plan for financial reporting purposes under paragraphs (a) to (j), the actuarial valuation
of the retirement plan must also include a calculation of the unfunded actuarial accrued

Subd. 4. Medical or psychological examinations; authorization for payment of
benefit. (a) An applicant shall provide medical, chiropractic, or psychological evidence to
support an application for total and permanent disability.

REVISOR

- (b) The director shall have the employee examined by at least one additional licensed chiropractor, physician, or psychologist designated by the medical adviser. The chiropractors, physicians, or psychologists shall make written reports to the director concerning the employee's disability including expert opinions as to whether the employee is permanently and totally disabled within the meaning of section 352.01, subdivision 17.
- (c) The director shall also obtain written certification from the employer stating whether the employment has ceased or whether the employee is on sick leave of absence because of a disability that will prevent further service to the employer and as a consequence the employee is not entitled to compensation from the employer.
- (d) The medical adviser shall consider the reports of the physicians, psychologists, and chiropractors and any other evidence supplied by the employee or other interested parties. If the medical adviser finds the employee totally and permanently disabled, the adviser shall make appropriate recommendation to the director in writing together with the date from which the employee has been totally disabled. The director shall then determine if the disability occurred within 180 days 18 months of filing the application, while still in the employment of the state, and the propriety of authorizing payment of a disability benefit as provided in this section.
- (e) A terminated employee may apply for a disability benefit within 180 days 18 months of termination as long as the disability occurred while in the employment of the state. The fact that an employee is placed on leave of absence without compensation because of disability does not bar that employee from receiving a disability benefit.
- (f) Unless the payment of a disability benefit has terminated because the employee is no longer totally disabled, or because the employee has reached normal retirement age as provided in this section, the disability benefit must cease with the last payment received by the disabled employee or which had accrued during the lifetime of the employee unless there is a spouse surviving. In that event, the surviving spouse is entitled to the disability benefit for the calendar month in which the disabled employee died.
- **EFFECTIVE DATE.** This section is effective July 1, 2009, and applies to disability 46.32 benefit applicants whose last day of public employment was after June 30, 2009.

that does not exceed one year, and for which a member obtained service credit for each month in the leave period by payment under section 353.0161 to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;

(5) (6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 20 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(6) (7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. The service is credited if the member pays into the fund equivalent employee contributions based upon the

contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 20 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under subdivision 40.

93.1	Subd. 3. Benefit adjustments. (a) For a former member who is receiving a
93.2	retirement annuity or disability benefit, or for a person receiving an optional annuity or
93.3	survivor benefit, the executive director must:
93.4	(1) adjust the annuity or benefit payment to the correct monthly benefit amount
93.5	payable by reducing the average salary under Minnesota Statutes, section 353.01,
93.6	subdivision 17a, by the invalid salary amounts;
93.7	(2) determine the amount of the overpaid benefits paid from the effective date of
93.8	the annuity or benefit payment to the first of the month in which the monthly benefit
93.9	amount is corrected;
93.10	(3) calculate the amount of employee deductions taken in error on invalid salary,
93.11	including interest at the rate specified in Minnesota Statutes, section 353.34, subdivision 2
93.12	from the date each invalid employee deduction was received through the date the annuity
93.13	or benefit is adjusted as provided under clause (1); and
93.14	(4) determine the net amount of overpaid benefits by reducing the amount of the
93.15	overpaid annuity or benefit as determined in clause (2) by the amount of the erroneous
93.16	employee deductions with interest determined in clause (3).
93.17	(b) If a former member's erroneous employee deductions plus interest determined
93.18	under this section exceeds the amount of the person's overpaid benefits, the balance must

93.23	provide a credit without interest to the city of Duluth and to the Duluth Airport Authority
93.24	for the amount of that governmental subdivision's erroneous employer contributions. The
93.25	credit must first be used to offset the net amount of the overpaid retirement annuities and
93.26	the disability and survivor benefits that remains after applying the amount of erroneous
93.27	employee deductions with interest as provided under subdivision 3, paragraph (a),
93.28	clause (4). The remaining erroneous employer contributions, if any, must be credited
93.29	against future employer contributions required to be paid by the applicable governmental
93.30	subdivision. If the overpaid benefits exceed the employer contribution credit, the balance
93.31	of the overpaid benefits is the obligation of the city of Duluth or the Duluth Airport
93.32	Authority, whichever is applicable.
93.33	(b) The Public Employees Retirement Association board of trustees shall determine
93.34	the period of time and manner for the collection of overpaid retirement annuities and

- (c) This paragraph, in conjunction with subdivision 6, applies to a person who first became a member or a member in a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a higher annuity amount, in which case paragraph (d) applies. The retirement annuity formula percentage for purposes of this paragraph is the percent specified in section 356.315, subdivision 1, per year for each year of coordinated service for the first ten years and the percent specified in section 356.315, subdivision 2, for each subsequent year of coordinated service. The average salary multiplied by the following retirement annuity formula percentage per year of allowable service determines the amount of the annuity to which the member qualifying therefor is entitled for service rendered before July 1, 2011:

- (b) The commissioner shall calculate an initial fire state aid allocation amount for each municipality or fire department under paragraph (c) and a minimum fire state aid allocation amount for each municipality or fire department under paragraph (d). The municipality or fire department must receive the larger fire state aid amount.
- (c) The initial fire state aid allocation amount is the amount available for apportionment as fire state aid under subdivision 5, without inclusion of any additional funding amount to support a minimum fire state aid amount under section 423A.02, subdivision 3, allocated one-half in proportion to the population as shown in the last official statewide federal census for each fire town and one-half in proportion to the market value of each fire town, including (1) the market value of tax exempt property and (2) the market value of natural resources lands receiving in lieu payments under sections 477A.11 to 477A.14, but excluding the market value of minerals. Necessary adjustments shall must be made to subsequent apportionments. In the case of municipalities or independent fire departments qualifying for the aid, the commissioner shall calculate the state aid for the municipality or relief association on the basis of the population and the market value of the area furnished fire protection service by the fire department as evidenced by duly executed and valid fire service agreements filed with the commissioner. If the firefighters of the applicable fire department are members of the voluntary statewide lump-sum volunteer firefighter retirement plan, the fire state aid must be paid to the executive director of the Public Employees Retirement Association and deposited in the voluntary statewide lump-sum volunteer firefighter retirement fund.

(d) If a cost analysis is requested and a volunteer firefighters' relief association exists that has filed the information required under section 69.051 in a timely fashion, upon request by the executive director, the state auditor shall provide the most recent data available on the financial condition of the volunteer firefighters' relief association, the most recent firefighter demographic data available, and a copy of the current relief association bylaws. The security or asset liquidation must occur before the effective date of the transfer of retirement plan coverage. If requested to do so by the chief administrative officer of the relief association, the executive director of the State Board of Investment shall provide advice about the best means to conduct the liquidation.

(f) Upon receipt of the cost analysis, the governing body of the municipality or independent nonprofit firefighting corporation associated with the fire department shall approve or disapprove the retirement coverage change within 90 days. Sec. 15. [353G.06] DISESTABLISHMENT OF PRIOR VOLUNTEER 135.32 FIREFIGHTERS' RELIEF ASSOCIATION SPECIAL FUND UPON 135.33 RETIREMENT COVERAGE CHANGE. 135.34

135

Article 10 Sec. 15.

136.1	Subdivision 1. Special fund disestablishment. (a) On the date immediately prior	
136.2	to the effective date of the coverage change, the special fund of the applicable volunteer	
136.3	firefighters' relief association, if one exists, ceases to exist as a pension fund of the	
136.4	association and legal title to the assets of the special fund transfers to the State Board of	
136.5	Investment, with the beneficial title to the assets of the special fund remaining in the	
136.6	applicable volunteer firefighters.	
136.7	(b) If the market value of the special fund of the volunteer firefighters' relief	
136.8	association for which retirement coverage changed under this chapter declines in the	
136.9	interval between the date of the most recent financial report or statement, and the special	
136.10	fund disestablishment date, the applicable municipality shall transfer an additional amount	
136.11	to the State Board of Investment equal to that decline. If more than one municipality is	
136.12	responsible for the direct management of the fire department, the municipalities shall	
136.13	allocate the additional transfer amount among the various applicable municipalities	
136.14	one-half in proportion to the population of each municipality and one-half in proportion	
136.15	to the market value of each municipality.	
136.16	Subd. 2. Other relief association changes. In addition to the transfer and	
136.17	disestablishment of the special fund under subdivision 1, notwithstanding any provisions	
136.18	of chapter 424A or 424B to the contrary, upon the effective date of the change in volunteer	
136.19	firefighter retirement coverage, if the relief association membership elects to retain the	
136.20	relief association after the benefit coverage election, the following changes must be	
136.21	implemented with respect to the applicable volunteer firefighters' relief association:	
136.22	(1) the relief association board of trustees membership is reduced to five, comprised	
136.23	of the fire chief of the fire department and four trustees elected by and from the relief	
136.24	association membership;	
136.25	(2) the relief association may only maintain a general fund, which continues to	
136.26	be governed by section 424A.06;	
136.27	(3) the relief association is not authorized to receive the proceeds of any state aid or	
136.28	to receive any municipal funds; and	
136.29	(4) the relief association may not pay any service pension or benefit that was not	
136.30	authorized as a general fund disbursement under the articles of incorporation or bylaws of	
136.31	the relief association in effect prior to the plan coverage election process.	
136.32	Subd. 3. Successor in interest. Upon the disestablishment of the special fund of	
136.33	the volunteer firefighters' relief association under this section, the voluntary statewide	
136.34	lump-sum volunteer firefighter retirement plan is the successor in interest of the special	
136.35	fund of the volunteer firefighters' relief association for all claims against the special fund	
136.36	other than a claim against the special fund, the volunteer firefighters' relief association,

firefighters' relief association in a fiduciary capacity under chapter 356A or common law		
that was based on any act or acts which were not performed in good faith and which		
constituted a breach of a fiduciary obligation. As the successor in interest of the special

Sec. 16. [353G.07] CERTIFICATION OF GOOD TIME SERVICE CREDIT.

- (a) Annually, by March 31, the fire chief of the fire department with firefighters who are active members of the retirement plan shall certify to the executive director the good time service credit for the previous calendar year of each firefighter rendering active service with the fire department.
- (b) The fire chief shall provide to each firefighter rendering active service with the fire department notification of the amount of good time service credit rendered by the firefighter for the calendar year. The good time service credit notification must be provided to the firefighter 60 days before its certification to the executive director of the Public Employees Retirement Association, along with an indication of the process for the firefighter to challenge the fire chief's determination of good time service credit. If the good time service credit amount is challenged in a timely fashion, the fire chief shall hold a hearing on the challenge, accept and consider any additional pertinent information, and make a final determination of good time service credit. The final determination of good time service credit by the fire chief is not reviewable by the executive director of the Public Employees Retirement Association or by the board of trustees of the Public Employees Retirement Association.
- (c) The good time service credit certification is an official public document. If a false good time service credit certification is filed or if false information regarding good time service credits is provided, section 353.19 applies.
- (d) The good time service credit certification must be expressed as a percentage of a full year of service during which an active firefighter rendered at least the minimum level and quantity of fire suppression, emergency response, fire prevention, or fire education duties required by the fire department under the rules and regulations applicable to the fire department. No more than one year of good time service credit may be certified for a calendar year.

Sec. 17. [353G.08] RETIREMENT PLAN FUNDING; DISBURSEMENTS.

- (a) Annually, the executive director shall determine the funding requirements of each account in the voluntary statewide lump-sum volunteer firefighter retirement plan on or before August 1. The funding requirements as directed under this section, must be determined using a mathematical procedure developed and certified as accurate by an approved actuary retained by the Public Employees Retirement Association and based on present value factors using a six percent interest rate, without any decrement assumptions. The funding requirements must be certified to the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan.
- (b) The overall funding balance of each account for the current calendar year must be determined in the following manner:
- (1) The total accrued liability for all active and deferred members of the account as of December 31 of the current year must be calculated based on the good time service credit of active and deferred members as of that date.
- (2) The total present assets of the account projected to December 31 of the current year, including receipts by and disbursements from the account anticipated to occur on or before December 31, must be calculated. To the extent possible, the market value of assets must be utilized in making this calculation.
- (3) The amount of the total present assets calculated under clause (2) must be subtracted from the amount of the total accrued liability calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the account is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the account is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

Article 10 Sec. 17.

139.1	(c) The financial requirements of each account for the following calendar year must	
139.2	be determined in the following manner:	
139.3	(1) The total accrued liability for all active and deferred members of the account	
139.4	as of December 31 of the calendar year next following the current calendar year must be	
139.5	calculated based on the good time service used in the calculation under paragraph (b),	
139.6	clause (1), increased by one year.	
139.7	(2) The increase in the total accrued liability of the account for the following calendar	
139.8	year over the total accrued liability of the account for the current year must be calculated.	
139.9	(3) The amount of anticipated future administrative expenses of the account must be	
139.10	calculated by multiplying the dollar amount of the administrative expenses for the most	
139.11	recent prior calendar year by the factor of 1.035.	
139.12	(4) If the account is fully funded, the financial requirement of the account for the	
139.13	following calendar year is the total of the amounts calculated under clauses (2) and (3).	
139.14	(5) If the account has a deficit from full funding, the financial requirement of the	
139.15	account for the following calendar year is the total of the amounts calculated under clauses	
139.16	(2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full	
139.17	funding of the account.	
139.18	(6) If the account has a surplus over full funding, the financial requirement of	
139.19	the account for the following calendar year is the financial requirement of the account	
139.20	calculated as though the account was fully funded under clause (4) and, if the account has	
139.21	also had a surplus over full funding during the prior two years, additionally reduced by an	
139.22	amount equal to one-tenth of the amount of the surplus over full funding of the account.	
139.23	(d) The required contribution of the entity or entities associated with the fire	
139.24	department whose active firefighters are covered by the retirement plan is the annual	
139.25	financial requirements of the account of the retirement plan under paragraph (c) reduced	
139.26	by the amount of any fire state aid payable under sections 69.011 to 69.051 reasonably	
139.27	anticipated to be received by the retirement plan attributable to the entity or entities during	
139.28	the following calendar year, and an amount of interest on the assets projected to be	
139.29	received during the following calendar year calculated at the rate of six percent per annum.	
139.30	The required contribution must be allocated between the entities if more than one entity	
139.31	is involved. A reasonable amount of anticipated fire state aid is an amount that does not	
139.32	exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.	
139.33	(e) The required contribution calculated in paragraph (d) must be paid to the	
139.34	retirement plan on or before December 31 of the year for which it was calculated. If	
139.35	the contribution is not received by the retirement plan by December 31, it is payable	
130 36	with interest at an annual compound rate of six percent from the date due until the date	

140.1	payment is received by the retirement plan. If the entity does not pay the full amount of		
140.2	the required contribution, the executive director shall collect the unpaid amount under		
140.3	section 353.28, subdivision 6.		
140.4	(f) The assets of the retirement fund may only be disbursed for:

140.8	353G.15; and		
140.9	(4) the survivor benefits payable	under section 353G.12.

167.9	(ii) any retired member who retired before obtaining a full nonforfeitable interest in
167.10	the amounts credited to the individual member account under subdivision 2, paragraph
167.11	(b), and any applicable provision of the bylaws of the relief association. In addition, any
167.12	investment return on the assets of the special fund must be credited in proportion to the
167.13	share of the assets of the special fund to the credit of each individual active member
167.14	account. Administrative expenses of the relief association payable from the special
167.15	fund may be deducted from individual accounts in a manner specified in the bylaws of
167.16	the relief association.
167.17	(c) Amounts to be credited to individual accounts must be allocated uniformly for all
167.18	years of active service and allocations must be made for all years of service, except for
167.19	caps on service credit if so provided in the bylaws of the relief association. The allocation
167.20	method may utilize monthly proration for fractional years of service, as the bylaws or
167.21	articles of incorporation of the relief association so provide. The bylaws or articles of
167.22	incorporation may define a "month," but the definition must require a calendar month to
167.23	have at least 16 days of active service. If the bylaws or articles of incorporation do not
167.24	define a "month," a "month" is a completed calendar month of active service measured
167.25	from the member's date of entry to the same date in the subsequent month.
167.26	(d) At the time of retirement under subdivision 2 and any applicable provision of the
167.27	bylaws of the relief association, a retiring member is entitled to that portion of the assets
167.28	of the special fund to the credit of the member in the individual member account which is
167.29	nonforfeitable under subdivision 3 and any applicable provision of the bylaws of the relief
167.30	association based on the number of years of service to the credit of the retiring member.
167.31	(e) Annually, the secretary of the relief association shall certify the individual
167.32	account allocations to the state auditor at the same time that the annual financial statement
167.33	or financial report and audit of the relief association, whichever applies, is due under
167.34	section 69.051.
167.35	Subd. 5. Service pension installment payments. A defined contribution relief
167.36	association, if the governing bylaws so provide, may pay, at the option of the retiring

168.1	member and in lieu of a single payment of a service pension, the service pension in
168.2	installments. The election of installment payments is irrevocable and must be made by the
168.3	retiring member in writing and filed with the secretary of the relief association no later
168.4	than 30 days before the commencement of payment of the service pension. The amount of
168.5	the installment payments must be the fractional portion of the remaining account balance
168.6	equal to one divided by the number of remaining annual installment payments.
168.7	Subd. 6. Deferred service pensions. (a) A member of a relief association is entitled
168.8	to a deferred service pension if the member:
168.9	(1) has completed the lesser of the minimum period of active service with the fire
168.10	department specified in the bylaws or 20 years of active service with the fire department;
168.11	(2) has completed at least five years of active membership in the relief association;
168.12	<u>and</u>
168.13	(3) separates from active service and membership before reaching age 50 or the
168.14	minimum age for retirement and commencement of a service pension specified in the
168.15	bylaws governing the relief association if that age is greater than age 50.
168.16	(b) The deferred service pension is payable when the former member reaches age
168.17	50, or the minimum age specified in the bylaws governing the relief association if that age
168.18	is greater than age 50, and when the former member makes a valid written application.
168.19	(c) A defined contribution relief association may, if its governing bylaws so provide,
168.20	credit interest or additional investment performance on the deferred lump-sum service
168.21	pension during the period of deferral. If provided for in the bylaws, the interest must be
168.22	paid:
168.23	(1) at the investment performance rate actually earned on that portion of the assets
168.24	if the deferred benefit amount is invested by the relief association in a separate account
168.25	established and maintained by the relief association or if the deferred benefit amount is
168.26	invested in a separate investment vehicle held by the relief association; or
168.27	(2) the investment return on the assets of the special fund of the defined contribution
168.28	volunteer firefighter relief association in proportion to the share of the assets of the special
168.29	fund to the credit of each individual deferred member account through the date on which
168.30	the investment return is recognized by and credited to the special fund.
168.31	(d) The deferred service pension is governed by and must be calculated under
168.32	the general statute, special law, relief association articles of incorporation, and relief
168.33	association bylaw provisions applicable on the date on which the member separated from
168.34	active service with the fire department and active membership in the relief association.
168.35	Subd. 7. Limitation on ancillary benefits. (a) A defined contribution relief

Subd. 8. Filing of bylaw amendments. Each relief association to which this section applies must file a revised copy of its governing bylaws with the state auditor upon the adoption of any amendment to its governing bylaws by the relief association. Failure of the relief association to file a copy of the bylaws or any bylaw amendments with the state auditor disqualifies the municipality from the distribution of any future fire state aid until this filing requirement has been completed.

A service pension computed under this section may be prorated monthly for fractional years of service, if as the bylaws or articles of incorporation of the relief association so provide. The bylaws or articles of incorporation may define a "month," but the definition must require a calendar month to have at least 16 days of active service. If the bylaws or articles of incorporation do not define a "month," a "month" is a completed calendar month of active service measured from the member's date of entry to the same date in the subsequent month. account must be included in the recognized value of assets other than corporate stocks and all other equity investments. In any fiscal year in which the gains on the sales of debt securities exceed the discounts realized on the sales of such securities, the excess must be used to reduce the balance of the account. If the realized capital gains are sufficient to reduce the balance of the account to zero, any excess gains must be available for the calculation of postretirement adjustments.

- (d)(1) Annually, following June 30, the board shall use the procedures in clauses (2), (3), and (4), to determine whether a postretirement adjustment is payable and to determine the amount of any postretirement adjustment.
- (2) If the Consumer Price Index for urban wage earners and clerical workers all items index published by the Bureau of Labor Statistics of the United States Department of Labor increases from June 30 of the preceding year to June 30 of the current year, the board shall certify the percentage increase. The amount certified must not exceed the lesser of the difference between the preretirement interest assumption and postretirement interest assumption in section 356.215, subdivision 8, paragraph (a), or 3.5 percent.
- (3) In addition to any percentage increase certified under paragraph (b), the board shall use the following procedures to determine if a postretirement adjustment is payable under this paragraph:
 - (i) the board shall determine the market value of the fund on June 30 of that year;
- (ii) the amount of reserves required as of the current June 30 for the annuity or benefit payable to an annuitant and benefit recipient must be determined by the actuary retained under section 356.214. An annuitant or benefit recipient who has been receiving an annuity or benefit for at least 12 full months as of the current June 30 is eligible to receive a full postretirement adjustment. An annuitant or benefit recipient who has been receiving an annuity or benefit for at least one full month, but less than 12 full months as of the current June 30, is eligible to receive a partial postretirement adjustment. The amount of the reserves for those annuitants and benefit recipients who are eligible to receive a full postretirement benefit adjustment is known as "eligible reserves." The amount of the reserves for those annuitants and benefit recipients who are not eligible to receive a postretirement adjustment is known as "noneligible reserves." For an annuitant or benefit recipient who is eligible to receive a partial postretirement adjustment, additional "eligible reserves" is an amount that bears the same ratio to the total reserves required for the annuitant or benefit recipient as the number of full months of annuity or benefit receipt as of the current June 30 bears to 12 full months. The remainder of the annuitant's or benefit recipient's reserves are "noneligible reserves";

of these percentages must be carried to five decimal places and must be certified as the full postretirement adjustment percentage.

(e) The board shall determine the amount of the postretirement adjustment payable to each eligible annuitant and benefit recipient. The dollar amount of the postretirement adjustment must be calculated by applying the certified postretirement adjustment percentage to the amount of the monthly annuity or benefit payable to each eligible annuitant or benefit recipient eligible for a full adjustment.

The dollar amount of the partial postretirement adjustment payable to each annuitant or benefit recipient eligible for a partial adjustment must be calculated by first determining a partial percentage amount that bears the same ratio to the certified full adjustment percentage amount as the number of full months of annuity or benefit receipt as of the current June 30 bears to 12 full months. The partial percentage amount determined must then be applied to the amount of the monthly annuity or benefit payable to each annuitant or benefit recipient eligible to receive a partial postretirement adjustment. The postretirement adjustments are payable on January 1 following the calculations required under this section and must thereafter be included in the monthly annuity or benefit paid to the recipient. Any adjustments under this section must be paid automatically unless the intended recipient files a written notice with the applicable participating public pension fund or plan requesting that the adjustment not be paid.

(f) As of June 30 annually, the actuary retained under section 356.214 shall calculate the amount of required reserves representing any mortality gains and any mortality losses incurred during the fiscal year and report the results of those calculations to the plan. The actuary shall report separately the amount of the reserves for annuitants and benefit recipients who are eligible for a postretirement benefit adjustment and the amount of reserves for annuitants and benefit recipients who are not eligible for a postretirement benefit adjustment. If the net amount of required reserves represents a mortality gain, the board shall sell sufficient securities or transfer sufficient available cash to equal the amount. If the amount of required reserves represents a mortality loss, the plan shall transfer an amount equal to the amount of the net mortality loss. The amount of the transfers must be determined before any postretirement benefit adjustments have been made. All transfers resulting from mortality adjustments must be completed annually by December 31 for the preceding June 30. Interest is payable on any transfers after December 31 based upon the preretirement interest assumption for the participating plan or fund as specified in section 356.215, subdivision 8, stated as a monthly rate. Book values of the assets of the fund must be determined only after all adjustments for mortality gains and losses for the fiscal year have been made.
