form of conservation easements under chapter 84C in areas where the governing body  
2.24 considers preservation desirable and the transfer of development rights from those areas to  
2.25 areas the governing body considers more appropriate for development. The municipality  
2.26 may also provide by ordinance for a transfer of development credits bank with the  
2.27 power to purchase, hold and sell development credits, or designate as the municipality's  
2.28 transfer of development credits bank a nongovernmental entity, including a not-for-profit  
2.29 organization organized under section 501(c)(3) of the Internal Revenue Code, or a private  
2.30 commercial enterprise, including but not limited to a credit union or a privately held  
2.31 commercial bank. No regulation may prohibit earth sheltered construction as defined in  
2.32 section 216C.06, subdivision 14, relocated residential buildings, or manufactured homes  
2.33 built in conformance with sections 327.31 to 327.35 that comply with all other zoning  
2.34 ordinances promulgated pursuant to this section. The regulations may divide the surface,  
2.35 above surface, and subsurface areas of the municipality into districts or zones of suitable

3.1 numbers, shape, and area. The regulations shall be uniform for each class or kind of  
3.2 buildings, structures, or land and for each class or kind of use throughout such district,  
3.3 but the regulations in one district may differ from those in other districts. The ordinance  
3.4 embodying these regulations shall be known as the zoning ordinance and shall consist of  
3.5 text and maps. A city may by ordinance extend the application of its zoning regulations to  
3.6 unincorporated territory located within two miles of its limits in any direction, but not  
3.7 in a county or town which has adopted zoning regulations; provided that where two or  
3.8 more noncontiguous municipalities have boundaries less than four miles apart, each is  
3.9 authorized to control the zoning of land on its side of a line equidistant between the two  
3.10 noncontiguous municipalities unless a town or county in the affected area has adopted  
3.11 zoning regulations. Any city may thereafter enforce such regulations in the area to the  
3.12 same extent as if such property were situated within its corporate limits, until the county  
3.13 or town board adopts a comprehensive zoning regulation which includes the area.
