13.3 the dependent child or children and the joint annuitant must not exceed the 70 percent
13.4 maximum family benefit under section 353.31, subdivision 1a. If the maximum is
13.5 exceeded, each dependent child will receive ten percent of the member's specified
13.6 average monthly salary, and the benefit to the joint annuitant must be reduced to the

13.18 employment position held by the disabled person immediately before becoming disabled,
13.19 whichever is greater, the executive director shall continue the disability benefit in an
13.20 amount that, when added to the earnings and any workers' compensation benefit, does not
13.21 exceed the salary rate at the date of disability or the salary currently paid for positions

13.23 becoming disabled, whichever is higher. The disability benefit under this subdivision may
13.24 not exceed the disability benefit originally allowed, plus any postretirement adjustments
13.25 payable after December 31, 1988, in accordance with Minnesota Statutes 2008, section
13.26 11A.18, subdivision 10, or Minnesota Statutes 2008, section 356.41, through January 1,

33.17 Sec. 71. Minnesota Statutes 2008, section 356.215, subdivision 11, is amended to read:

33.18 Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating
33.19 the level normal cost, the actuarial valuation of the retirement plan must contain an
33.20 exhibit for financial reporting purposes indicating the additional annual contribution
33.21 sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit
33.22 for contribution determination purposes indicating the additional contribution sufficient
33.23 to amortize the unfunded actuarial accrued liability. For the retirement plans listed in
33.24 subdivision 8, paragraph (c), the additional contribution must be calculated on a level
33.25 percentage of covered payroll basis by the established date for full funding in effect when
33.26 the valuation is prepared, assuming annual payroll growth at the applicable percentage
33.27 rate set forth in subdivision 8, paragraph (c). For all other retirement plans, the additional
33.28 annual contribution must be calculated on a level annual dollar amount basis.

33.29 (b) For any retirement plan other than the Minneapolis Employees Retirement Fund,
33.30 the general employees retirement plan of the Public Employees Retirement Association,
33.31 and the St. Paul Teachers Retirement Fund Association, if there has not been a change in
33.32 the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a
33.33 change in the benefit plan governing annuities and benefits payable from the fund, a
33.34 change in the actuarial cost method used in calculating the actuarial accrued liability of all
33.35 or a portion of the fund, or a combination of the three, which change or changes by itself

34.1 or by themselves without inclusion of any other items of increase or decrease produce a
34.2 net increase in the unfunded actuarial accrued liability of the fund, the established date for
34.3 full funding is the first actuarial valuation date occurring after June 1, 2020.

34.4 (c) For any retirement plan other than the Minneapolis Employees Retirement
34.5 Fund and the general employees retirement plan of the Public Employees Retirement
34.6 Association, if there has been a change in any or all of the actuarial assumptions used
34.7 for calculating the actuarial accrued liability of the fund, a change in the benefit plan
34.8 governing annuities and benefits payable from the fund, a change in the actuarial cost
34.9 method used in calculating the actuarial accrued liability of all or a portion of the fund,
34.10 or a combination of the three, and the change or changes, by itself or by themselves and
34.11 without inclusion of any other items of increase or decrease, produce a net increase in the
34.12 unfunded actuarial accrued liability in the fund, the established date for full funding must
34.13 be determined using the following procedure:

34.14 (i) the unfunded actuarial accrued liability of the fund must be determined in
34.15 accordance with the plan provisions governing annuities and retirement benefits and the
34.16 actuarial assumptions in effect before an applicable change;

34.17 (ii) the level annual dollar contribution or level percentage, whichever is applicable,
34.18 needed to amortize the unfunded actuarial accrued liability amount determined under item
34.19 (i) by the established date for full funding in effect before the change must be calculated
34.20 using the interest assumption specified in subdivision 8 in effect before the change;

34.21 (iii) the unfunded actuarial accrued liability of the fund must be determined in
34.22 accordance with any new plan provisions governing annuities and benefits payable from
34.23 the fund and any new actuarial assumptions and the remaining plan provisions governing
34.24 annuities and benefits payable from the fund and actuarial assumptions in effect before
34.25 the change;

34.26 (iv) the level annual dollar contribution or level percentage, whichever is applicable,
34.27 needed to amortize the difference between the unfunded actuarial accrued liability amount
34.28 calculated under item (i) and the unfunded actuarial accrued liability amount calculated
34.29 under item (iii) over a period of 30 years from the end of the plan year in which the
34.30 applicable change is effective must be calculated using the applicable interest assumption
34.31 specified in subdivision 8 in effect after any applicable change;

34.32 (v) the level annual dollar or level percentage amortization contribution under item
34.33 (iv) must be added to the level annual dollar amortization contribution or level percentage
34.34 calculated under item (ii);

34.35 (vi) the period in which the unfunded actuarial accrued liability amount determined
34.36 in item (iii) is amortized by the total level annual dollar or level percentage amortization

35.1 contribution computed under item (v) must be calculated using the interest assumption
35.2 specified in subdivision 8 in effect after any applicable change, rounded to the nearest
35.3 integral number of years, but not to exceed 30 years from the end of the plan year in
35.4 which the determination of the established date for full funding using the procedure set
35.5 forth in this clause is made and not to be less than the period of years beginning in the
35.6 plan year in which the determination of the established date for full funding using the
35.7 procedure set forth in this clause is made and ending by the date for full funding in effect
35.8 before the change; and

35.9 (vii) the period determined under item (vi) must be added to the date as of which
35.10 the actuarial valuation was prepared and the date obtained is the new established date
35.11 for full funding.

35.12 (d) For the Minneapolis Employees Retirement Fund, the established date for full
35.13 funding is June 30, 2020.

35.14 (e) For the general employees retirement plan of the Public Employees Retirement
35.15 Association, the established date for full funding is June 30, 2031.

35.16 (f) For the Teachers Retirement Association, the established date for full funding is
35.17 June 30, 2037.

35.18 (g) For the correctional state employees retirement plan of the Minnesota State
35.19 Retirement System, the established date for full funding is June 30, 2038.

35.20 (h) For the judges retirement plan, the established date for full funding is June
35.21 30, 2038.

35.22 (i) For the public employees police and fire retirement plan, the established date
35.23 for full funding is June 30, 2038.

35.24 (j) For the St. Paul Teachers Retirement Fund Association, the established date for
35.25 full funding is June 30 of the 25th year from the valuation date. In addition to other
35.26 requirements of this chapter, the annual actuarial valuation shall contain an exhibit
35.27 indicating the funded ratio and the deficiency or sufficiency in annual contributions when
35.28 comparing liabilities to the market value of the assets of the fund as of the close of the
35.29 most recent fiscal year.

35.30 (k) For the retirement plans for which the annual actuarial valuation indicates an
35.31 excess of valuation assets over the actuarial accrued liability, the valuation assets in
35.32 excess of the actuarial accrued liability must be recognized as a reduction in the current
35.33 contribution requirements by an amount equal to the amortization of the excess expressed
35.34 as a level percentage of pay over a 30-year period beginning anew with each annual
35.35 actuarial valuation of the plan.

36.1 ~~(1) In addition to calculating the unfunded actuarial accrued liability of the retirement~~
36.2 ~~plan for financial reporting purposes under paragraphs (a) to (j), the actuarial valuation~~
36.3 ~~of the retirement plan must also include a calculation of the unfunded actuarial accrued~~
36.4 ~~liability of the retirement plan for purposes of determining the amortization contribution~~
36.5 ~~sufficient to amortize the unfunded actuarial liability of the Minnesota Post Retirement~~
36.6 ~~Investment Fund. For this exhibit, the calculation must be the unfunded actuarial accrued~~
36.7 ~~liability net of the postretirement adjustment liability funded from the investment~~
36.8 ~~performance of the Minnesota Post Retirement Investment Fund or the retirement benefit~~
36.9 ~~fund.~~

45.13 inherent dangers specific to covered correctional positions.

45.14 **EFFECTIVE DATE.** This section is effective July 1, 2009.

45.15 Sec. 7. Minnesota Statutes 2008, section 352.01, is amended by adding a subdivision

45.28 Sec. 9. Minnesota Statutes 2008, section 352.113, subdivision 4, is amended to read:

46.1 Subd. 4. **Medical or psychological examinations; authorization for payment of**

 46.3 support an application for total and permanent disability.

46.4 (b) The director shall have the employee examined by at least one additional
 46.5 licensed chiropractor, physician, or psychologist designated by the medical adviser. The
 46.6 chiropractors, physicians, or psychologists shall make written reports to the director
 46.7 concerning the employee's disability including expert opinions as to whether the employee
 46.8 is permanently and totally disabled within the meaning of section 352.01, subdivision 17.

46.9 (c) The director shall also obtain written certification from the employer stating
 46.10 whether the employment has ceased or whether the employee is on sick leave of
 46.11 absence because of a disability that will prevent further service to the employer and as a
 46.12 consequence the employee is not entitled to compensation from the employer.

46.13 (d) The medical adviser shall consider the reports of the physicians, psychologists,
 46.14 and chiropractors and any other evidence supplied by the employee or other interested
 46.15 parties. If the medical adviser finds the employee totally and permanently disabled, the
 46.16 adviser shall make appropriate recommendation to the director in writing together with the
 46.17 date from which the employee has been totally disabled. The director shall then determine
 46.18 if the disability occurred within ~~180 days~~ 18 months of filing the application, while still
 46.19 in the employment of the state, and the propriety of authorizing payment of a disability
 46.20 benefit as provided in this section.

46.21 (e) A terminated employee may apply for a disability benefit within ~~180 days~~ 18
 46.22 months of termination as long as the disability occurred while in the employment of the
 46.23 state. The fact that an employee is placed on leave of absence without compensation
 46.24 because of disability does not bar that employee from receiving a disability benefit.

46.25 (f) Unless the payment of a disability benefit has terminated because the employee is
 46.26 no longer totally disabled, or because the employee has reached normal retirement age as
 46.27 provided in this section, the disability benefit must cease with the last payment received
 46.28 by the disabled employee or which had accrued during the lifetime of the employee unless
 46.29 there is a spouse surviving. In that event, the surviving spouse is entitled to the disability
 46.30 benefit for the calendar month in which the disabled employee died.

46.31 **EFFECTIVE DATE.** This section is effective July 1, 2009, and applies to disability
 46.32 benefit applicants whose last day of public employment was after June 30, 2009.

53.6 **OF ABSENCE.**

53.7 A member on leave of absence receiving temporary workers' compensation
53.8 payments and a reduced salary or no salary from the employer who is entitled to allowable
53.9 service credit for the period of absence under section 352B.011, subdivision 3, paragraph
53.10 (b), may make payment to the fund for the difference between salary received, if any,

53.13 and employer contribution rate under section 352B.02, subdivisions 1b and 1c, on
53.14 the differential salary amount for the period of the leave of absence. The employing
53.15 department, at its option, may pay the employer amount on behalf of the member. Payment
53.16 made under this subdivision must include interest at the rate of 8.5 percent per year, and
53.17 must be completed within one year of the member's return from the leave of absence.

53.18 **EFFECTIVE DATE.** This section is effective July 1, 2009.

53.19 Sec. 18. **[352B.086] SERVICE CREDIT FOR UNIFORMED SERVICE.**

53.20 (a) A member who is absent from employment by reason of service in the uniformed
53.21 services, as defined in United States Code, title 38, section 4303(13), and who returns to
53.22 state employment in a position covered by the plan upon discharge from service in the
53.23 uniformed services within the time frame required in United States Code, title 38, section
53.24 4312(e), may obtain service credit for the period of the uniformed service, provided that
53.25 the member did not separate from uniformed service with a dishonorable or bad conduct
53.26 discharge or under other than honorable conditions.

53.27 (b) The member may obtain credit by paying into the fund an equivalent member
53.28 contribution based on the member contribution rate or rates in effect at the time that
53.29 the uniformed service was performed multiplied by the full and fractional years being
53.30 purchased and applied to the annual salary rate. The annual salary rate is the average
53.31 annual salary during the purchase period that the member would have received if the
53.32 member had continued to provide employment services to the state rather than to provide
53.33 uniformed service, or if the determination of that rate is not reasonably certain, the annual

54.1 salary rate is the member's average salary rate during the 12-month period of covered
 54.2 employment rendered immediately preceding the purchase period.

54.3 (c) The equivalent employer contribution and, if applicable, the equivalent employer
 54.4 additional contribution, must be paid by the employing unit, using the employer and
 54.5 employer additional contribution rate or rates in effect at the time that the uniformed
 54.6 service was performed, applied to the same annual salary rate or rates used to compute the
 54.7 equivalent member contribution.

54.8 (d) If the member equivalent contributions provided for in this subdivision are not
 54.9 paid in full, the member's allowable service credit must be prorated by multiplying the
 54.10 full and fractional number of years of uniformed service eligible for purchase by the
 54.11 ratio obtained by dividing the total member contributions received by the total member
 54.12 contributions otherwise required under this subdivision.

54.13 (e) To receive allowable service credit under this subdivision, the contributions
 54.14 specified in this section must be transmitted to the fund during the period which begins
 54.15 with the date on which the individual returns to state employment covered by the plan and
 54.16 which has a duration of three times the length of the uniformed service period, but not
 54.17 to exceed five years. If the determined payment period is calculated to be less than one
 54.18 year, the contributions required under this subdivision to receive service credit must be
 54.19 transmitted to the fund within one year from the discharge date.

54.20 (f) The amount of allowable service credit obtainable under this section may not
 54.21 exceed five years, unless a longer purchase period is required under United States Code,
 54.22 title 38, section 4312.

54.23 (g) The employing unit shall pay interest on all equivalent member and employer
 54.24 contribution amounts payable under this section. Interest must be computed at a rate of
 54.25 8.5 percent compounded annually from the end of each fiscal year of the leave or break in
 54.26 service to the end of the month in which payment is received.

54.27 **EFFECTIVE DATE.** This section is effective July 1, 2009.

54.28 Sec. 19. Minnesota Statutes 2008, section 352B.10, subdivision 1, is amended to read:

54.29 Subdivision 1. ~~Injuries; payment amounts~~ **Duty disability.** A member who
 54.30 ~~becomes disabled and who is expected to be physically or mentally unfit to perform duties~~

 54.32 ~~in or arose out of any act of duty~~ is determined to qualify for duty disability as defined in
 54.33 section 352B.011, subdivision 7, is entitled to receive a duty disability ~~benefits~~ benefit
 54.34 while disabled. The benefits must be paid in monthly ~~installments~~. The duty disability
 54.35 benefit is an amount equal to the member's average monthly salary multiplied by 60

55.1 percent, plus an additional percent equal to that specified in section 356.315, subdivision
55.2 6, for each year and pro rata for completed months of service in excess of 20 years, if any.

55.3 **EFFECTIVE DATE.** This section is effective July 1, 2009.

55.4 Sec. 20. Minnesota Statutes 2008, section 352B.10, subdivision 2, is amended to read:

55.5 Subd. 2. ~~Disabled while not on duty~~ **Regular disability benefit.** ~~If~~ A member with
55.6 at least one year of service ~~becomes disabled and is expected to be physically or mentally~~
55.7 ~~unfit to perform the duties of the position for at least one year because of sickness or injury~~
55.8 ~~that occurred while not engaged in covered employment, the individual~~ who qualifies for
55.9 a regular disability benefit as defined in section 352B.011, subdivision 12, is entitled to
55.10 a regular disability ~~benefits~~ benefit. The regular disability benefit must be computed as if
55.11 the individual were 55 years old at the date of disability and as if the annuity was payable
55.12 under section 352B.08. If a regular disability under this subdivision occurs after one year
55.13 of service but before 15 years of service, the regular disability benefit must be computed
55.14 as though the individual had credit for 15 years of service.

55.15 **EFFECTIVE DATE.** This section is effective July 1, 2009.

55.16 Sec. 21. Minnesota Statutes 2008, section 352B.10, is amended by adding a
55.17 subdivision to read:

55.18 Subd. 2a. **Applying for benefits; accrual.** No application for disability benefits
55.19 shall be made until after the last day physically on the job. The disability benefit begins to
55.20 accrue the day following the last day for which the employee is paid sick leave or annual
55.21 leave but not earlier than 180 days before the date the application is filed. A member
55.22 who is terminated must file a written application within the time frame specified under
55.23 section 352.113, subdivision 4, paragraph (e).

55.24 **EFFECTIVE DATE.** This section is effective July 1, 2009, and applies to disability
55.25 benefit applicants whose last day of public employment was after June 30, 2009.

55.26 Sec. 22. Minnesota Statutes 2008, section 352B.10, subdivision 5, is amended to read:

55.27 Subd. 5. **Optional annuity.** A disabilitant may elect, in lieu of spousal survivorship
55.28 coverage under section 352B.11, subdivisions 2b and 2c, the normal disability benefit or
55.29 an optional annuity as provided in section 352B.08, subdivision 3. The choice of an
55.30 optional annuity must be made in writing, on a form prescribed by the executive director,
55.31 and must be made before the commencement of the payment of the disability benefit, or
55.32 within 90 days before reaching age ~~65~~ 55 or before reaching the five-year anniversary

56.1 of the effective date of the disability benefit, whichever is later. The optional annuity
56.2 is effective on the date on which the disability benefit begins to accrue, or the month
56.3 following the attainment of age ~~65~~ 55 or following the five-year anniversary of the
56.4 effective date of the disability benefit, whichever is later.

56.5 **EFFECTIVE DATE.** This section is effective July 1, 2009, and applies to disability
56.6 benefit applicants whose last day of public employment was after June 30, 2009.

56.7 Sec. 23. Minnesota Statutes 2008, section 352B.11, subdivision 2, is amended to read:

56.8 Subd. 2. **Death; payment to dependent children; family maximums.** (a) Each
56.9 dependent child, as defined in section ~~352B.01, subdivision 10~~ 352B.011, subdivision 6, is
56.10 entitled to receive a monthly annuity equal to ten percent of the average monthly salary
56.11 of the deceased member.

56.12 (b) A dependent child over 18 and under 23 years of age also may receive the
56.13 monthly benefit provided in this section if the child is continuously attending an accredited
56.14 school as a full-time student during the normal school year as determined by the director.
56.15 If the child does not continuously attend school, but separates from full-time attendance
56.16 during any part of a school year, the annuity must cease at the end of the month of
56.17 separation.

56.18 (c) In addition, a payment of \$20 per month must be prorated equally to the
56.19 surviving dependent children when the former member is survived by more than one
56.20 dependent child.

60.23 (1) service during years of actual membership in the course of which employee

60.28 ~~(2)~~ (3) service in years during which the public employee was not a member but for
60.29 which the member later elected, while a member, to obtain credit by making payments to
60.30 the fund as permitted by any law then in effect;

60.31 ~~(3)~~ (4) a period of authorized leave of absence with pay from which deductions for
60.32 employee contributions are made, deposited, and credited to the fund;

60.33 ~~(4)~~ (5) a period of authorized personal, parental, or medical leave of absence without
60.34 pay, including a leave of absence covered under the federal Family Medical Leave Act,

61.1 that does not exceed one year, and for which a member obtained service credit for each
61.2 month in the leave period by payment under section 353.0161 to the fund made in place of
61.3 salary deductions. An employee must return to public service and render a minimum of
61.4 three months of allowable service in order to be eligible to make payment under section
61.5 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the
61.6 employee must be granted allowable service credit for the purchased period;

61.7 ~~(5)~~ (6) a periodic, repetitive leave that is offered to all employees of a governmental
61.8 subdivision. The leave program may not exceed 208 hours per annual normal work
61.9 cycle as certified to the association by the employer. A participating member obtains
61.10 service credit by making employee contributions in an amount or amounts based on the
61.11 member's average salary that would have been paid if the leave had not been taken. The
61.12 employer shall pay the employer and additional employer contributions on behalf of the
61.13 participating member. The employee and the employer are responsible to pay interest on
61.14 their respective shares at the rate of 8.5 percent a year, compounded annually, from the
61.15 end of the normal cycle until full payment is made. An employer shall also make the
61.16 employer and additional employer contributions, plus 8.5 percent interest, compounded
61.17 annually, on behalf of an employee who makes employee contributions but terminates
61.18 public service. The employee contributions must be made within one year after the end of
61.19 the annual normal working cycle or within ~~20~~ 30 days after termination of public service,
61.20 whichever is sooner. The executive director shall prescribe the manner and forms to be
61.21 used by a governmental subdivision in administering a periodic, repetitive leave. Upon
61.22 payment, the member must be granted allowable service credit for the purchased period;

61.23 ~~(6)~~ (7) an authorized temporary or seasonal layoff under subdivision 12, limited
61.24 to three months allowable service per authorized temporary or seasonal layoff in one
61.25 calendar year. An employee who has received the maximum service credit allowed for an
61.26 authorized temporary or seasonal layoff must return to public service and must obtain a
61.27 minimum of three months of allowable service subsequent to the layoff in order to receive
61.28 allowable service for a subsequent authorized temporary or seasonal layoff; ~~or~~

61.29 ~~(7)~~ (8) a period during which a member is absent from employment by a
61.30 governmental subdivision by reason of service in the uniformed services, as defined in
61.31 United States Code, title 38, section 4303(13), if the member returns to public service with
61.32 the same governmental subdivision upon discharge from service in the uniformed service
61.33 within the time frames required under United States Code, title 38, section 4312(e),
61.34 provided that the member did not separate from uniformed service with a dishonorable or
61.35 bad conduct discharge or under other than honorable conditions. The service is credited
61.36 if the member pays into the fund equivalent employee contributions based upon the

62.1 contribution rate or rates in effect at the time that the uniformed service was performed
62.2 multiplied by the full and fractional years being purchased and applied to the annual salary
62.3 rate. The annual salary rate is the average annual salary during the purchase period that
62.4 the member would have received if the member had continued to be employed in covered
62.5 employment rather than to provide uniformed service, or, if the determination of that
62.6 rate is not reasonably certain, the annual salary rate is the member's average salary rate
62.7 during the 12-month period of covered employment rendered immediately preceding the
62.8 period of the uniformed service. Payment of the member equivalent contributions must
62.9 be made during a period that begins with the date on which the individual returns to
62.10 public employment and that is three times the length of the military leave period, or
62.11 within five years of the date of discharge from the military service, whichever is less. If
62.12 the determined payment period is less than one year, the contributions required under
62.13 this clause to receive service credit may be made within one year of the discharge date.
62.14 Payment may not be accepted following ~~20~~ 30 days after termination of public service
62.15 under subdivision 11a. If the member equivalent contributions provided for in this clause
62.16 are not paid in full, the member's allowable service credit must be prorated by multiplying
62.17 the full and fractional number of years of uniformed service eligible for purchase by the
62.18 ratio obtained by dividing the total member contributions received by the total member
62.19 contributions otherwise required under this clause. The equivalent employer contribution,
62.20 and, if applicable, the equivalent additional employer contribution must be paid by the
62.21 governmental subdivision employing the member if the member makes the equivalent
62.22 employee contributions. The employer payments must be made from funds available to
62.23 the employing unit, using the employer and additional employer contribution rate or
62.24 rates in effect at the time that the uniformed service was performed, applied to the same
62.25 annual salary rate or rates used to compute the equivalent member contribution. The
62.26 governmental subdivision involved may appropriate money for those payments. The
62.27 amount of service credit obtainable under this section may not exceed five years unless a
62.28 longer purchase period is required under United States Code, title 38, section 4312. The
62.29 employing unit shall pay interest on all equivalent member and employer contribution
62.30 amounts payable under this clause. Interest must be computed at a rate of 8.5 percent
62.31 compounded annually from the end of each fiscal year of the leave or the break in service
62.32 to the end of the month in which the payment is received. Upon payment, the employee
62.33 must be granted allowable service credit for the purchased period; or

62.34 (9) a period specified under subdivision 40.

62.35 (b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for
62.36 state officers and employees displaced by the Community Corrections Act, chapter 401,

63.1 and transferred into county service under section 401.04, "allowable service" means the
63.2 combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and
63.3 section 352.01, subdivision 11.

63.4 (c) For a public employee who has prior service covered by a local police or
63.5 firefighters relief association that has consolidated with the Public Employees Retirement
63.6 Association or to which section 353.665 applies, and who has elected the type of benefit
63.7 coverage provided by the public employees police and fire fund either under section
63.8 353A.08 following the consolidation or under section 353.665, subdivision 4, "applicable
63.9 service" is a period of service credited by the local police or firefighters relief association
63.10 as of the effective date of the consolidation based on law and on bylaw provisions
63.11 governing the relief association on the date of the initiation of the consolidation procedure.

63.12 (d) No member may receive more than 12 months of allowable service credit in a
63.13 year either for vesting purposes or for benefit calculation purposes.

63.26 a volunteer fire plan, for the same period of service, or if the separation from the United
63.27 States armed forces was under less than honorable conditions.

 100.17 required contributions of the retirement plan.

100.18 **EFFECTIVE DATE.** This section is effective July 1, 2011.

100.19 Sec. 5. Minnesota Statutes 2008, section 354.42, is amended by adding a subdivision
 100.20 to read:

100.21 **Subd. 4b. Determination.** (a) For purposes of this section, a contribution
 100.22 sufficiency exists if the total of the employee contributions, the employer contributions,
 100.23 and any additional employer contributions, if applicable, exceeds the total of the normal
 100.24 cost, the administrative expenses, and the amortization contribution of the retirement
 100.25 plan as reported in the most recent actuarial valuation of the retirement plan prepared by
 100.26 the actuary retained under section 356.214 and prepared under section 356.215 and the
 100.27 standards for actuarial work of the Legislative Commission on Pensions and Retirement.

100.28 (b) For purposes of this section, a contribution deficiency exists if the total employee
 100.29 contributions, the employer contributions, and any additional employer contributions are
 100.30 less than the total of the normal cost, the administrative expenses, and the amortization
 100.31 contribution of the retirement plan as reported in the most recent actuarial valuation of the
 100.32 retirement plan prepared by the actuary retained under section 356.214 and prepared under
 100.33 section 356.215 and the standards for actuarial work of the Legislative Commission on
 100.34 Pensions and Retirement.

100.35 Sec. 6. Minnesota Statutes 2008, section 354.42, is amended by adding a subdivision
 100.36 to read:

101.1 Subd. 4c. **Contribution rate revision.** Notwithstanding the contribution rate
101.2 provisions stated in plan law, the employee and employer contribution rates must be
101.3 adjusted:

101.4 (1) if after July 1, 2014, the regular actuarial valuations of the plan under section
101.5 356.215 indicate that there is a contribution sufficiency under subdivision 2 equal to
101.6 or greater than 0.5 percent of covered payroll for two consecutive years, the employee
101.7 and employer contribution rates for the plan must be decreased as determined under
101.8 subdivision 4 to a level such that the sufficiency equals no more than 0.25 percent of
101.9 covered payroll based on the most recent actuarial valuation; or

101.10 (2) if after July 1, 2014, the regular actuarial valuations of the plan under section
101.11 356.215 indicate that there is a deficiency equal to or greater than 0.5 percent of covered
101.12 payroll for two consecutive years, the employee and employer contribution rates for
101.13 the plan must be increased as determined under subdivision 4 to a level such that no
101.14 deficiency exists based on the most recent actuarial valuation.

101.15 Sec. 7. Minnesota Statutes 2008, section 354.42, is amended by adding a subdivision
101.16 to read:

101.17 Subd. 4d. **Reporting, commission review.** (a) The contribution rate increase
101.18 or decrease must be determined by the executive director of the Teachers Retirement
101.19 Association, must be reported to the chair and the executive director of the Legislative
101.20 Commission on Pensions and Retirement on or before the next February 1, and, if the
101.21 Legislative Commission on Pensions and Retirement does not recommend against the
101.22 rate change or does not recommend a modification in the rate change, is effective on the
101.23 next July 1 following the determination by the executive director that a contribution
101.24 deficiency or sufficiency has existed for two consecutive fiscal years based on the most
101.25 recent actuarial valuations under section 356.215. If the actuarially required contribution
101.26 exceeds or is less than the total support provided by the combined employee and employer
101.27 contribution rates for the applicable plan by more than 0.5 percent of covered payroll, the
101.28 plan employee and employer contribution rates must be adjusted incrementally over one
101.29 or more years to a level such that there remains a contribution sufficiency of no more than
101.30 0.25 percent of covered payroll.

101.31 (b) No incremental adjustment may exceed 0.25 percent of payroll for either the
101.32 employee or employer contribution rates per year in which any adjustment is implemented.
101.33 A contribution rate adjustment under this section must not be made until at least two years
101.34 have passed since fully implementing a previous adjustment under this section.

101.35 **EFFECTIVE DATE.** This section is effective July 1, 2011.

102.1 Sec. 8. Minnesota Statutes 2008, section 354.44, subdivision 6, is amended to read:

102.2 Subd. 6. **Computation of formula program retirement annuity.** (a) The formula
102.3 retirement annuity must be computed in accordance with the applicable provisions of the
102.4 formulas stated in paragraph (b) or (d) on the basis of each member's average salary under
102.5 section 354.05, subdivision 13a, for the period of the member's formula service credit.

102.6 (b) This paragraph, in conjunction with paragraph (c), applies to a person who first
102.7 became a member of the association or a member of a pension fund listed in section
102.8 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with
102.9 paragraph (e), produces a higher annuity amount, in which case paragraph (d) applies. The
102.10 average salary as defined in section 354.05, subdivision 13a, multiplied by the following
102.11 percentages per year of formula service credit ~~shall determine~~ determines the amount
102.12 of the annuity to which the member qualifying therefor is entitled for service rendered
102.13 before July 1, 2006:

	Coordinated Member	Basic Member
102.14		
102.15	Each year of service during	the percent specified
102.16	first ten	in section 356.315,
102.17		subdivision 1, per year
102.18	Each year of service	the percent specified
102.19	thereafter	in section 356.315,
102.20		subdivision 2, per year
		the percent specified
		in section 356.315,
		subdivision 3, per year
		the percent specified
		in section 356.315,
		subdivision 4, per year

102.21 For service rendered on or after July 1, 2006, the average salary as defined in section
102.22 354.05, subdivision 13a, multiplied by the following percentages per year of service credit,
102.23 determines the amount the annuity to which the member qualifying therefor is entitled:

	Coordinated Member	Basic Member
102.24		
102.25	Each year of service during	the percent specified
102.26	first ten	in section 356.315,
102.27		subdivision 1a, per year
102.28	Each year of service after	the percent specified
102.29	ten years of service	in section 356.315,
102.30		subdivision 2b, per year
		the percent specified
		in section 356.315,
		subdivision 3, per year
		the percent specified
		in section 356.315,
		subdivision 4, per year

102.31 (c)(i) This paragraph applies only to a person who first became a member of the
102.32 association or a member of a pension fund listed in section 356.30, subdivision 3, before
102.33 July 1, 1989, and whose annuity is higher when calculated under paragraph (b), in
102.34 conjunction with this paragraph than when calculated under paragraph (d), in conjunction
102.35 with paragraph (e).

102.36 (ii) Where any member retires prior to normal retirement age under a formula
102.37 annuity, the member ~~shall~~ must be paid a retirement annuity in an amount equal to the
102.38 normal annuity provided in paragraph (b) reduced by one-quarter of one percent for each

103.1 month that the member is under normal retirement age at the time of retirement except
103.2 that for any member who has 30 or more years of allowable service credit, the reduction
103.3 ~~shall~~ must be applied only for each month that the member is under age 62.

103.4 (iii) Any member whose attained age plus credited allowable service totals 90 years
103.5 is entitled, upon application, to a retirement annuity in an amount equal to the normal
103.6 annuity provided in paragraph (b), without any reduction by reason of early retirement.

103.7 (d) This paragraph applies to a member who has become at least 55 years old and
103.8 first became a member of the association after June 30, 1989, and to any other member
103.9 who has become at least 55 years old and whose annuity amount when calculated under
103.10 this paragraph and in conjunction with paragraph (e), is higher than it is when calculated
103.11 under paragraph (b), in conjunction with paragraph (c). For a basic member, the average
103.12 salary, as defined in section 354.05, subdivision 13a, multiplied by the percent specified
103.13 by section 356.315, subdivision 4, for each year of service for a basic member ~~shall~~
103.14 ~~determine~~ determines the amount of the retirement annuity to which the basic member is
103.15 entitled. The annuity of a basic member who was a member of the former Minneapolis
103.16 Teachers Retirement Fund Association as of June 30, 2006, must be determined according
103.17 to the annuity formula under the articles of incorporation of the former Minneapolis
103.18 Teachers Retirement Fund Association in effect as of that date. For a coordinated member,
103.19 the average salary, as defined in section 354.05, subdivision 13a, multiplied by the percent
103.20 specified in section 356.315, subdivision 2, for each year of service rendered before July
103.21 1, 2006, ~~and~~ by the percent specified in section 356.315, subdivision 2b, for each year
103.22 of service rendered on or after July 1, 2006, and before July 1, 2011, and by the percent
103.23 specified in section 356.315, subdivision 2c, for each year of service rendered after June
103.24 30, 2011, determines the amount of the retirement annuity to which the coordinated
103.25 member is entitled. For a member who has 30 or more years of allowable service credit,
103.26 the person's normal retirement age is age 62 and the age 55 minimum early reduced benefit
103.27 retirement age does not apply to the person.

103.28 (e) This paragraph applies to a person who has become at least 55 years old and first
103.29 becomes a member of the association after June 30, 1989, and to any other member who
103.30 has become at least 55 years old and whose annuity is higher when calculated under
103.31 paragraph (d) in conjunction with this paragraph than when calculated under paragraph
103.32 (b), in conjunction with paragraph (c). An employee who retires under the formula
103.33 annuity before the normal retirement age ~~shall~~ as defined by section 354.05, subdivision
103.34 38, must be paid the normal annuity provided in paragraph (d) reduced so that the reduced
103.35 annuity is the actuarial equivalent of the annuity that would be payable to the employee if
103.36 the employee deferred receipt of the annuity and the annuity amount were augmented at

104.1 an annual rate of three percent compounded annually from the day the annuity begins to
104.2 accrue until the normal retirement age if the employee became an employee before July 1,
104.3 2006, and at 2.5 percent compounded annually if the employee becomes an employee after
104.4 June 30, 2006. For a member who has 30 or more years of allowable service credit, the
104.5 person's normal retirement age is age 62 and the age 55 minimum early reduced benefit
104.6 retirement age does not apply to the person.

104.7 (f) No retirement annuity is payable to a former employee with a salary that exceeds
104.8 95 percent of the governor's salary unless and until the salary figures used in computing
104.9 the highest five successive years average salary under paragraph (a) have been audited by
104.10 the Teachers Retirement Association and determined by the executive director to comply
104.11 with the requirements and limitations of section 354.05, subdivisions 35 and 35a.

104.12 **EFFECTIVE DATE.** This section is effective July 1, 2011.

104.13 Sec. 9. Minnesota Statutes 2008, section 354A.011, subdivision 15a, is amended to
104.14 read:

104.15 Subd. 15a. **Normal retirement age.** "Normal retirement age" means age 65 ~~for a~~
104.16 ~~person who first became a member of the coordinated program of the St. Paul Teachers~~
104.17 ~~Retirement Fund Association or the new law coordinated program of the Duluth Teachers~~
104.18 ~~Retirement Fund Association or a member of a pension fund listed in section 356.30,~~
104.19 ~~subdivision 3, before July 1, 1989. For a person who first became a member of the~~
104.20 ~~coordinated program of the St. Paul Teachers Retirement Fund Association or the new law~~
104.21 ~~coordinated program of the Duluth Teachers Retirement Fund Association after June 30,~~
104.22 ~~1989, normal retirement age means the higher of age 65 or retirement age, as defined in~~
104.23 ~~United States Code, title 42, section 416(1), as amended, but not to exceed age 66. For a~~
104.24 person with 30 years of service, normal retirement age means age 62. For a person who is
104.25 a member of the basic program of the St. Paul Teachers Retirement Fund Association or
104.26 the old law coordinated program of the Duluth Teachers Retirement Fund Association,
104.27 normal retirement age means the age at which a teacher becomes eligible for a normal
104.28 retirement annuity computed upon meeting the age and service requirements specified

 107.28 contribution of the retirement plan as reported in the most recent actuarial valuation of the
 107.29 retirement plan prepared by the actuary retained under section 356.214 and prepared under

 107.31 Pensions and Retirement.

107.32 (b) For purposes of this section, a contribution deficiency exists if, for the applicable
 107.33 plan, the total employee contributions, employer contributions, and any additional
 107.34 employer contributions are less than the total of the normal cost, the administrative

 107.36 recent actuarial valuation of the retirement plan prepared by the actuary retained under

108.1 section 356.214 and prepared under section 356.215 and the standards for actuarial work

108.4 Sec. 13. Minnesota Statutes 2008, section 354A.12, is amended by adding a
108.5 subdivision to read:

108.6 **Subd. 4b. Contribution rate revision.** Notwithstanding the contribution rate

108.8 adjusted:

108.9 (1) if after July 1, 2014, the regular actuarial valuations of the applicable plan under
108.10 section 356.215 indicate that there is a contribution sufficiency under subdivision 2 equal
108.11 to or greater than 0.5 percent of covered payroll for two consecutive years, the employee
108.12 and employer contribution rates for the applicable plan must be decreased as determined
108.13 under subdivision 4 to a level such that the sufficiency equals no more than 0.25 percent of
108.14 covered payroll based on the most recent actuarial valuation; or

108.15 (2) if after July 1, 2014, the regular actuarial valuations of the applicable plan under
108.16 section 356.215 indicate that there is a deficiency equal to or greater than 0.5 percent of
108.17 covered payroll for two consecutive years, the employee and employer contribution rates
108.18 for the applicable plan must be increased as determined under subdivision 4 to a level such
108.19 that no deficiency exists based on the most recent actuarial valuation.

108.20 **EFFECTIVE DATE.** This section is effective July 1, 2011.

108.21 Sec. 14. Minnesota Statutes 2008, section 354A.12, is amended by adding a
108.22 subdivision to read:

108.23 **Subd. 4c. Reporting, commission review.** (a) The contribution rate increase or
108.24 decrease must be determined by the executive director of the Duluth Teachers Retirement
108.25 Fund Association or the St. Paul Teachers Retirement Fund Association, and must be
108.26 reported to the chair and the executive director of the Legislative Commission on Pensions
108.27 and Retirement on or before the next February 1, and, if the Legislative Commission
108.28 on Pensions and Retirement does not recommend against the rate change or does not
108.29 recommend a modification in the rate change, is effective on the next July 1 following
108.30 the determination by the executive director that a contribution deficiency or sufficiency
108.31 has existed for two consecutive fiscal years based on the most recent actuarial valuations
108.32 under section 356.215. If the actuarially required contribution exceeds or is less than
108.33 the total support provided by the combined employee and employer contribution rates

109.1 for the applicable plan by more than 0.5 percent of covered payroll, the applicable plan
 109.2 employee and employer contribution rates must be adjusted incrementally over one or
 109.3 more years to a level such that there remains a contribution sufficiency of no more than
 109.4 0.25 percent of covered payroll.

109.5 (b) No incremental adjustment may exceed 0.25 percent of payroll for either the
 109.6 employee or employer contribution rates per year in which any adjustment is implemented.
 109.7 For an applicable plan, a contribution rate adjustment under this section must not be
 109.8 made until at least two years have passed since fully implementing a previous adjustment
 109.9 under this section.

109.10 **EFFECTIVE DATE.** This section is effective July 1, 2011.

109.11 Sec. 15. Minnesota Statutes 2008, section 354A.31, subdivision 4, is amended to read:

109.12 Subd. 4. **Computation of normal coordinated retirement annuity; St. Paul**
 109.13 **fund.** (a) This subdivision applies to the coordinated program of the St. Paul Teachers
 109.14 Retirement Fund Association.

109.15 (b) The normal coordinated retirement annuity is an amount equal to a retiring
 109.16 coordinated member's average salary under section 354A.011, subdivision 7a, multiplied
 109.17 by the retirement annuity formula percentage.

109.18 (c) This paragraph, in conjunction with subdivision 6, applies to a person who first
 109.19 became a member or a member in a pension fund listed in section 356.30, subdivision 3,
 109.20 before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a
 109.21 higher annuity amount, in which case paragraph (d) will apply. ~~The retirement annuity~~
 109.22 ~~formula percentage for purposes of this paragraph is the percent specified in section~~
 109.23 ~~356.315, subdivision 1, per year for each year of coordinated service for the first ten years~~
 109.24 ~~and the percent specified in section 356.315, subdivision 2, for each year of coordinated~~
 109.25 ~~service thereafter.~~ The average salary multiplied by the following retirement annuity
 109.26 formula percentage per year of allowable service determines the amount of the annuity to
 109.27 which the member qualifying therefor is entitled for service rendered before July 1, 2011:

109.28	<u>Each year of service during first ten years</u>	<u>the percent specified in section 356.315,</u>
109.29		<u>subdivision 1, per year</u>
109.30	<u>Each year of service thereafter</u>	<u>the percent specified in section 356.315,</u>
109.31		<u>subdivision 2, per year</u>

109.32 For service rendered on or after July 1, 2011, the average salary multiplied by the
 109.33 following retirement annuity formula percentage per year of allowable service determines
 109.34 the amount of the annuity to which the member qualifying therefor is entitled:

110.1	<u>Each year of service during first ten years</u>	<u>the percent specified in section 356.315,</u>
110.2		<u>subdivision 1a, per year</u>
110.3	<u>Each year of service thereafter</u>	<u>the percent specified in section 356.315,</u>
110.4		<u>subdivision 2b, per year</u>

110.5 (d) This paragraph applies to a person who has become at least 55 years old and who
 110.6 first becomes a member after June 30, 1989, and to any other member who has become
 110.7 at least 55 years old and whose annuity amount, when calculated under this paragraph
 110.8 and in conjunction with subdivision 7 is higher than it is when calculated under paragraph
 110.9 (c), in conjunction with the provisions of subdivision 6. The retirement annuity formula
 110.10 percentage for purposes of this paragraph is the percent specified in section 356.315,
 110.11 subdivision 2, for each year of coordinated service before July 1, 2011, and by the percent
 110.12 specified in section 356.315, subdivision 2c, for each year of service rendered after June
 110.13 30, 2011. For a member who has 30 or more years of allowable service credit, the person's
 110.14 normal retirement age is age 62 and the age 55 minimum early reduced benefit retirement
 110.15 age does not apply to the person.

110.16 **EFFECTIVE DATE.** This section is effective July 1, 2011.

110.17 Sec. 16. Minnesota Statutes 2008, section 354A.31, subdivision 4a, is amended to read:

110.18 Subd. 4a. **Computation of normal coordinated retirement annuity; Duluth**
 110.19 **fund.** (a) This subdivision applies to the new law coordinated program of the Duluth
 110.20 Teachers Retirement Fund Association.

110.21 (b) The normal coordinated retirement annuity is an amount equal to a retiring
 110.22 coordinated member's average salary under section 354A.011, subdivision 7a, multiplied
 110.23 by the retirement annuity formula percentage.

110.24 (c) This paragraph, in conjunction with subdivision 6, applies to a person who first
 110.25 became a member or a member in a pension fund listed in section 356.30, subdivision 3,
 110.26 before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a
 110.27 higher annuity amount, in which case paragraph (d) applies. ~~The retirement annuity~~
 110.28 ~~formula percentage for purposes of this paragraph is the percent specified in section~~
 110.29 ~~356.315, subdivision 1, per year for each year of coordinated service for the first ten years~~
 110.30 ~~and the percent specified in section 356.315, subdivision 2, for each subsequent year of~~
 110.31 ~~coordinated service.~~ The average salary multiplied by the following retirement annuity
 110.32 formula percentage per year of allowable service determines the amount of the annuity to
 110.33 which the member qualifying therefor is entitled for service rendered before July 1, 2011:

111.1	<u>Each year of service during first ten years</u>	<u>the percent specified in section 356.315,</u>
111.2		<u>subdivision 1, per year</u>
111.3	<u>Each year of service thereafter</u>	<u>the percent specified in section 356.315,</u>
111.4		<u>subdivision 2, per year</u>

111.5 For service rendered on or after July 1, 2011, the average salary multiplied by the
 111.6 following retirement annuity formula percentage per year of allowable service determines
 111.7 the amount of the annuity to which the member qualifying therefor is entitled:

111.8	<u>Each year of service during first ten years</u>	<u>the percent specified in section 356.315,</u>
111.9		<u>subdivision 1a, per year</u>
111.10	<u>Each year of service thereafter</u>	<u>the percent specified in section 356.315,</u>
111.11		<u>subdivision 2b, per year</u>

111.12 (d) This paragraph applies to a person who is at least 55 years old and who first
 111.13 becomes a member after June 30, 1989, and to any other member who is at least 55 years
 111.14 old and whose annuity amount, when calculated under this paragraph and in conjunction
 111.15 with subdivision 7, is higher than it is when calculated under paragraph (c) in conjunction
 111.16 with subdivision 6. The retirement annuity formula percentage for purposes of this
 111.17 paragraph is the percent specified in section 356.315, subdivision 2, for each year of
 111.18 coordinated service before July 1, 2011, and by the percent specified in section 356.315,
 111.19 subdivision 2c, for each year of service rendered after June 30, 2011. For a member who
 111.20 has 30 or more years of allowable service credit, the person's normal retirement age is
 111.21 age 62 and the age 55 minimum early reduced benefit retirement age does not apply
 111.22 to the person.

111.23 **EFFECTIVE DATE.** This section is effective July 1, 2011.

111.24 Sec. 17. Minnesota Statutes 2008, section 354A.31, subdivision 7, is amended to read:

111.25 Subd. 7. **Actuarial reduction for early retirement.** This subdivision applies to
 111.26 a person who has become at least 55 years old and first becomes a coordinated member
 111.27 after June 30, 1989, and to any other coordinated member who has become at least 55
 111.28 years old and whose annuity is higher when calculated using the retirement annuity
 111.29 formula percentage in subdivision 4, paragraph (d), and subdivision 4a, paragraph (d), in
 111.30 conjunction with this subdivision than when calculated under subdivision 4, paragraph
 111.31 (c), or subdivision 4a, paragraph (c), in conjunction with subdivision 6. A coordinated
 111.32 member who retires before the full benefit age ~~shall~~ as defined by section 354A.011,
 111.33 subdivision 15a, must be paid the retirement annuity calculated using the retirement
 111.34 annuity formula percentage in subdivision 4, paragraph (d), or subdivision 4a, paragraph
 111.35 (d), reduced so that the reduced annuity is the actuarial equivalent of the annuity that
 111.36 would be payable to the member if the member deferred receipt of the annuity and the

112.1 annuity amount were augmented at an annual rate of three percent compounded annually
112.2 from the day the annuity begins to accrue until the normal retirement age if the employee
112.3 became an employee before July 1, 2006, and at 2.5 percent compounded annually
112.4 from the day the annuity begins to accrue until the normal retirement age if the person
112.5 initially becomes a teacher after June 30, 2006. For a member who has 30 or more years
112.6 of allowable service credit, the person's normal retirement age is age 62 and the age 55
112.7 minimum early reduced benefit retirement age does not apply to the person.

112.8 **EFFECTIVE DATE.** This section is effective July 1, 2011.

112.9 Sec. 18. Minnesota Statutes 2008, section 356.315, is amended by adding a subdivision
112.10 to read:

112.11 **Subd. 2c. Certain coordinated members.** The applicable benefit accrual rate
112.12 is 2.1 percent.

112.13 **EFFECTIVE DATE.** This section is effective July 1, 2011.

112.29 Senate Committee on Higher Education and the Higher Education Budget and Policy
112.30 Division of the Senate Committee on Finance and with the chair and ranking members of

112.33 adoption by the board of trustees, shall post the same document on the system website at

113.1 the same time, and shall hold a public hearing on the proposed eligibility requirements.

113.2 The type and any additional amount of the incentive to be offered may vary by employee
113.3 classification, as specified by the board.

113.4 (d) The president of a college or university, consistent with paragraphs (b) and
113.5 (c), may designate:

113.21 early separation incentive must be borne by the successor institution. If a college or
113.22 university is closed, the remaining cost of any early separation incentive must be borne
113.23 by the board of trustees.

113.24 (i) Annually, the chancellor and the president of each college or university must
113.25 report on the number and types of early separation incentives which were offered and
113.26 utilized under this section. The report must be filed annually with the board of trustees and

116.3 value by the same average third quarter index value from the previous year, subtract one
116.4 from the resulting quotient, and express the result as a percentage amount, which must be
116.5 rounded to the nearest one-tenth of one percent.

116.6 (e) The amount calculated under paragraph (d) is the full cost-of-living adjustment
116.7 to be applied as a permanent increase to the regular payment of each eligible member
116.8 on January 1 of the next calendar year. For any eligible member whose effective date
116.9 of benefit commencement occurred during the calendar year before the cost-of-living
116.10 adjustment is applied, the full increase amount must be prorated on the basis of whole

116.12 which the cost-of-living adjustment is applied, calculated to the third decimal place.

126.6 Subd. 7. **Apportionment of fire state aid to municipalities and relief associations.**

126.7 (a) The commissioner shall apportion the fire state aid relative to the premiums reported

126.10 (b) The commissioner shall calculate an initial fire state aid allocation amount for

126.14 (c) The initial fire state aid allocation amount is the amount available for
126.15 apportionment as fire state aid under subdivision 5, without inclusion of any additional

126.18 official statewide federal census for each fire town and one-half in proportion to the market

126.22 municipal fire departments furnishing fire protection to other cities, towns, or townships
126.23 as evidenced by valid fire service contracts filed with the commissioner, the distribution
126.24 must be adjusted proportionately to take into consideration the crossover fire protection

126.26 the case of municipalities or independent fire departments qualifying for the aid, the
126.27 commissioner shall calculate the state aid for the municipality or relief association on the
126.28 basis of the population and the market value of the area furnished fire protection service
126.29 by the fire department as evidenced by duly executed and valid fire service agreements
126.30 filed with the commissioner. If one or more fire departments are furnishing contracted
126.31 fire service to a city, town, or township, only the population and market value of the
126.32 area served by each fire department may be considered in calculating the state aid and
126.33 the fire departments furnishing service shall enter into an agreement apportioning among

126.35 agreement must be in writing and must be filed with the commissioner.

127.5 voluntary statewide lump-sum volunteer firefighter retirement plan based on the number
127.6 of active volunteer firefighters who are members of the relief association as reported
127.7 in the annual financial reporting for the calendar year 1993 to the Office of the State
127.8 Auditor, but not to exceed 30 active volunteer firefighters, so that all municipalities or
127.9 fire departments with volunteer firefighters relief associations receive in total at least a
127.10 minimum fire state aid amount per 1993 active volunteer firefighter to a maximum of
127.11 30 firefighters. If a relief association is established after calendar year 1993 and before
127.12 calendar year 2000, the number of active volunteer firefighters who are members of the
127.13 relief association as reported in the annual financial reporting for calendar year 1998
127.14 to the Office of the State Auditor, but not to exceed 30 active volunteer firefighters,
127.15 shall be used in this determination. If a relief association is established after calendar
127.16 year 1999, the number of active volunteer firefighters who are members of the relief
127.17 association as reported in the first annual financial reporting submitted to the Office of
127.18 the State Auditor, but not to exceed 20 active volunteer firefighters, must be used in this
127.19 determination. If a relief association is terminated as a result of providing retirement
127.20 coverage for volunteer firefighters by the voluntary statewide lump-sum volunteer
127.21 firefighter retirement plan under chapter 353G, the number of active volunteer firefighters
127.22 of the municipality covered by the statewide plan as certified by the executive director of
127.23 the Public Employees Retirement Association to the commissioner and the state auditor,
127.24 but not to exceed 30 active firefighters, must be used in this determination.

127.25 (e) Unless the firefighters of the applicable fire department are members of the
127.26 voluntary statewide lump-sum volunteer firefighter retirement plan, the fire state aid must
127.27 be paid to the treasurer of the municipality where the fire department is located and the
127.28 treasurer of the municipality shall, within 30 days of receipt of the fire state aid, transmit
127.29 the aid to the relief association if the relief association has filed a financial report with the
127.30 treasurer of the municipality and has met all other statutory provisions pertaining to the
127.31 aid apportionment. If the firefighters of the applicable fire department are members of
127.32 the voluntary statewide lump-sum volunteer firefighter retirement plan, the fire state aid
127.33 must be paid to the executive director of the Public Employees Retirement Association
127.34 and deposited in the voluntary statewide lump-sum volunteer firefighter retirement fund.

127.35 (f) The commissioner may make rules to permit the administration of the provisions
127.36 of this section.

128.1 (g) Any adjustments needed to correct prior misallocations must be made to
128.2 subsequent apportionments.

128.3 Sec. 7. Minnesota Statutes 2008, section 69.021, subdivision 9, is amended to read:

128.7 review and adjust the apportionment of funds within the county in the case of police state
128.8 aid, or within the state in the case of fire state aid. The decision of the commissioner is
128.9 subject to appeal, review, and adjustment by the district court in the county in which the
128.10 applicable municipality, fire department, or police department is located.

128.11 Sec. 8. Minnesota Statutes 2008, section 69.031, subdivision 1, is amended to read:

128.12 Subdivision 1. **Commissioner of finance's warrant.** (a) The commissioner of
128.13 finance shall issue to the Public Employees Retirement Association on behalf of a

128.27 fire state aid against future municipal contribution requirements under section 353G.08
128.28 and shall notify the municipality or independent nonprofit firefighting corporation of
128.29 the fire state aid so credited at least annually. If the municipality or the independent
128.30 nonprofit firefighting corporation is not covered by the voluntary statewide lump-sum
128.31 volunteer firefighter retirement plan, the municipal treasurer shall, within 30 days after
128.32 receipt, transmit the fire state aid to the treasurer of the duly incorporated firefighters'

129.1 with the municipality. If the relief association has not filed a financial report with the
129.2 municipality, the municipal treasurer shall delay transmission of the fire state aid to
129.3 the relief association until the complete financial report is filed. If the municipality or

132.26 section 353G.08 and must be deposited in the retirement fund. The disbursements of the
132.27 retirement plan are governed by section 353G.08. The commissioner of finance shall
132.28 transmit a detailed statement showing all credits to and disbursements from the retirement
132.29 fund to the executive director monthly.

132.30 Subd. 4. **Audit; actuarial valuation.** (a) The legislative auditor shall periodically
132.31 audit the voluntary statewide lump-sum volunteer firefighter retirement fund.

132.32 (b) An actuarial valuation of the voluntary statewide lump-sum volunteer firefighter
132.33 retirement plan may be performed periodically as determined to be appropriate or useful
132.34 by the board. An actuarial valuation must be performed by the approved actuary retained
132.35 under section 356.214 and must conform with section 356.215 and the standards for

133.1 actuarial work. An actuarial valuation must contain sufficient detail for each participating
 133.2 employing entity to ascertain the actuarial condition of its account in the fund and the
 133.3 contribution requirement towards its account.

133.4 Subd. 5. **Legal advisor; attorney general.** (a) The legal advisor of the board
 133.5 and the executive director with respect to the voluntary statewide lump-sum volunteer
 133.6 firefighter retirement plan is the attorney general.

133.7 (b) The board may sue, petition, be sued, or be petitioned under this chapter with
 133.8 respect to the plan or the fund in the name of the board.

133.9 (c) The attorney general shall represent the board in all actions by the board or
 133.10 against the board with respect to the plan or the fund.

133.11 (d) Venue of all actions related to the plan or fund is in the court for the first judicial
 133.12 district unless the action is an appeal to the Court of Appeals under section 356.96.

133.13 Sec. 12. **[353G.03] VOLUNTARY STATEWIDE LUMP-SUM VOLUNTEER**
 133.14 **FIREFIGHTER RETIREMENT PLAN ADVISORY BOARD.**

133.15 Subdivision 1. **Establishment.** A Voluntary Statewide Lump-Sum Volunteer
 133.16 Firefighter Retirement Plan Advisory Board is created.

133.17 Subd. 2. **Function; purpose.** The advisory board shall provide advice to the board
 133.18 of trustees of the Public Employees Retirement Association about the retirement coverage
 133.19 needs of volunteer firefighters who are members of the plan and about the legislative and
 133.20 administrative changes that would assist the retirement plan in accommodating volunteer
 133.21 firefighters who are not members of the plan.

133.22 Subd. 3. **Composition.** (a) The advisory board consists of seven members.

133.23 (b) The advisory board members are:

133.24 (1) one representative of Minnesota townships, appointed by the Minnesota
 133.25 Association of Townships;

133.26 (2) two representatives of Minnesota cities, appointed by the League of Minnesota
 133.27 Cities;

133.28 (3) one representative of Minnesota fire chiefs, who is a fire chief, appointed by the
 133.29 Minnesota State Fire Chiefs Association;

133.30 (4) two representatives of Minnesota volunteer firefighters, who are active volunteer
 133.31 firefighters, appointed by the Minnesota State Fire Departments Association; and

133.32 (5) one representative of the Office of the State Auditor, designated by the state
 133.33 auditor.

133.34 Subd. 4. **Term.** (a) The initial terms on the advisory board for the Minnesota
 133.35 townships representative and the Minnesota fire chiefs representative are one year. The

134.1 initial terms on the advisory board for one of the Minnesota cities representatives and one
134.2 of the Minnesota active volunteer firefighter representatives are two years. The initial
134.3 terms on the advisory board for the other Minnesota cities representative and the other
134.4 Minnesota active volunteer firefighter representative are three years. The term for the
134.5 Office of the State Auditor representative is determined by the state auditor.

134.6 (b) Subsequent terms on the advisory board other than the Office of the State
134.7 Auditor representative are three years.

134.8 Subd. 5. **Compensation of advisory board.** The compensation of members of the
134.9 advisory board other than the Office of the State Auditor representative is governed by
134.10 section 15.0575, subdivision 3.

134.11 Sec. 13. **[353G.04] INFORMATION FROM MUNICIPALITIES AND FIRE**
134.12 **DEPARTMENTS.**

134.13 The chief executive officers of municipalities and fire departments with volunteer
134.14 firefighters covered by the voluntary lump-sum volunteer firefighter retirement plan shall
134.15 provide all relevant information and records requested by the board, the executive director,
134.16 and the State Board of Investment as required to perform their duties.

134.17 Sec. 14. **[353G.05] PLAN COVERAGE ELECTION.**

134.18 Subdivision 1. **Coverage.** Any municipality or independent nonprofit firefighting
134.19 corporation may elect to have its volunteer firefighters covered by the retirement plan.

134.20 Subd. 2. **Election of coverage.** (a) The process for electing coverage of volunteer
134.21 firefighters by the retirement plan is initiated by a request to the executive director for a
134.22 cost analysis of the prospective retirement coverage.

134.23 (b) If the volunteer firefighters are currently covered by a volunteer firefighters' relief
134.24 association governed by chapter 424A, the cost analysis of the prospective retirement
134.25 coverage must be requested jointly by the secretary of the volunteer firefighters' relief
134.26 association, following approval of the request by the board of the volunteer firefighters'
134.27 relief association, and the chief administrative officer of the entity associated with the
134.28 relief association, following approval of the request by the governing body of the entity
134.29 associated with the relief association. If the relief association is associated with more than
134.30 one entity, the chief administrative officer of each associated entity must execute the
134.31 request. If the volunteer firefighters are not currently covered by a volunteer firefighters'
134.32 relief association, the cost analysis of the prospective retirement coverage must be
134.33 requested by the chief administrative officer of the entity operating the fire department.

135.1 The request must be made in writing and must be made on a form prescribed by the
135.2 executive director.

135.3 (c) The cost analysis of the prospective retirement coverage by the statewide
135.4 retirement plan must be based on the service pension amount under section 353G.11
135.5 closest to the service pension amount provided by the volunteer firefighters' relief
135.6 association, if there is one, or to the lowest service pension amount under section 353G.11
135.7 if there is no volunteer firefighters' relief association, rounded up, and any other service
135.8 pension amount designated by the requester or requesters. The cost analysis must be
135.9 prepared using a mathematical procedure certified as accurate by an approved actuary
135.10 retained by the Public Employees Retirement Association.

135.11 (d) If a cost analysis is requested and a volunteer firefighters' relief association exists
135.12 that has filed the information required under section 69.051 in a timely fashion, upon
135.13 request by the executive director, the state auditor shall provide the most recent data
135.14 available on the financial condition of the volunteer firefighters' relief association, the most
135.15 recent firefighter demographic data available, and a copy of the current relief association
135.16 bylaws. If a cost analysis is requested, but no volunteer firefighters' relief association
135.17 exists, the chief administrative officer of the entity operating the fire department shall
135.18 provide the demographic information on the volunteer firefighters serving as members
135.19 of the fire department requested by the executive director.

135.20 (e) If a cost analysis is requested, the executive director of the State Board of
135.21 Investment shall review the investment portfolio of the relief association, if applicable,
135.22 for compliance with the applicable provisions of chapter 11A and for appropriateness
135.23 for retention under the established investment objectives and investment policies of the
135.24 State Board of Investment. If the prospective retirement coverage change is approved
135.25 under paragraph (f), the State Board of Investment may require that the relief association
135.26 liquidate any investment security or other asset which the executive director of the State
135.27 Board of Investment has determined to be an ineligible or inappropriate investment for
135.28 retention by the State Board of Investment. The security or asset liquidation must occur
135.29 before the effective date of the transfer of retirement plan coverage. If requested to do
135.30 so by the chief administrative officer of the relief association, the executive director of
135.31 the State Board of Investment shall provide advice about the best means to conduct the
135.32 liquidation.

135.33 (f) Upon receipt of the cost analysis, the governing body of the municipality or
135.34 independent nonprofit firefighting corporation associated with the fire department shall
135.35 approve or disapprove the retirement coverage change within 90 days. If the retirement
135.36 coverage change is not acted upon within 90 days, it is deemed to be disapproved. If the

136.1 retirement coverage change is approved by the applicable governing body, coverage by
136.2 the voluntary statewide lump-sum volunteer firefighter retirement plan is effective on the
136.3 next following January 1.

136.4 Sec. 15. **[353G.06] DISESTABLISHMENT OF PRIOR VOLUNTEER**
136.5 **FIREFIGHTERS' RELIEF ASSOCIATION SPECIAL FUND UPON**
136.6 **RETIREMENT COVERAGE CHANGE.**

136.7 Subdivision 1. **Special fund disestablishment.** (a) On the date immediately prior
136.8 to the effective date of the coverage change, the special fund of the applicable volunteer
136.9 firefighters' relief association, if one exists, ceases to exist as a pension fund of the
136.10 association and legal title to the assets of the special fund transfers to the State Board of
136.11 Investment, with the beneficial title to the assets of the special fund remaining in the
136.12 applicable volunteer firefighters.

136.13 (b) If the market value of the special fund of the volunteer firefighters' relief
136.14 association for which retirement coverage changed under this chapter declines in the
136.15 interval between the date of the most recent financial report or statement, and the special
136.16 fund disestablishment date, the applicable municipality shall transfer an additional amount
136.17 to the State Board of Investment equal to that decline. If more than one municipality is
136.18 responsible for the direct management of the fire department, the municipalities shall
136.19 allocate the additional transfer amount among the various applicable municipalities
136.20 one-half in proportion to the population of each municipality and one-half in proportion
136.21 to the market value of each municipality.

136.22 Subd. 2. **Other relief association changes.** In addition to the transfer and
136.23 disestablishment of the special fund under subdivision 1, notwithstanding any provisions
136.24 of chapter 424A or 424B to the contrary, upon the effective date of the change in volunteer
136.25 firefighter retirement coverage, if the relief association membership elects to retain the
136.26 relief association after the benefit coverage election, the following changes must be
136.27 implemented with respect to the applicable volunteer firefighters' relief association:

136.28 (1) the relief association board of trustees membership is reduced to five, comprised
136.29 of the fire chief of the fire department and four trustees elected by and from the relief
136.30 association membership;

136.31 (2) the relief association may only maintain a general fund, which continues to
136.32 be governed by section 424A.06;

136.33 (3) the relief association is not authorized to receive the proceeds of any state aid or
136.34 to receive any municipal funds; and

137.1 (4) the relief association may not pay any service pension or benefit that was not
137.2 authorized as a general fund disbursement under the articles of incorporation or bylaws of
137.3 the relief association in effect prior to the plan coverage election process.

137.4 Subd. 3. **Successor in interest.** Upon the disestablishment of the special fund of
137.5 the volunteer firefighters' relief association under this section, the voluntary statewide
137.6 lump-sum volunteer firefighter retirement plan is the successor in interest of the special
137.7 fund of the volunteer firefighters' relief association for all claims against the special fund
137.8 other than a claim against the special fund, the volunteer firefighters' relief association,
137.9 the municipality, the fire department, or any person connected with the volunteer
137.10 firefighters' relief association in a fiduciary capacity under chapter 356A or common law
137.11 that was based on any act or acts which were not performed in good faith and which
137.12 constituted a breach of a fiduciary obligation. As the successor in interest of the special
137.13 fund of the volunteer firefighters' relief association, the voluntary statewide lump-sum
137.14 volunteer firefighter retirement plan may assert any applicable defense in any judicial
137.15 proceeding which the board of trustees of the volunteer firefighters' relief association or
137.16 the municipality would have been entitled to assert.

137.17 **Sec. 16. [353G.07] CERTIFICATION OF GOOD TIME SERVICE CREDIT.**

137.18 (a) Annually, by March 31, the fire chief of the fire department with firefighters who
137.19 are active members of the retirement plan shall certify to the executive director the good
137.20 time service credit for the previous calendar year of each firefighter rendering active
137.21 service with the fire department.

137.22 (b) The fire chief shall provide to each firefighter rendering active service with
137.23 the fire department notification of the amount of good time service credit rendered by
137.24 the firefighter for the calendar year. The good time service credit notification must be
137.25 provided to the firefighter 60 days before its certification to the executive director of the
137.26 Public Employees Retirement Association, along with an indication of the process for the
137.27 firefighter to challenge the fire chief's determination of good time service credit. If the
137.28 good time service credit amount is challenged in a timely fashion, the fire chief shall hold
137.29 a hearing on the challenge, accept and consider any additional pertinent information,
137.30 and make a final determination of good time service credit. The final determination of
137.31 good time service credit by the fire chief is not reviewable by the executive director of
137.32 the Public Employees Retirement Association or by the board of trustees of the Public
137.33 Employees Retirement Association.

138.1 (c) The good time service credit certification is an official public document. If a
138.2 false good time service credit certification is filed or if false information regarding good
138.3 time service credits is provided, section 353.19 applies.

138.4 (d) The good time service credit certification must be expressed as a percentage of a
138.5 full year of service during which an active firefighter rendered at least the minimum level
138.6 and quantity of fire suppression, emergency response, fire prevention, or fire education
138.7 duties required by the fire department under the rules and regulations applicable to the
138.8 fire department. No more than one year of good time service credit may be certified
138.9 for a calendar year.

138.10 (e) If a firefighter covered by the retirement plan leaves active firefighting service
138.11 to render active military service that is required to be covered by the federal Uniformed
138.12 Services Employment and Reemployment Rights Act, as amended, the person must be
138.13 certified as providing a full year of good time service credit in each year of the military
138.14 service, up to the applicable limit of the federal Uniformed Services Employment and
138.15 Reemployment Rights Act. If the firefighter does not return from the military service in
138.16 compliance with the federal Uniformed Services Employment and Reemployment Rights
138.17 Act, the good time service credits applicable to that military service credit period are
138.18 forfeited and cancel at the end of the calendar year in which the federal law time limit
138.19 occurs.

138.20 Sec. 17. **[353G.08] RETIREMENT PLAN FUNDING; DISBURSEMENTS.**

138.21 (a) Annually, the executive director shall determine the funding requirements of
138.22 each account in the voluntary statewide lump-sum volunteer firefighter retirement plan
138.23 on or before August 1. The funding requirements as directed under this section, must be
138.24 determined using a mathematical procedure developed and certified as accurate by an
138.25 approved actuary retained by the Public Employees Retirement Association and based on
138.26 present value factors using a six percent interest rate, without any decrement assumptions.
138.27 The funding requirements must be certified to the entity or entities associated with the fire
138.28 department whose active firefighters are covered by the retirement plan.

138.29 (b) The overall funding balance of each account for the current calendar year must
138.30 be determined in the following manner:

138.31 (1) The total accrued liability for all active and deferred members of the account as
138.32 of December 31 of the current year must be calculated based on the good time service
138.33 credit of active and deferred members as of that date.

138.34 (2) The total present assets of the account projected to December 31 of the current
138.35 year, including receipts by and disbursements from the account anticipated to occur on or

139.1 before December 31, must be calculated. To the extent possible, the market value of assets
139.2 must be utilized in making this calculation.

139.3 (3) The amount of the total present assets calculated under clause (2) must be
139.4 subtracted from the amount of the total accrued liability calculated under clause (1). If the
139.5 amount of total present assets exceeds the amount of the total accrued liability, then the
139.6 account is considered to have a surplus over full funding. If the amount of the total present
139.7 assets is less than the amount of the total accrued liability, then the account is considered
139.8 to have a deficit from full funding. If the amount of total present assets is equal to the
139.9 amount of the total accrued liability, then the special fund is considered to be fully funded.

139.10 (c) The financial requirements of each account for the following calendar year must
139.11 be determined in the following manner:

139.12 (1) The total accrued liability for all active and deferred members of the account
139.13 as of December 31 of the calendar year next following the current calendar year must be
139.14 calculated based on the good time service used in the calculation under paragraph (b),
139.15 clause (1), increased by one year.

139.16 (2) The increase in the total accrued liability of the account for the following calendar
139.17 year over the total accrued liability of the account for the current year must be calculated.

139.18 (3) The amount of anticipated future administrative expenses of the account must be
139.19 calculated by multiplying the dollar amount of the administrative expenses for the most
139.20 recent prior calendar year by the factor of 1.035.

139.21 (4) If the account is fully funded, the financial requirement of the account for the
139.22 following calendar year is the total of the amounts calculated under clauses (2) and (3).

139.23 (5) If the account has a deficit from full funding, the financial requirement of the
139.24 account for the following calendar year is the total of the amounts calculated under clauses
139.25 (2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full
139.26 funding of the account.

139.27 (6) If the account has a surplus over full funding, the financial requirement of
139.28 the account for the following calendar year is the financial requirement of the account
139.29 calculated as though the account was fully funded under clause (4) and, if the account has
139.30 also had a surplus over full funding during the prior two years, additionally reduced by an
139.31 amount equal to one-tenth of the amount of the surplus over full funding of the account.

139.32 (d) The required contribution of the entity or entities associated with the fire
139.33 department whose active firefighters are covered by the retirement plan is the annual
139.34 financial requirements of the account of the retirement plan under paragraph (c) reduced
139.35 by the amount of any fire state aid payable under sections 69.011 to 69.051 reasonably
139.36 anticipated to be received by the retirement plan attributable to the entity or entities during

140.1 the following calendar year, and an amount of interest on the assets projected to be
 140.2 received during the following calendar year calculated at the rate of six percent per annum.
 140.3 The required contribution must be allocated between the entities if more than one entity
 140.4 is involved. A reasonable amount of anticipated fire state aid is an amount that does not
 140.5 exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

140.6 (e) The required contribution calculated in paragraph (d) must be paid to the
 140.7 retirement plan on or before December 31 of the year for which it was calculated. If
 140.8 the contribution is not received by the retirement plan by December 31, it is payable
 140.9 with interest at an annual compound rate of six percent from the date due until the date
 140.10 payment is received by the retirement plan. If the entity does not pay the full amount of
 140.11 the required contribution, the executive director shall collect the unpaid amount under
 140.12 section 353.28, subdivision 6.

140.13 (f) The assets of the retirement fund may only be disbursed for:

140.14 (1) the administrative expenses of the retirement plan;

140.15 (2) the investment expenses of the retirement fund;

140.16 (3) the service pensions payable under section 353G.10, 353G.11, 353G.14, or
 140.17 353G.15; and

140.18 (4) the survivor benefits payable under section 353G.12.

140.19 Sec. 18. **[353G.09] RETIREMENT BENEFIT ELIGIBILITY.**

140.20 Subdivision 1. **Entitlement.** Except as provided in subdivision 3, an active member
 140.21 of the retirement plan is entitled to a lump-sum service pension from the retirement plan
 140.22 if the person:

140.23 (1) has separated from active service with the fire department for at least 30 days;

140.24 (2) has attained the age of at least 50 years;

140.25 (3) has completed at least five years of good time service credit as a member of
 140.26 the retirement plan; and

140.27 (4) applies in a manner prescribed by the executive director for the service pension.

140.28 Subd. 2. **Vesting schedule; nonforfeitable portion of service pension.** If an
 140.29 active member has completed less than 20 years of good time service credit, the person's
 140.30 entitlement is to the nonforfeitable percentage of the applicable service pension amount,
 140.31 as follows:

<u>Completed years of good time</u>	<u>Nonforfeitable percentage of the service pension</u>
<u>service credit</u>	
<u>5</u>	<u>40 percent</u>
<u>6</u>	<u>44 percent</u>
<u>7</u>	<u>48 percent</u>

141.1	<u>8</u>	<u>52 percent</u>
141.2	<u>9</u>	<u>56 percent</u>
141.3	<u>10</u>	<u>60 percent</u>
141.4	<u>11</u>	<u>64 percent</u>
141.5	<u>12</u>	<u>68 percent</u>
141.6	<u>13</u>	<u>72 percent</u>
141.7	<u>14</u>	<u>76 percent</u>
141.8	<u>15</u>	<u>80 percent</u>
141.9	<u>16</u>	<u>84 percent</u>
141.10	<u>17</u>	<u>88 percent</u>
141.11	<u>18</u>	<u>92 percent</u>
141.12	<u>19</u>	<u>96 percent</u>
141.13	<u>20 and thereafter</u>	<u>100 percent</u>

141.14 Subd. 3. **Alternative pension eligibility and computation.** (a) An active member
 141.15 of the retirement plan is entitled to an alternative lump-sum service pension from the
 141.16 retirement plan if the person:

141.17 (1) has separated from active service with the fire department for at least 30 days;

141.18 (2) has attained the age of at least 50 years or the age for receipt of a service pension
 141.19 under the benefit plan of the applicable former volunteer firefighters' relief association
 141.20 as of the date immediately prior to the election of the retirement coverage change,
 141.21 whichever is later;

141.22 (3) has completed at least five years of active service with the fire department and at
 141.23 least five years in total as a member of the applicable former volunteer firefighters' relief
 141.24 association or of the retirement plan, but has not rendered at least five years of good time
 141.25 service credit as a member of the retirement plan; and

141.26 (4) applies in a manner prescribed by the executive director for the service pension.

141.27 (b) The alternative lump-sum service pension is the service pension amount specified
 141.28 in the bylaws of the applicable former volunteer firefighters' relief association either
 141.29 as of the date immediately prior to the election of the retirement coverage change or
 141.30 as of the date immediately before the termination of firefighting services, whichever is
 141.31 earlier, multiplied by the total number of years of service as a member of that volunteer
 141.32 firefighters' relief association and as a member of the retirement plan.

141.33 **Sec. 19. [353G.10] DEFERRED SERVICE PENSION AMOUNT.**

141.34 A person who was an active member of a fire department covered by the retirement
 141.35 plan who has separated from active firefighting service for at least 30 days and who has
 141.36 completed at least five years of good time service credit, but has not attained the age of
 141.37 50 years, is entitled to a deferred service pension on or after attaining the age of 50 years

142.1 and applying in a manner specified by the executive director for the service pension. The
 142.2 service pension payable is the nonforfeitable percentage of the service pension under
 142.3 section 353G.09, subdivision 2, and is payable without any interest over the period of
 142.4 deferral.

142.5 Sec. 20. **[353G.11] SERVICE PENSION LEVELS.**

142.6 Subdivision 1. **Levels.** The retirement plan provides the following levels of service
 142.7 pension amounts to be selected at the election of coverage, or, if fully funded, thereafter:

142.8	<u>Level A</u>	<u>\$500 per year of good time service credit</u>
142.9	<u>Level B</u>	<u>\$750 per year of good time service credit</u>
142.10	<u>Level C</u>	<u>\$1,000 per year of good time service credit</u>

142.12	<u>Level E</u>	<u>\$2,000 per year of good time service credit</u>
142.13	<u>Level F</u>	<u>\$2,500 per year of good time service credit</u>
142.14	<u>Level G</u>	<u>\$3,000 per year of good time service credit</u>
142.15	<u>Level H</u>	<u>\$3,500 per year of good time service credit</u>

 142.30 by the approved actuary retained by the Public Employees Retirement Association, the
 142.31 governing body or bodies may approve the service pension level change, effective for the
 142.32 following calendar year. If not approved in a timely fashion, the service pension level
 142.33 change is considered to have been disapproved.

143.6 the member, or if none, the estate of the member.

143.7 Subd. 2. Survivor benefit amount. The amount of the survivor benefit is the
143.8 amount of the service pension that would have been payable to the member of the
143.9 retirement plan on the date of death if the member had been age 50 or older on that date.

143.10 Sec. 22. **[353G.13] PORTABILITY.**

143.11 Subdivision 1. Eligibility. An active firefighter who is a member of the retirement
143.12 plan who also renders firefighting service and has good time service credit in the retirement
143.13 plan from another fire department, if the good time service credit in the plan from a

143.15 requirements of section 353G.09, to receive a service pension upon filing an application in
143.16 the manner prescribed by the executive director, computed as provided in subdivision 2.

143.17 Subd. 2. Combined service pension computation. The service pension payable to

143.19 service pension amount in effect for each account in which the firefighter has good time
143.20 service credit as of the date on which the firefighter terminated active service with the fire
143.21 department associated with the applicable account, multiplied by the number of years of

143.23 Subd. 3. Payment. A service pension under this section must be paid in a single
143.24 payment, with the applicable portion of the total service pension payment amount
143.25 deducted from each account.

143.26 Sec. 23. **[353G.14] PURCHASE OF ANNUITY CONTRACTS.**

143.27 The executive director may purchase an annuity contract on behalf of a retiring
143.28 firefighter with a total premium payment in an amount equal to the lump-sum service
143.29 pension payable under section 353G.09 if the purchase was requested by the retiring
143.30 firefighter in a manner prescribed by the executive director. The annuity contract must
143.31 be purchased from an insurance carrier that is licensed to do business in this state. If
143.32 purchased, the annuity contract is in lieu of any service pension or other benefit from the
143.33 retirement plan. The annuity contract may be purchased at any time after the volunteer

153.27 subject to a limitation as to rate or amount to be reduced.

153.28 (d) If the municipality does not include the full amount of the minimum municipal

153.32 (e) If the state auditor determines that a municipal contribution actually made in a
153.33 plan year was insufficient under section 69.771, subdivision 3, paragraph (c), clause (5),
153.34 the state auditor may request a copy of the certifications under this subdivision from the
153.35 relief association or from the city. The relief association or the city, whichever applies,

154.4 Sec. 4. Minnesota Statutes 2008, section 69.772, subdivision 6, is amended to read:

154.5 Subd. 6. **Municipal ratification for plan amendments.** If the special fund of the
154.6 relief association does not have a surplus over full funding pursuant to subdivision 3,
154.7 clause (2), subclause (e), or if the municipality is required to provide financial support
154.8 to the special fund of the relief association pursuant to this section, the adoption of or
154.9 any amendment to the articles of incorporation or bylaws of a relief association which
154.10 increases or otherwise affects the retirement coverage provided by or the service pensions
154.11 or retirement benefits payable from the special fund of any relief association to which this
154.12 section applies ~~shall~~ is not ~~be~~ effective until it is ratified by the governing body of the
154.13 municipality in which the relief association is located and the officers of a relief association
154.14 shall not seek municipal ratification prior to preparing and certifying an estimate of
154.15 the expected increase in the accrued liability and annual accruing liability of the relief
154.16 association attributable to the amendment. If the special fund of the relief association has
154.17 a surplus over full funding pursuant to subdivision 3, clause (2), subclause (e), and if the
154.18 municipality is not required to provide financial support to the special fund of the relief
154.19 association pursuant to this section, the relief association may adopt or amend its articles
154.20 of incorporation or bylaws which increase or otherwise affect the retirement coverage
154.21 provided by or the service pensions or retirement benefits payable from the special fund
154.22 of the relief association which ~~shall be~~ are effective without municipal ratification so
154.23 long as this does not cause the amount of the resulting increase in the accrued liability
154.24 of the special fund of the relief association to exceed 90 percent of the amount of the
154.25 ~~prior~~ surplus over full funding reported in the prior year and this does not result in the
154.26 financial requirements of the special fund of the relief association exceeding the expected
154.27 amount of the future fire state aid to be received by the relief association as determined
154.28 by the board of trustees following the preparation of an estimate of the expected increase
154.29 in the accrued liability and annual accruing liability of the relief association attributable
154.30 to the change. If a relief association adopts or amends its articles of incorporation or
154.31 bylaws without municipal ratification pursuant to this subdivision, and, subsequent to
154.32 the amendment or adoption, the financial requirements of the special fund of the relief
154.33 association pursuant to this section are such so as to require financial support from the
154.34 municipality, the provision which was implemented without municipal ratification ~~shall~~

155.4 Sec. 5. Minnesota Statutes 2008, section 69.773, subdivision 6, is amended to read:

155.5 Subd. 6. **Municipal ratification for plan amendments.** If the special fund of the
155.6 relief association does not have a surplus over full funding pursuant to subdivision 4, or if

155.9 incorporation or bylaws of a relief association which increases or otherwise affects the
155.10 retirement coverage provided by or the service pensions or retirement benefits payable
155.11 from the special fund of any relief association to which this section applies ~~shall~~ is not
155.12 ~~be~~ effective until it is ratified by the governing body of the municipality in which the
155.13 relief association is located. If the special fund of the relief association has a surplus over
155.14 full funding pursuant to subdivision 4, and if the municipality is not required to provide
155.15 financial support to the special fund of the relief association pursuant to this section,
155.16 the relief association may adopt or amend its articles of incorporation or bylaws which
155.17 increase or otherwise affect the retirement coverage provided by or the service pensions or
155.18 retirement benefits payable from the special fund of the relief association which ~~shall be~~
155.19 are effective without municipal ratification so long as this does not cause the amount of
155.20 the resulting increase in the accrued liability of the special fund of the relief association to
155.21 exceed 90 percent of the amount of the ~~prior~~ surplus over full funding reported in the prior
155.22 year and this does not result in the financial requirements of the special fund of the relief
155.23 association exceeding the expected amount of the future fire state aid to be received by the
155.24 relief association as determined by the board of trustees following the preparation of an
155.25 updated actuarial valuation including the proposed change or an estimate of the expected
155.26 actuarial impact of the proposed change prepared by the actuary of the relief association.
155.27 If a relief association adopts or amends its articles of incorporation or bylaws without
155.28 municipal ratification pursuant to this subdivision, and, subsequent to the amendment or
155.29 adoption, the financial requirements of the special fund of the relief association pursuant to
155.30 this section are such so as to require financial support from the municipality, the provision
155.31 which was implemented without municipal ratification ~~shall~~ is no longer ~~be~~ effective
155.32 without municipal ratification and any service pensions or retirement benefits payable
155.33 after that date ~~shall be~~ may paid only in accordance with the articles of incorporation or
155.34 bylaws as amended or adopted with municipal ratification.

156.1 **EFFECTIVE DATE.** This section is effective July 1, 2009.

156.2 Sec. 6. Minnesota Statutes 2008, section 356.219, subdivision 3, is amended to read:

156.3 Subd. 3. **Content of reports.** (a) The report required by subdivision 1 must include
156.4 a written statement of the investment policy. Following that initial report, subsequent
156.5 reports must include investment policy changes and the effective date of each policy
156.6 change rather than a complete statement of investment policy, unless the state auditor
156.7 requests submission of a complete current statement. The report must also include the
156.8 information required by the following paragraphs, as applicable.

156.9 (b) If, after four years of reporting under this paragraph, the total portfolio time
156.10 weighted rate of return, net of all investment related costs and fees, provided by the public
156.11 pension plan differs by no more than 0.1 percent from the comparable return for the plan
156.12 calculated by the Office of the State Auditor, and if a public pension plan has a total
156.13 market value of \$25,000,000 or more as of the beginning of the calendar year, and if the
156.14 public pension plan's annual audit is performed by the state auditor or by the legislative
156.15 auditor, the report required by subdivision 1 must include the market value of the total
156.16 portfolio and the market value of each asset class included in the pension fund as of the
156.17 beginning of the calendar year and as of the end of the calendar year. At the discretion of
156.18 the state auditor, the public pension plan may be required to submit the market value of the
156.19 total portfolio and the market value of each investment account, investment portfolio, or
156.20 asset class included in the pension fund for each month, and the amount and date of each
156.21 injection and withdrawal to the total portfolio and to each investment account, investment
156.22 portfolio, or asset class. If the market value of a public pension plan's fund drops below
156.23 \$25,000,000 in a subsequent year, it must continue reporting under this paragraph for any
156.24 subsequent year in which the public pension plan is not fully invested as specified in
156.25 subdivision 1, paragraph (b), except that if the public pension plan's annual audit is not
156.26 performed by the state auditor or legislative auditor, paragraph (c) applies.

156.27 (c) If paragraph (b) would apply if the annual audit were provided by the state
156.28 auditor or legislative auditor, the report required by subdivision 1 must include the market
156.29 value of the total portfolio and the market value of each asset class included in the pension
156.30 fund as of the beginning of the calendar year and for each month, and the amount and date
156.31 of each injection and withdrawal to the total portfolio and to each investment account,
156.32 investment portfolio, or asset class.

156.33 (d) For public pension plans to which paragraph (b) or (c) applies, the report required
156.34 by subdivision 1 must also include a calculation of the total time-weighted rate of return
156.35 available from index-matching investments assuming the asset class performance targets

157.1 and target asset mix indicated in the written statement of investment policy. The provided
157.2 information must include a description of indices used in the analyses and an explanation
157.3 of why those indices are appropriate. This paragraph does not apply to any fully invested
157.4 plan, as defined by subdivision 1, paragraph (b). Reporting by the State Board of
157.5 Investment under this paragraph is limited to information on the Minnesota public pension
157.6 plans required to be invested by the State Board of Investment under section 11A.23.

157.7 (e) If a public pension plan has a total market value of less than \$25,000,000 as of
157.8 the beginning of the calendar year and was never required to file under paragraph (b) or
157.9 (c), the report required by subdivision 1 must include the amount and date of each total
157.10 portfolio injection and withdrawal. In addition, the report must include the market value
157.11 of the total portfolio as of the beginning of the calendar year and for each quarter.

157.12 (f) Any public pension plan reporting under paragraph (b) or (c) must include
157.13 computed time-weighted rates of return with the report, in addition to all other required
157.14 information, as applicable. The chief administrative officer of the public pension plan
157.15 submitting the returns must certify, on a form prescribed by the state auditor, that the
157.16 returns have been computed by the pension plan's investment performance consultant or
157.17 custodial bank. The chief administrative officer of the public pension plan submitting the
157.18 returns also must certify that the returns are net of all costs and fees, including investment
157.19 management fees, and that the procedures used to compute the returns are consistent
157.20 with Bank Administration Institute studies of investment performance measurement
157.21 and presentation standards set by the ~~Certified Financial Analyst~~ CFA Institute. If the
157.22 certifications required under this paragraph are not provided, the reporting requirements of
157.23 paragraph (c) apply.

157.24 (g) For public pension plans reporting under paragraph (e), the public pension plan
157.25 must retain supporting information specifying the date and amount of each injection and
157.26 withdrawal to each investment account and investment portfolio. The public pension plan
157.27 must also retain the market value of each investment account and investment portfolio at
157.28 the beginning of the calendar year and for each quarter. Information that is required to be
157.29 collected and retained for any given year or years under this paragraph must be submitted
157.30 to the Office of the State Auditor if the Office of the State Auditor requests in writing that
157.31 the information be submitted by a public pension plan or plans, or be submitted by the
157.32 State Board of Investment for any plan or plans for which the State Board of Investment is
157.33 the investment authority under this section. If the state auditor requests information under
157.34 this subdivision, and the public plan fails to comply, the pension plan is subject to penalties
157.35 under subdivision 5, unless penalties are waived by the state auditor under that subdivision.

157.36 **EFFECTIVE DATE.** This section is effective July 1, 2009.

163.22 resumption service. No firefighter may be paid a service pension twice for the same period
163.23 of service. If a lump-sum service pension had not been paid to the firefighter upon the
163.24 firefighter's previous cessation of duties and the firefighter meets the minimum service

164.7 upon a subsequent cessation of duties calculated based on the resumption service credit
164.8 and the service pension accrual amount in effect on the date of the termination of the
164.9 resumption service. The suspended initial service pension resumes as of the first of
164.10 the month next following the termination of the resumption service. If the firefighter
164.11 was not receiving a monthly benefit service pension and meets the minimum service
164.12 requirement of section 424A.02, subdivision 2, a service pension must be calculated to
164.13 apply the service pension amount in effect on the date of the firefighter's termination of the
164.14 resumption service for all years of service credit.

164.15 (f) A firefighter who was not receiving a monthly benefit service pension returns

164.18 of section 424A.02, subdivision 2, based on the firefighter's previous years of active
164.19 service, must have, upon a subsequent cessation of duties, a service pension calculated for
164.20 the previous years of service based on the service pension amount in effect on the date
164.21 of the firefighter's termination of the resumption service, or, if the bylaws so provide,
164.22 based on the service pension amount in effect on the date of the firefighter's previous
164.23 cessation of duties.

164.24 **EFFECTIVE DATE.** This section is effective July 1, 2009.

164.26 **FIREFIGHTERS' RELIEF ASSOCIATION PENSION PLAN REGULATION.**

164.27 **Subdivision 1. Separation from active service; exception.** (a) No service pension
164.28 is payable to a person while the person remains an active member of the respective fire
164.29 department, and a person who is receiving a service pension is not entitled to receive any
164.30 other benefits from the special fund of the relief association.

164.31 (b) No relief association as defined in section 424A.001, subdivision 4, may pay a
164.32 service pension or disability benefit to a former member of the relief association if that
164.33 person has not separated from active service with the fire department to which the relief
164.34 association is directly associated, unless:

165.1 (1) the person is employed subsequent to retirement by the municipality or the
165.2 independent nonprofit firefighting corporation, whichever applies, to perform duties within
165.3 the municipal fire department or corporation on a full-time basis;

165.4 (2) the governing body of the municipality or of the corporation has filed its
165.5 determination with the board of trustees of the relief association that the person's
165.6 experience with and service to the fire department in that person's full-time capacity
165.7 would be difficult to replace; and

165.8 (3) the bylaws of the relief association were amended to provide for the payment of
165.9 a service pension or disability benefit for such full-time employees.

165.10 Subd. 2. **No assignment or garnishment.** A service pension or ancillary benefits
165.11 paid or payable from the special fund of a relief association to any person receiving or
165.12 entitled to receive a service pension or ancillary benefits is not subject to garnishment,
165.13 judgment, execution, or other legal process, except as provided in section 518.58, 518.581,
165.14 or 518A.53. No person entitled to a service pension or ancillary benefits from the special
165.15 fund of a relief association may assign any service pension or ancillary benefit payments,
165.16 and the association does not have the authority to recognize any assignment or pay over
165.17 any sum which has been assigned.

165.18 Subd. 3. **Purchase of annuity contract.** A relief association that provides a service
165.19 pension in a single payment, if the governing articles of incorporation or bylaws so
165.20 provide, may purchase an annuity contract on behalf of a retiring member in an amount
165.21 equal to the service pension otherwise payable at the request of the person and in place of
165.22 a direct payment to the person. The annuity contract must be purchased from an insurance
165.23 carrier licensed to do business in this state.

165.24 Subd. 4. **Transfer to individual retirement account.** A relief association that is a
165.25 qualified pension plan under section 401(a) of the Internal Revenue Code, as amended,
165.26 and that provides a single payment service pension, at the written request of the applicable
165.27 retiring member or, following the death of the active member, at the written request of the
165.28 deceased member's surviving spouse, may directly transfer on an institution-to-institution
165.29 basis the eligible member's lump-sum pension or the death or survivor benefit attributable
165.30 to the member, whichever applies, to the requesting person's individual retirement account
165.31 under section 408(a) of the Internal Revenue Code, as amended.

165.32 **EFFECTIVE DATE.** This section is effective July 1, 2009.

165.33 Sec. 23. **[424A.016] DEFINED CONTRIBUTION VOLUNTEER**
165.34 **FIREFIGHTERS' RELIEF ASSOCIATION SPECIFIC REGULATION.**

166.1 Subdivision 1. **Defined contribution relief association authorization.** If the
166.2 articles of incorporation or the bylaws governing the volunteer firefighters' relief
166.3 association so provide exclusively, the relief association may pay a defined contribution
166.4 lump-sum service pension instead of a defined benefit service pension governed by section
166.5 424A.02.

166.6 Subd. 2. **Defined contribution service pension eligibility.** (a) A relief association,
166.7 when its articles of incorporation or bylaws so provide, may pay out of the assets of its
166.8 special fund a defined contribution service pension to each of its members who:

166.9 (1) separates from active service with the fire department;

166.10 (2) reaches age 50;

166.11 (3) completes at least five years of active service as an active member of the
166.12 municipal fire department to which the relief association is associated;

166.13 (4) completes at least five years of active membership with the relief association
166.14 before separation from active service; and

166.15 (5) complies with any additional conditions as to age, service, and membership that
166.16 are prescribed by the bylaws of the relief association.

166.17 (b) In the case of a member who has completed at least five years of active service as
166.18 an active member of the fire department to which the relief association is associated on
166.19 the date that the relief association is established and incorporated, the requirement that
166.20 the member complete at least five years of active membership with the relief association
166.21 before separation from active service may be waived by the board of trustees of the relief
166.22 association if the member completes at least five years of inactive membership with the
166.23 relief association before the date of the payment of the service pension. During the period
166.24 of inactive membership, the member is not entitled to receive any disability benefit
166.25 coverage, is not entitled to receive additional individual account allocation of fire state
166.26 aid or municipal contribution towards a service pension, and is considered to have the
166.27 status of a person entitled to a deferred service pension.

166.28 (c) The service pension earned by a volunteer under this chapter and the articles
166.29 of incorporation and bylaws of the relief association may be paid whether or not the
166.30 municipality or nonprofit firefighting corporation to which the relief association is
166.31 associated qualifies for the receipt of fire state aid under chapter 69.

166.32 Subd. 3. **Reduced vesting schedule.** If the articles of incorporation or bylaws of a
166.33 defined contribution relief association so provide, a relief association may pay a reduced
166.34 service pension not to exceed the nonforfeitable percentage of the account balance to a
166.35 retiring member who has completed fewer than 20 years of service. The reduced service
166.36 pension may be paid when the retiring member meets the minimum age and service

167.1 requirements of subdivision 2. The nonforfeitable percentage of pension amounts are
 167.2 as follows:

167.3	<u>Completed Years of Service</u>	<u>Nonforfeitable Percentage of</u>
167.4		<u>Pension Amount</u>
167.5	<u>5</u>	<u>40 percent</u>
167.6	<u>6</u>	<u>52 percent</u>
167.7	<u>7</u>	<u>64 percent</u>
167.8	<u>8</u>	<u>76 percent</u>
167.9	<u>9</u>	<u>88 percent</u>
167.10	<u>10 and thereafter</u>	<u>100 percent</u>

167.11 Subd. 4. **Individual accounts.** (a) An individual account must be established for
 167.12 each firefighter who is a member of the relief association.

167.13 (b) To each individual active member account must be credited an equal share of:

167.14 (1) any amounts of fire state aid received by the relief association;

167.15 (2) any amounts of municipal contributions to the relief association raised from
 167.16 levies on real estate or from other available municipal revenue sources exclusive of fire
 167.17 state aid; and

167.18 (3) any amounts equal to the share of the assets of the special fund to the credit of:

167.19 (i) any former member who terminated active service with the fire department to
 167.20 which the relief association is associated before meeting the minimum service requirement
 167.21 provided for in subdivision 2, paragraph (b), and has not returned to active service with
 167.22 the fire department for a period no shorter than five years; or

167.23 (ii) any retired member who retired before obtaining a full nonforfeitable interest in
 167.24 the amounts credited to the individual member account under subdivision 2, paragraph
 167.25 (b), and any applicable provision of the bylaws of the relief association. In addition, any
 167.26 investment return on the assets of the special fund must be credited in proportion to the
 167.27 share of the assets of the special fund to the credit of each individual active member
 167.28 account. Administrative expenses of the relief association payable from the special
 167.29 fund may be deducted from individual accounts in a manner specified in the bylaws of
 167.30 the relief association.

167.31 (c) Amounts to be credited to individual accounts must be allocated uniformly for all
 167.32 years of active service and allocations must be made for all years of service, except for
 167.33 caps on service credit if so provided in the bylaws of the relief association. The allocation
 167.34 method may utilize monthly proration for fractional years of service, as the bylaws or
 167.35 articles of incorporation of the relief association so provide. The bylaws or articles of
 167.36 incorporation may define a "month," but the definition must require a calendar month to
 167.37 have at least 16 days of active service. If the bylaws or articles of incorporation do not

168.1 define a "month," a "month" is a completed calendar month of active service measured
168.2 from the member's date of entry to the same date in the subsequent month.

168.3 (d) At the time of retirement under subdivision 2 and any applicable provision of the
168.4 bylaws of the relief association, a retiring member is entitled to that portion of the assets
168.5 of the special fund to the credit of the member in the individual member account which is
168.6 nonforfeitable under subdivision 3 and any applicable provision of the bylaws of the relief
168.7 association based on the number of years of service to the credit of the retiring member.

168.8 (e) Annually, the secretary of the relief association shall certify the individual
168.9 account allocations to the state auditor at the same time that the annual financial statement
168.10 or financial report and audit of the relief association, whichever applies, is due under
168.11 section 69.051.

168.12 Subd. 5. **Service pension installment payments.** A defined contribution relief
168.13 association, if the governing bylaws so provide, may pay, at the option of the retiring
168.14 member and in lieu of a single payment of a service pension, the service pension in
168.15 installments. The election of installment payments is irrevocable and must be made by the
168.16 retiring member in writing and filed with the secretary of the relief association no later
168.17 than 30 days before the commencement of payment of the service pension. The amount of
168.18 the installment payments must be the fractional portion of the remaining account balance
168.19 equal to one divided by the number of remaining annual installment payments.

168.20 Subd. 6. **Deferred service pensions.** (a) A member of a relief association is entitled
168.21 to a deferred service pension if the member:

168.22 (1) has completed the lesser of the minimum period of active service with the fire
168.23 department specified in the bylaws or 20 years of active service with the fire department;

168.24 (2) has completed at least five years of active membership in the relief association;
168.25 and

168.26 (3) separates from active service and membership before reaching age 50 or the
168.27 minimum age for retirement and commencement of a service pension specified in the
168.28 bylaws governing the relief association if that age is greater than age 50.

168.29 (b) The deferred service pension is payable when the former member reaches age
168.30 50, or the minimum age specified in the bylaws governing the relief association if that age
168.31 is greater than age 50, and when the former member makes a valid written application.

168.32 (c) A defined contribution relief association may, if its governing bylaws so provide,
168.33 credit interest or additional investment performance on the deferred lump-sum service
168.34 pension during the period of deferral. If provided for in the bylaws, the interest must be
168.35 paid:

169.1 (1) at the investment performance rate actually earned on that portion of the assets
169.2 if the deferred benefit amount is invested by the relief association in a separate account
169.3 established and maintained by the relief association or if the deferred benefit amount is
169.4 invested in a separate investment vehicle held by the relief association; or

169.5 (2) the investment return on the assets of the special fund of the defined contribution
169.6 volunteer firefighter relief association in proportion to the share of the assets of the special
169.7 fund to the credit of each individual deferred member account through the date on which
169.8 the investment return is recognized by and credited to the special fund.

169.9 (d) The deferred service pension is governed by and must be calculated under
169.10 the general statute, special law, relief association articles of incorporation, and relief
169.11 association bylaw provisions applicable on the date on which the member separated from
169.12 active service with the fire department and active membership in the relief association.

169.13 Subd. 7. **Limitation on ancillary benefits.** (a) A defined contribution relief
169.14 association may only pay an ancillary benefit which would constitute an authorized
169.15 disbursement as specified in section 424A.05. The ancillary benefit for active members
169.16 must equal the vested or nonvested amount of the individual account of the member.

169.17 (b) For deferred members, the ancillary benefit must equal the vested amount of
169.18 the individual account of the member. For the recipient of installment payments of a
169.19 service pension, the ancillary benefit must equal the remaining balance in the individual
169.20 account of the recipient.

169.21 Subd. 8. **Filing of bylaw amendments.** Each relief association to which this section
169.22 applies must file a revised copy of its governing bylaws with the state auditor upon the
169.23 adoption of any amendment to its governing bylaws by the relief association. Failure of
169.24 the relief association to file a copy of the bylaws or any bylaw amendments with the state
169.25 auditor disqualifies the municipality from the distribution of any future fire state aid until
169.26 this filing requirement has been completed.

169.27 **EFFECTIVE DATE.** This section is effective July 1, 2009.

169.28 Sec. 24. Minnesota Statutes 2008, section 424A.02, subdivision 1, is amended to read:

169.29 Subdivision 1. **Authorization.** (a) A defined benefit relief association, when its
169.30 articles of incorporation or bylaws so provide, may pay out of the assets of its special fund
169.31 a defined benefit service pension to each of its members who: (1) separates from active
169.32 service with the fire department; (2) reaches age 50; (3) completes at least five years of
169.33 active service as an active member of the municipal fire department to which the relief
169.34 association is associated; (4) completes at least five years of active membership with
169.35 the relief association before separation from active service; and (5) complies with any

170.1 additional conditions as to age, service, and membership that are prescribed by the bylaws
170.2 of the relief association. A service pension computed under this section may be prorated
170.3 monthly for fractional years of service; ~~if~~ as the bylaws or articles of incorporation of
170.4 the relief association so provide. The bylaws or articles of incorporation may define
170.5 a "month," but the definition must require a calendar month to have at least 16 days of
170.6 active service. If the bylaws or articles of incorporation do not define a "month," a
170.7 "month" is a completed calendar month of active service measured from the member's
170.8 date of entry to the same date in the subsequent month. The service pension earned by a
170.9 volunteer firefighter under this chapter and the articles of incorporation and bylaws of the
170.10 volunteer firefighters' relief association may be paid whether or not the municipality or
170.11 nonprofit firefighting corporation to which the relief association is associated qualifies for
170.12 the receipt of fire state aid under chapter 69.

170.13 (b) In the case of a member who has completed at least five years of active service as
170.14 an active member of the fire department to which the relief association is associated on
170.15 the date that the relief association is established and incorporated, the requirement that
170.16 the member complete at least five years of active membership with the relief association
170.17 before separation from active service may be waived by the board of trustees of the relief
170.18 association if the member completes at least five years of inactive membership with the
170.19 relief association before the date of the payment of the service pension. During the
170.20 period of inactive membership, the member is not entitled to receive disability benefit
170.21 coverage, is not entitled to receive additional service credit towards computation of a
170.22 service pension, and is considered to have the status of a person entitled to a deferred
170.23 service pension under subdivision 7.

170.24 (c) No municipality or nonprofit firefighting corporation may delegate the power to
170.25 take final action in setting a service pension or ancillary benefit amount or level to the
170.26 board of trustees of the relief association or to approve in advance a service pension or
170.27 ancillary benefit amount or level equal to the maximum amount or level that this chapter
170.28 would allow rather than a specific dollar amount or level.

170.29 (d) No relief association as defined in section 424A.001, subdivision 4, may pay a
170.30 defined benefit service pension or disability benefit to a former member of the relief
170.31 association if that person has not separated from active service with the fire department to
170.32 which the relief association is directly associated, unless:

170.33 (1) the person is employed subsequent to retirement by the municipality or the
170.34 independent nonprofit firefighting corporation, whichever applies, to perform duties within
170.35 the municipal fire department or corporation on a full-time basis;

171.1 (2) the governing body of the municipality or of the corporation has filed its
 171.2 determination with the board of trustees of the relief association that the person's
 171.3 experience with and service to the fire department in that person's full-time capacity
 171.4 would be difficult to replace; and

171.5 (3) the bylaws of the relief association were amended to provide for the payment of
 171.6 a service pension or disability benefit for such full-time employees.

171.7 **EFFECTIVE DATE.** This section is effective July 1, 2009.

 179.5 to a lump-sum service pension, the maximum service pension amount for each pension

179.22 **EFFECTIVE DATE.** This section is effective July 1, 2009.

179.23 Sec. 27. Minnesota Statutes 2008, section 424A.02, subdivision 3a, is amended to read:

179.24 Subd. 3a. **Penalty for paying pension greater than applicable maximum.** (a)

179.25 If a defined benefit relief association pays a service pension greater than the maximum
 179.26 service pension associated with the applicable average amount of available financing per
 179.27 active covered firefighter under the table in subdivision 3, paragraph (c) or (d), whichever
 179.28 applies, the maximum service pension under subdivision 3, paragraph (f), or the applicable
 179.29 maximum service pension amount specified in subdivision 3, paragraph (g), whichever is
 179.30 less, the state auditor shall:

179.31 (1) disqualify the municipality or the nonprofit firefighting corporation associated
 179.32 with the relief association from receiving fire state aid by making the appropriate
 179.33 notification to the municipality and the commissioner of revenue, with the disqualification
 179.34 applicable for the next apportionment and payment of fire state aid; and

180.1 (2) order the treasurer of the applicable relief association to recover the amount of
180.2 the overpaid service pension or pensions from any retired firefighter who received an
180.3 overpayment.

180.4 (b) Fire state aid amounts from disqualified municipalities for the period of
180.5 disqualifications under paragraph (a), clause (1), must be credited to the amount of
180.6 fire insurance premium tax proceeds available for the next subsequent fire state aid
180.7 apportionment.

180.8 (c) The amount of any overpaid service pension recovered under paragraph (a),
180.9 clause (2), must be credited to the amount of fire insurance premium tax proceeds
180.10 available for the next subsequent fire state aid apportionment.

180.11 (d) The determination of the state auditor that a relief association has paid a service
180.12 pension greater than the applicable maximum must be made on the basis of the information
180.13 filed by the relief association and the municipality with the state auditor under sections
180.14 69.011, subdivision 2, and 69.051, subdivision 1 or 1a, whichever applies, and any other
180.15 relevant information that comes to the attention of the state auditor. The determination
180.16 of the state auditor is final. An aggrieved municipality, relief association, or person may
180.17 appeal the determination under section 480A.06.

180.30 (b) The deferred service pension is payable when the former member reaches age
180.31 50, or the minimum age specified in the bylaws governing the relief association if that age
180.32 is greater than age 50, and when the former member makes a valid written application.

180.34 governed by subdivision 3 may, when its governing bylaws so provide, pay interest on the

181.1 deferred lump-sum service pension during the period of deferral. If provided for in the
181.2 bylaws, interest must be paid in one of the following manners:

181.3 (1) at the investment performance rate actually earned on that portion of the assets
181.4 if the deferred benefit amount is invested by the relief association in a separate account

181.17 ~~of the special fund of the defined contribution volunteer firefighter relief association in~~
181.18 ~~proportion to the share of the assets of the special fund to the credit of each individual~~
181.19 ~~deferred member account through the date on which the investment return is recognized~~
181.20 ~~by and credited to the special fund.~~

181.21 ~~(f)~~ (e) For a deferred service pension that is transferred to a separate account
181.22 established and maintained by the relief association or separate investment vehicle held
181.23 by the relief association, the deferred member bears the full investment risk subsequent
181.24 to transfer and in calculating the accrued liability of the volunteer firefighters relief
181.25 association that pays a lump-sum service pension, the accrued liability for deferred service
181.26 pensions is equal to the separate relief association account balance or the fair market value
181.27 of the separate investment vehicle held by the relief association.

181.28 ~~(g)~~ (f) The deferred service pension is governed by and must be calculated under
181.29 the general statute, special law, relief association articles of incorporation, and relief

181.34 Subd. 8. **Lump-sum service pensions; installment payments.** (a) ~~Any~~ A defined
181.35 benefit relief association, if the governing bylaws so provide, may pay, at the option of the

182.1 ~~retiring member~~ intended recipient and in lieu of a single payment of a lump-sum service
182.2 pension or survivor benefit, a lump-sum service pension or survivor benefit in installments.

182.3 (b) The election of installment payments ~~shall be~~ is irrevocable and ~~shall~~ must be
182.4 made by the ~~retiring member~~ intended recipient in writing and filed with the secretary of
182.5 the relief association no later than 30 days ~~prior to~~ before the commencement of payment
182.6 of the service pension or survivor benefit. The amount of the installment payments ~~shall~~
182.7 must be determined ~~so that the present value of the aggregate installment payments~~
182.8 ~~computed at an interest rate of five percent, compounded annually, is equal to the amount~~
182.9 ~~of the single lump-sum payment which would have been made had the installment~~
182.10 ~~payments option not been elected. The payment of each installment shall include interest~~
182.11 ~~at the rate of five percent, compounded annually on the reserve supporting the remaining~~
182.12 ~~installment payments as of the date on which the previous installment payment was paid~~
182.13 ~~and computed from the date on which the previous installment payment was paid to the~~
182.14 ~~date of payment for the current installment payment~~ in any reasonable manner provided
182.15 for in the governing bylaws, but the total amount of installment payments may not exceed

182.21 **EFFECTIVE DATE.** This section is effective July 1, 2009.

182.22 Sec. 30. Minnesota Statutes 2008, section 424A.02, subdivision 9, is amended to read:

182.23 Subd. 9. **Limitation on ancillary benefits.** ~~Any~~ A defined benefit relief association,
182.24 including any volunteer firefighters relief association governed by section 69.77 or any
182.25 volunteer firefighters division of a relief association governed by chapter 424, may only
182.26 pay ancillary benefits which would constitute an authorized disbursement as specified in
182.27 section 424A.05 subject to the following requirements or limitations:

182.28 (1) with respect to a defined benefit relief association in which governing bylaws
182.29 provide for a lump-sum service pension to a retiring member, no ancillary benefit may
182.30 be paid to any former member or paid to any person on behalf of any former member
182.31 after the former member (i) terminates active service with the fire department and active
182.32 membership in the relief association; and (ii) commences receipt of a service pension as
182.33 authorized under this section; and

182.34 (2) with respect to any defined benefit relief association, no ancillary benefit paid or
182.35 payable to any member, to any former member, or to any person on behalf of any member

183.1 or former member, may exceed in amount the total earned service pension of the member
183.2 or former member. The total earned service pension must be calculated by multiplying
183.3 the service pension amount specified in the bylaws of the relief association at the time of

183.5 former member. The years of service must be determined as of (i) the date the member or
183.6 former member became entitled to the ancillary benefit; or (ii) the date the member or
183.7 former member died entitling a survivor or the estate of the member or former member to
183.8 an ancillary benefit. The ancillary benefit must be calculated without regard to whether the
183.9 member had attained the minimum amount of service and membership credit specified in
183.10 the governing bylaws. For active members, the amount of a permanent disability benefit
183.11 or a survivor benefit must be equal to the member's total earned service pension except
183.12 that the bylaws of ~~any~~ a defined benefit relief association may provide for the payment of
183.13 a survivor benefit in an amount not to exceed five times the yearly service pension amount
183.14 specified in the bylaws on behalf of any member who dies before having performed five
183.15 years of active service in the fire department with which the relief association is affiliated.

183.16 **EFFECTIVE DATE.** This section is effective July 1, 2009.

183.18 Subd. 9a. **Postretirement increases.** Notwithstanding any provision of general or
183.19 special law to the contrary, a defined benefit relief association paying a monthly service
183.20 pension may provide a postretirement increase to retired members and ancillary benefit
183.21 recipients of the relief association if (1) the relief association adopts an appropriate bylaw
183.22 amendment; and (2) the bylaw amendment is approved by the municipality pursuant to
183.23 subdivision 10 and section 69.773, subdivision 6. The postretirement increase ~~shall be~~
183.24 is applicable only to retired members and ancillary benefit recipients receiving a service
183.25 pension or ancillary benefit as of the effective date of the bylaw amendment. The authority
183.26 to provide a postretirement increase to retired members and ancillary benefit recipients
183.27 of a relief association contained in this subdivision ~~shall supersede~~ supersedes any prior
183.28 special law authorization relating to the provision of postretirement increases.

183.29 **EFFECTIVE DATE.** This section is effective July 1, 2009.

183.30 Sec. 32. Minnesota Statutes 2008, section 424A.02, subdivision 9b, is amended to read:

183.31 Subd. 9b. **Repayment of service pension in certain instances.** If a retired
183.32 volunteer firefighter does not permanently separate from active firefighting service as
183.33 required by subdivision 1 and section 424A.001, subdivision 9, by resuming active service

184.1 as a firefighter in the same volunteer fire department or as a person in charge of firefighters
184.2 in the same volunteer fire department, no additional service pension amount is payable
184.3 to the person, no additional service is creditable to the person, and the person ~~shall~~ must
184.4 repay to the defined benefit relief association any previously received service pension.

184.5 **EFFECTIVE DATE.** This section is effective July 1, 2009.

184.6 Sec. 33. Minnesota Statutes 2008, section 424A.02, subdivision 10, is amended to read:

184.7 Subd. 10. **Local approval of bylaw amendments; filing requirements.** (a) Each
184.8 defined benefit relief association to which this section applies ~~shall~~ must file a revised
184.9 copy of its governing bylaws with the state auditor upon the adoption of any amendment
184.10 to its governing bylaws by the relief association or upon the approval of any amendment
184.11 to its governing bylaws granted by the governing body of each municipality served by the
184.12 fire department to which the relief association is directly associated. Failure of the relief
184.13 association to file a copy of the bylaws or any bylaw amendments with the state auditor
184.14 ~~shall disqualify~~ disqualifies the municipality from the distribution of any future fire state
184.15 aid until this filing requirement has been completed.

184.16 (b) If the special fund of the relief association does not have a surplus over full
184.17 funding ~~pursuant to~~ under section 69.772, subdivision 3, clause (2), subclause (e), or
184.18 69.773, subdivision 4, and if the municipality is required to provide financial support to
184.19 the special fund of the relief association ~~pursuant to~~ under section 69.772 or 69.773, no
184.20 bylaw amendment which would affect the amount of, the manner of payment of, or the
184.21 conditions for qualification for service pensions or ancillary benefits or disbursements
184.22 other than administrative expenses authorized ~~pursuant to~~ under section 69.80 payable
184.23 from the special fund of the relief association ~~shall be~~ is effective until it has been ratified
184.24 by the governing body or bodies of the appropriate municipalities. If the municipality is
184.25 not required to provide financial support to the special fund ~~pursuant to~~ under this section,
184.26 the relief association may adopt or amend without municipal ratification its articles
184.27 of incorporation or bylaws which increase or otherwise affect the service pensions or
184.28 ancillary benefits payable from the special fund so long as the changes do not cause the
184.29 amount of the resulting increase in the accrued liability of the special fund to exceed 90
184.30 percent of the amount of the ~~prior~~ surplus over full funding reported in the prior year and
184.31 the changes do not result in the financial requirements of the special fund exceeding the
184.32 expected amount of the ~~future~~ subsequent calendar year's fire state aid to be received
184.33 by the relief association.

184.34 (c) If the relief association pays only a lump-sum pension, the financial requirements
184.35 are to be determined by the board of trustees following the preparation of an estimate

185.1 of the expected increase in the accrued liability and annual accruing liability of the
185.2 relief association attributable to the change. If the relief association pays a monthly
185.3 benefit service pension, the financial requirements are to be determined by the board of
185.4 trustees following either an updated actuarial valuation including the proposed change
185.5 or an estimate of the expected actuarial impact of the proposed change prepared by the
185.6 actuary of the relief association. If a relief association adopts or amends its articles of
185.7 incorporation or bylaws without municipal ratification ~~pursuant to~~ under this subdivision,
185.8 and, subsequent to the amendment or adoption, the financial requirements of the special
185.9 fund ~~pursuant to~~ under this section are such so as to require financial support from the
185.10 municipality, the provision which was implemented without municipal ratification ~~shall~~ is
185.11 no longer ~~be~~ effective without municipal ratification, and any service pensions or ancillary
185.12 benefits payable after that date ~~shall~~ must be paid only in accordance with the articles of
185.13 incorporation or bylaws as amended or adopted with municipal ratification.

185.14 **EFFECTIVE DATE.** This section is effective July 1, 2009.

185.15 Sec. 34. Minnesota Statutes 2008, section 424A.02, subdivision 12, is amended to read:

185.16 Subd. 12. **Transfer of service credit to new district.** Notwithstanding the
185.17 requirements of subdivision 1 or any other law, a member of a fire department which is
185.18 disbanded upon formation of a fire district to serve substantially the same geographic
185.19 area, who serves as an active firefighter with the new district fire department, and is a
185.20 member of the district firefighters' defined benefit relief association ~~shall be~~ is entitled
185.21 to a nonforfeitable service pension from the new relief association upon completion of
185.22 a combined total of 20 years active service in the disbanded and the new departments.
185.23 The amount of the service pension ~~shall be~~ is based upon years of service in the new
185.24 department only; and ~~shall~~ must be in an amount equal to the accrued liability for the
185.25 appropriate years of service calculated in accordance with section 69.772, subdivision 2.

185.26 Sec. 35. Minnesota Statutes 2008, section 424A.02, subdivision 13, is amended to read:

185.28 of the defined benefit relief associations so provide, a volunteer firefighter with credit for

185.30 association is entitled, when the applicable requirements of paragraph (b) are met and
185.31 when otherwise qualified, to a prorated service credit from each relief association.

185.32 (b) A volunteer firefighter receiving a prorated service pension under this subdivision
185.33 must have a total amount of service credit of ten years or more, if the bylaws of every
185.34 affected relief association ~~does~~ do not ~~require~~ specify only a five-year service vesting

186.1 requirement, or five years or more, if the bylaws of every affected relief association
186.2 ~~requires~~ require only a five-year service vesting requirement, as a member of two or more
186.3 relief associations otherwise qualified. The member must have one year or more of service
186.4 credit in each relief association. The prorated service pension must be based on the service
186.5 pension amount in effect for the relief association on the date on which active volunteer
186.6 firefighting services covered by that relief association terminate. To receive a service
186.7 pension under this subdivision, the firefighter must become a member of the second or
186.8 succeeding association and must give notice of membership to the prior association within
186.9 two years of the date of termination of active service with the prior association. The notice
186.10 must be attested to by the second or subsequent relief association secretary.

186.16 volunteer firefighter who is absent from firefighting service due to service in the uniformed
186.17 services, as defined in United States Code, title 38, section 4303(13), may obtain service
186.18 credit if the relief association is a defined benefit plan or an allocation ~~of any fire state~~
186.19 ~~aid, any municipal contributions, and any investment return~~ received by the relief
186.20 association as though the person was an active member if the relief association is a defined
186.21 contribution plan for the period of the uniformed service, not to exceed five years, unless a
186.22 longer period is required under United States Code, title 38, section 4312.

186.23 Subd. 2. **Limitations.** (a) To be eligible for service credit or an ~~investment return~~
186.24 allocation as though an active member under this section, the volunteer firefighter must
186.25 return to firefighting service with coverage by the same relief association or by the
186.26 successor to that relief association upon discharge from service in the uniformed service
186.27 within the time frame required in United States Code, title 38, section 4312(e).

 187.6 and partially volunteer firefighters' relief association ~~shall~~ must provide service pensions
 187.7 to volunteer firefighter members based on the years of service of the members not on
 187.8 the compensation paid to the members for firefighting services. Each relief association
 187.9 ~~shall~~ must provide service pensions to salaried members as set forth in chapter 424 and
 187.10 applicable special laws.

187.11 Subd. 2. **Penalties for violations.** ~~Any~~ A municipality which has a fire department
 187.12 ~~to which~~ associated with a relief association which violates the provisions of subdivision

188.14 membership of the relief association. The two municipal trustees must be elected or
188.15 appointed municipal officials, selected as follows:

188.16 (1) if only one municipality contracts with the independent nonprofit firefighting

200.27 **EFFECTIVE DATE.** This section is effective the day following final enactment.

200.28 Sec. 3. Minnesota Statutes 2008, section 422A.06, subdivision 8, is amended to read:

200.29 Subd. 8. **Retirement benefit fund.** (a) The retirement benefit fund consists of
 200.30 amounts held for payment of retirement allowances for members retired under this chapter,
 200.31 including any transfer amount payable under subdivision 3, paragraph (c).

200.32 (b) Unless subdivision 3, paragraph (c), applies, assets equal to the required
 200.33 reserves for retirement allowances under this chapter determined in accordance with the

201.1 appropriate mortality table adopted by the board of trustees based on the experience of the
201.2 fund as recommended by the actuary retained under section 356.214 must be transferred
201.3 from the deposit accumulation fund to the retirement benefit fund as of the last business
201.4 day of the month in which the retirement allowance begins. The income from investments
201.5 of these assets must be allocated to this fund and any interest charge under subdivision
201.6 3, paragraph (c), must be credited to the fund. There must be paid from this fund the
201.7 retirement annuities authorized by law. A required reserve calculation for the retirement
201.8 benefit fund must be made by the actuary retained under section 356.214 and must be
201.9 certified to the retirement board by the actuary retained under section 356.214.

201.10 (c) There is established a deferred yield adjustment account which must be increased
201.11 by the sale or disposition of any debt securities at less than book value and must be
201.12 decreased by the sale or disposition of debt securities at more than book value. At the
201.13 end of each fiscal year, a portion of the balance of this account must be offset against the
201.14 investment income for that year. The annual portion of the balance to be offset must be
201.15 proportional to the reciprocal of the average remaining life of the bonds sold, unless the
201.16 amounts are offset by gains on the future sales of these securities. The amount of this
201.17 account must be included in the recognized value of assets other than corporate stocks
201.18 and all other equity investments. In any fiscal year in which the gains on the sales of debt
201.19 securities exceed the discounts realized on the sales of such securities, the excess must
201.20 be used to reduce the balance of the account. If the realized capital gains are sufficient
201.21 to reduce the balance of the account to zero, any excess gains must be available for the
201.22 calculation of postretirement adjustments.

201.23 (d)(1) Annually, following June 30, the board shall use the procedures in clauses (2),
201.24 (3), and (4), to determine whether a postretirement adjustment is payable and to determine
201.25 the amount of any postretirement adjustment.

201.26 (2) If the Consumer Price Index for urban wage earners and clerical workers all
201.27 items index published by the Bureau of Labor Statistics of the United States Department
201.28 of Labor increases from June 30 of the preceding year to June 30 of the current year, the
201.29 board shall certify the percentage increase. The amount certified must not exceed ~~the~~
201.30 ~~lesser of the difference between the preretirement interest assumption and postretirement~~
201.31 ~~interest assumption in section 356.215, subdivision 8, paragraph (a), or 3.5 percent.~~

201.32 (3) In addition to any percentage increase certified under paragraph (b), the board
201.33 shall use the following procedures to determine if a postretirement adjustment is payable
201.34 under this paragraph:

201.35 (i) the board shall determine the market value of the fund on June 30 of that year;

202.1 (ii) the amount of reserves required as of the current June 30 for the annuity or
202.2 benefit payable to an annuitant and benefit recipient must be determined by the actuary
202.3 retained under section 356.214. An annuitant or benefit recipient who has been receiving
202.4 an annuity or benefit for at least 12 full months as of the current June 30 is eligible to
202.5 receive a full postretirement adjustment. An annuitant or benefit recipient who has been
202.6 receiving an annuity or benefit for at least one full month, but less than 12 full months as of
202.7 the current June 30, is eligible to receive a partial postretirement adjustment. The amount
202.8 of the reserves for those annuitants and benefit recipients who are eligible to receive a
202.9 full postretirement benefit adjustment is known as "eligible reserves." The amount of
202.10 the reserves for those annuitants and benefit recipients who are not eligible to receive a
202.11 postretirement adjustment is known as "noneligible reserves." For an annuitant or benefit
202.12 recipient who is eligible to receive a partial postretirement adjustment, additional "eligible
202.13 reserves" is an amount that bears the same ratio to the total reserves required for the
202.14 annuitant or benefit recipient as the number of full months of annuity or benefit receipt as
202.15 of the current June 30 bears to 12 full months. The remainder of the annuitant's or benefit
202.16 recipient's reserves are "noneligible reserves";

202.17 (iii) the board shall determine the percentage increase certified under clause (2)
202.18 multiplied by the eligible required reserves, as adjusted for mortality gains and losses,
202.19 determined under item (ii);

202.20 (iv) the board shall add the amount of reserves required for the annuities or benefits
202.21 payable to annuitants and benefit recipients of the participating public pension plans or
202.22 funds as of the current June 30 to the amount determined under item (iii);

202.23 (v) the board shall subtract the amount determined under item (iv) from the market
202.24 value of the fund determined under item (i);

202.25 (vi) the board shall adjust the amount determined under item (v) by the cumulative
202.26 current balance determined under item (viii) and any negative balance carried forward
202.27 under item (ix);

202.28 (vii) a positive amount resulting from the calculations in items (i) to (vi) is the excess
202.29 market value. A negative amount is the negative balance;

202.30 (viii) the board shall allocate one-fifth of the excess market value or one-fifth of the
202.31 negative balance to each of five consecutive years, beginning with the fiscal year ending
202.32 the current June 30; and

202.33 (ix) to calculate the postretirement adjustment under this paragraph based on
202.34 investment performance for a fiscal year, the board shall add together all excess market
202.35 value allocated to that year and subtract from the sum all negative balances allocated to
202.36 that year. If this calculation results in a negative number, the entire negative balance must

203.1 be carried forward and allocated to the next year. If the resulting amount is positive, a
203.2 postretirement adjustment is payable under this paragraph. The board shall express a
203.3 positive amount as a percentage of the total eligible required reserves certified to the
203.4 board under item (ii).

203.5 (4) The board shall determine the amount of any postretirement adjustment which
203.6 is payable using the following procedure:

203.7 (i) the total "eligible" required reserves as of the first of January next following the
203.8 end of the fiscal year for the annuitants and benefit recipients eligible to receive a full or
203.9 partial postretirement adjustment as determined by item (ii) must be certified to the board
203.10 by the actuary retained under section 356.214. The total "eligible" required reserves
203.11 must be determined by the actuary retained under section 356.214 on the assumption that
203.12 all annuitants and benefit recipients eligible to receive a full or partial postretirement
203.13 adjustment will be alive on the January 1 in question; and

203.14 (ii) the board shall add the percentage certified under clause (2) to any positive
203.15 percentage calculated under clause (3). The board shall not subtract from the percentage
203.16 certified under paragraph (b) any negative amount calculated under clause (3). The sum
203.17 of these percentages must be carried to five decimal places and must be certified as the
203.18 full postretirement adjustment percentage.

203.19 (e) The board shall determine the amount of the postretirement adjustment payable
203.20 to each eligible annuitant and benefit recipient. The dollar amount of the postretirement
203.21 adjustment must be calculated by applying the certified postretirement adjustment
203.22 percentage to the amount of the monthly annuity or benefit payable to each eligible
203.23 annuitant or benefit recipient eligible for a full adjustment.

203.24 The dollar amount of the partial postretirement adjustment payable to each annuitant
203.25 or benefit recipient eligible for a partial adjustment must be calculated by first determining
203.26 a partial percentage amount that bears the same ratio to the certified full adjustment
203.27 percentage amount as the number of full months of annuity or benefit receipt as of the
203.28 current June 30 bears to 12 full months. The partial percentage amount determined
203.29 must then be applied to the amount of the monthly annuity or benefit payable to each
203.30 annuitant or benefit recipient eligible to receive a partial postretirement adjustment. The
203.31 postretirement adjustments are payable on January 1 following the calculations required
203.32 under this section and must thereafter be included in the monthly annuity or benefit paid to
203.33 the recipient. Any adjustments under this section must be paid automatically unless the
203.34 intended recipient files a written notice with the applicable participating public pension
203.35 fund or plan requesting that the adjustment not be paid.

204.1 (f) As of June 30 annually, the actuary retained under section 356.214 shall calculate
204.2 the amount of required reserves representing any mortality gains and any mortality losses
204.3 incurred during the fiscal year and report the results of those calculations to the plan.
204.4 The actuary shall report separately the amount of the reserves for annuitants and benefit
204.5 recipients who are eligible for a postretirement benefit adjustment and the amount of
204.6 reserves for annuitants and benefit recipients who are not eligible for a postretirement
204.7 benefit adjustment. If the net amount of required reserves represents a mortality gain,
204.8 the board shall sell sufficient securities or transfer sufficient available cash to equal the
204.9 amount. If the amount of required reserves represents a mortality loss, the plan shall
204.10 transfer an amount equal to the amount of the net mortality loss. The amount of the
204.11 transfers must be determined before any postretirement benefit adjustments have been
204.12 made. All transfers resulting from mortality adjustments must be completed annually
204.13 by December 31 for the preceding June 30. Interest is payable on any transfers after
204.14 December 31 based upon the preretirement interest assumption for the participating plan
204.15 or fund as specified in section 356.215, subdivision 8, stated as a monthly rate. Book
204.16 values of the assets of the fund must be determined only after all adjustments for mortality
204.17 gains and losses for the fiscal year have been made.

204.18 (g) All money necessary to meet the requirements of the certification of withdrawals
204.19 and all money necessary to pay postretirement adjustments under this section are hereby
204.20 and from time to time appropriated from the postretirement investment fund to the board.

204.21 (h) Annually, following the calculation of any postretirement adjustment payable
204.22 from the retirement benefit fund, the board of trustees shall submit a report to the
204.23 executive director of the Legislative Commission on Pensions and Retirement and to the
204.24 commissioner of finance indicating the amount of any postretirement adjustment and
204.25 the underlying calculations on which that postretirement adjustment amount is based,
204.26 including the amount of dividends, the amount of interest, and the amount of net realized
204.27 capital gains or losses utilized in the calculations.

204.28 (i) With respect to a former contributing member who began receiving a retirement
204.29 annuity or disability benefit under section 422A.151, paragraph (a), clause (2), after June
204.30 30, 1997, or with respect to a survivor of a former contributing member who began
204.31 receiving a survivor benefit under section 422A.151, paragraph (a), clause (2), after June
204.32 30, 1997, the reserves attributable to the one percent lower amount of the cost-of-living
204.33 adjustment payable to those annuity or benefit recipients annually must be transferred back
204.34 to the deposit accumulation fund to the credit of the Metropolitan Airports Commission.
204.35 The calculation of this annual reduced cost-of-living adjustment reserve transfer must be
204.36 reviewed by the actuary retained under section 356.214.

205.1 **EFFECTIVE DATE.** This section is effective retroactively from June 30, 2008.

 205.6 for employment by the public corporation in the same manner as though the service had
 205.7 been rendered to the city, providing that the individual has not received service credit and
 205.8 is not eligible to receive service credit for this period under any other plan or fund listed
 205.9 in section 356.30, subdivision 3. Before receiving credit for service rendered to a public
 205.10 corporation as herein set forth, the contributing employee shall make application therefor

11A.041 REPORT ON POSTRETIREMENT INVESTMENT FUND INVESTMENT PERFORMANCE AND ADJUSTMENT CALCULATION.

The State Board of Investment shall annually report to the Legislative Commission on Pensions and Retirement, the house of representatives Governmental Operations and Gaming Committee, and the senate Governmental Operations and Reform Committee on the investment performance investment activities, and postretirement adjustment calculations of the Minnesota postretirement investment fund established under section 11A.18. The annual report must be filed before January 1. The contents of the report must include the reporting requirements specified by the Legislative Commission on Pensions and Retirement as part of the standards adopted by the commission under section 3.85, subdivision 10. The report also may include any additional information that the State Board of Investment determines is appropriate.

11A.18 MINNESOTA POSTRETIREMENT INVESTMENT FUND.

Subdivision 1. **Establishment.** There is hereby established a postretirement investment fund for the purpose of providing an investment vehicle for the reserves for various retirement annuities and benefits payable by the participating retirement funds and plans. The postretirement investment fund shall be a continuation of the Minnesota adjustable fixed benefit fund in existence on January 1, 1980.

Subd. 2. **Assets.** The assets of the postretirement investment fund shall consist of the money representing the reserves for various retirement annuities and benefits payable by participating retirement funds and plans which have been certified to and received by the state board from the participating public retirement funds and plans.

Subd. 2a. **Composite funded ratio.** (a) Annually, following June 30, the executive director of the State Board of Investment shall determine the composite funded ratio of the postretirement investment fund. The composite funded ratio must be stated as a percentage and must be calculated using:

(1) the total fair market value of the postretirement investment fund as of June 30, calculated in accordance with generally accepted accounting principles; divided by

(2) the total reserves required as of June 30 for the annuities or benefits payable from the postretirement investment fund on that June 30 to all recipients of participating public pension plans or funds, as determined by the actuary retained under section 356.214 using the applicable assumptions in section 356.215.

(b) The executive director of the State Board of Investment shall certify the composite funded ratio to the executive directors of the plans participating in the Minnesota postretirement investment fund and to the executive director of the Legislative Commission on Pensions and Retirement by November 30 annually.

Subd. 3. **Management.** The postretirement investment fund shall be managed by the state board.

Subd. 4. **Investment.** The assets of the postretirement investment fund shall be invested by the state board subject to the provisions of section 11A.24.

Subd. 5. **Deferred yield adjustment account.** There is hereby established a deferred yield adjustment account which shall be increased by the sale or disposition of any debt securities at less than book value and shall be decreased by the sale or disposition of debt securities at more than book value. At the end of each fiscal year, a portion of the balance of this account shall be offset against the investment income for that year. The annual portion of the balance to be offset shall be proportional to the reciprocal of the average remaining life of the bonds sold, unless the amounts are offset by gains on the future sales of these securities. The amount of this account shall be included in the recognized value of assets other than corporate stocks and all other equity investments. In any fiscal year in which the gains on the sales of debt securities exceed the discounts realized on the sales of such securities, the excess shall be used to reduce the balance of the account. If the realized capital gains are sufficient to reduce the balance of the account to zero, any excess gains shall be available for the calculation of postretirement adjustments made according to subdivision 9.

Subd. 6. **Participating public retirement funds or plans; transfer of required reserves.** (a) Any public retirement fund or plan authorized by law to participate in the postretirement investment fund shall no later than the last business day of the month in which the benefit payment from the postretirement investment fund begins to accrue, certify and transfer to the state board money equal to the reserves required for those retirement annuities and benefits which are payable by the public retirement fund or plan and which are specified in law to be included in

APPENDIX

Repealed Minnesota Statutes: H0723-2

the participation in the fund as determined by or determined under a procedure specified by the actuary retained under section 356.214.

(b) If the exact amount of the actuarially determined required reserves is not readily calculable on the required transfer date, the initial transfer must be based on the best estimate for the teachers retirement fund and the public employees retirement fund and may be based on the best estimate for the other participating funds. Any necessary adjustments based on specific calculations of actuarially determined required reserves must be made in later transfers. If a transfer is insufficient, the later transfer from the retirement fund must include interest on the amount of the required reserve insufficiency at the preretirement interest assumption for the retirement fund as specified in section 356.215, subdivision 8, stated as a monthly rate.

Interest on the amount of a required reserve insufficiency payable by a retirement fund shall be compounded on a monthly basis. No interest shall be payable from the postretirement investment fund in the event of a required reserve oversufficiency.

(c) The state board shall confirm in writing each certification and transfer of money made by a participating public retirement fund or plan. Each participating public retirement fund or plan shall maintain adequate records to account for money transferred to or from the postretirement investment fund.

Subd. 7. Participation and financial reporting in fund. (a) Each participating public retirement fund or plan which has transferred money to the state board for investment in the postretirement investment fund shall have an undivided participation in the fund. The participation on any valuation date must be determined by adding to the participation on the prior valuation date:

(1) funds transferred in accordance with subdivision 6;

(2) the amount of required investment income on its participation as defined in subdivision 9, paragraph (c), clause (1); and

(3) the reserves for any benefit adjustment made as of the current valuation date with the result adjusted for any mortality gains or losses determined under subdivision 11.

(b) The total fair market value of the postretirement fund as of June 30 must be calculated in accordance with generally accepted accounting principles. The fair market value share of each fund participating in the postretirement investment fund must be allocated by adding to the fair market value at the beginning of the fiscal year:

(1) 100 percent of the funds transferred in accordance with subdivision 6; and

(2) a pro rata distribution of unrealized gains or losses, based on a weighted percentage of participation at the end of each month of the fiscal year.

Subd. 8. Withdrawal of money. Upon certification by the applicable executive director that a portion of the certified money representing the required reserves for various retirement annuities or benefits payable from the participating public retirement fund or plan are required for the payment of a retirement annuity or benefit, the state board shall sell sufficient securities or transfer sufficient available cash to equal the amount of money certified as required and shall order the transfer of that amount to the appropriate executive director.

Subd. 9. Calculation of postretirement adjustment. (a) Annually, following June 30, the state board shall use the procedures in paragraphs (b), (c), and (d) to determine whether a postretirement adjustment under this subdivision is payable and to determine the amount of any postretirement adjustment under this subdivision.

(b) (1) If the Consumer Price Index for urban wage earners and clerical workers all items index published by the Bureau of Labor Statistics of the United States Department of Labor increases from June 30 of the preceding year to June 30 of the current year, the state board shall certify the percentage increase.

(2) The amount certified must not exceed 2.5 percent.

(c) If the amount calculated under paragraph (b), clause (1), is greater than the maximum amount allowable under paragraph (b), clause (2), in addition to any percentage increase certified under paragraph (b), the board shall use the following procedures to determine if a postretirement adjustment is payable under this paragraph:

(1) the state board shall determine the total fair market value of the fund on June 30 of that year;

(2) the amount of reserves required as of the current June 30 for the annuity or benefit payable to an annuitant and benefit recipient of the participating public pension plans or funds must be determined by the actuary retained under section 356.214. An annuitant or benefit recipient who has been receiving an annuity or benefit for at least 12 full months as of the current June 30 is eligible to receive a full postretirement adjustment. An annuitant or benefit recipient who has been receiving an annuity or benefit for at least one full month, but less than 12 full months as of the current June 30, is eligible to receive a partial postretirement adjustment. Each fund shall report separately the amount of the reserves for those annuitants and benefit recipients

APPENDIX

Repealed Minnesota Statutes: H0723-2

who are eligible to receive a full postretirement benefit adjustment. This amount is known as "eligible reserves." Each fund shall also report separately the amount of the reserves for those annuitants and benefit recipients who are not eligible to receive a postretirement adjustment. This amount is known as "noneligible reserves." For an annuitant or benefit recipient who is eligible to receive a partial postretirement adjustment, each fund shall report separately as additional "eligible reserves" an amount that bears the same ratio to the total reserves required for the annuitant or benefit recipient as the number of full months of annuity or benefit receipt as of the current June 30 bears to 12 full months. The remainder of the annuitant's or benefit recipient's reserves must be separately reported as additional "noneligible reserves." The amount of "eligible" and "noneligible" required reserves must be certified to the board by the actuary retained under section 356.214 as soon as is practical following the current June 30;

(3) the state board shall determine the percentage increase certified under paragraph (b) multiplied by the eligible required reserves, as adjusted for mortality gains and losses under subdivision 11, determined under clause (2);

(4) the state board shall add the amount of reserves required for the annuities or benefits payable to annuitants and benefit recipients of the participating public pension plans or funds as of the current June 30 to the amount determined under clause (3);

(5) the state board shall subtract the amount determined under clause (4) from the total fair market value of the fund determined under clause (1);

(6) the state board shall adjust the amount determined under clause (5) by the cumulative current balance determined under clause (8) and any negative balance carried forward under clause (9);

(7) a positive amount resulting from the calculations in clauses (1) to (6) is the excess market value. A negative amount is the negative balance;

(8) the state board shall allocate one-fifth of the excess market value or one-fifth of the negative balance to each of five consecutive years, beginning with the fiscal year ending the current June 30; and

(9) to calculate the postretirement adjustment under this paragraph, the state board shall add together all excess market value allocated to that year and subtract from the sum all negative balances allocated to that year. If this calculation results in a negative number, the entire negative balance must be carried forward and allocated to the next year. If the resulting amount is positive, a postretirement adjustment is payable under this paragraph. The board shall express a positive amount as a percentage of the total eligible required reserves certified to the board under clause (2). The percentage determined under this paragraph is not payable unless the amount calculated under paragraph (b), clause (1), is greater than 2.5 percent and must not exceed the difference by which the amount calculated under paragraph (b), clause (1), exceeds 2.5 percent.

(d) The state board shall determine the amount of any postretirement adjustment which is payable using the following procedure:

(1) The total "eligible" required reserves as of the first of January next following the end of the fiscal year for the annuitants and benefit recipients eligible to receive a full or partial postretirement adjustment as determined by clause (2) must be certified to the state board by the actuary retained under section 356.214. The total "eligible" required reserves must be determined by the actuary retained under section 356.214 on the assumption that all annuitants and benefit recipients eligible to receive a full or partial postretirement adjustment will be alive on the January 1 in question; and

(2) The state board shall add the percentage certified under paragraph (b) to any positive percentage calculated under paragraph (c). The board shall not subtract from the percentage certified under paragraph (b) any negative amount calculated under paragraph (c). The sum of these percentages must be certified to each participating public pension fund or plan as the full postretirement adjustment percentage. The full postretirement adjustment percentage certified to each participating public pension plan or fund must not exceed five percent.

(e) A retirement annuity payable in the event of retirement before becoming eligible for Social Security benefits as provided in section 352.116, subdivision 3; 353.29, subdivision 6; or 354.35 must be treated as the sum of a period certain retirement annuity and a life retirement annuity for the purposes of any postretirement adjustment. The period certain retirement annuity plus the life retirement annuity must be the annuity amount payable until age 62 or 65, whichever applies. A postretirement adjustment granted on the period certain retirement annuity must terminate when the period certain retirement annuity terminates.

Subd. 9a. **Lost purchasing power increase.** (a) This subdivision applies for fiscal years ending June 30 in which all of the following conditions exist:

APPENDIX

Repealed Minnesota Statutes: H0723-2

(1) the composite funded ratio for the postretirement investment fund as of June 30 as certified by the executive director of the State Board of Investment under subdivision 2a is more than 90 percent;

(2) the State Board of Investment determines that the time-weighted total rate of return on investment of assets in the postretirement investment fund for the fiscal year ending June 30 exceeds 8.5 percent; and

(3) the postretirement adjustment percentage certified under subdivision 9, paragraph (b), is less than 2.5 percent.

(b) The lost purchasing power postretirement increase is payable the following January 1.

(c) Each participating public pension plan must annually calculate:

(1) the cumulative postretirement adjustment percentage applied to the annuity or benefit paid to each eligible annuitant and benefit recipient since the person first received a postretirement adjustment; and

(2) the increase in the Consumer Price Index for urban wage earners and clerical workers all items index published by the Bureau of Labor Statistics of the United States Department of Labor from June 30 of the year before the person first received a postretirement adjustment to June 30 of the current year. If a person received a prorated increase under subdivision 9, paragraph (c), clause (2), the same ratio of the number of months receiving a monthly benefit to 12 months must be applied to the inflation calculation for the fiscal year used to calculate the prorated amount of lost purchasing power for that period.

(d) If the percentage in paragraph (c), clause (2), is greater than the percentage in paragraph (c), clause (1), with respect to an eligible annuitant or benefit recipient, and the conditions in paragraph (a) exist, that person is eligible to receive an increase under this subdivision.

(e) The percentage increase payable to an eligible annuitant or benefit recipient under this subdivision may not exceed the difference between 2.5 percent and the amount certified under subdivision 9 or the amount calculated under paragraph (c), whichever is lower. The percentage increase otherwise payable under this subdivision must be reduced as provided in paragraph (f).

(f) The actuary retained under section 356.214 must determine:

(1) the reserves that would be required to pay in full the adjustments determined under paragraph (c); and

(2) the excess market value necessary to maintain the accrued liability composite funding ratio determined under subdivision 2a is at least 90 percent. If the calculated result under clause (1) is greater than the calculated result under this clause, the increase payable to each eligible annuitant or benefit recipient under this subdivision must be reduced to that portion of the full potential increase amount that equals the ratio that the calculated result under this clause bears to the calculated result under clause (1).

(g) A percentage increase certified under this subdivision must be added to the percentage certified under subdivision 9 and the total resulting percentage must be certified to each participating public pension plan as the full postretirement adjustment percentage.

Subd. 9b. Excess assets trigger. If the composite funded ratio of the postretirement investment fund determined under subdivision 2a is 115 percent or greater as of June 30 of any year, the governing bodies of the retirement plans participating in the postretirement investment fund must jointly report to the Legislative Commission on Pensions and Retirement by the next January 15. The report must evaluate and make recommendations with respect to the overall benefits and funding of the retirement funds for both active employees and benefit recipients.

Subd. 10. Payment of postretirement adjustment. Upon receiving the certification of the amount of the full postretirement adjustment from the state board, each participating public pension fund or plan shall determine the amount of the postretirement adjustment payable to each eligible annuitant and benefit recipient. The dollar amount of the postretirement adjustment shall be calculated by applying the certified postretirement adjustment percentage to the amount of the monthly annuity or benefit payable to each eligible annuitant or benefit recipient eligible for a full adjustment.

The dollar amount of the partial postretirement adjustment payable to each annuitant or benefit recipient eligible for a partial adjustment shall be calculated by first determining a partial percentage amount that bears the same ratio to the certified full adjustment percentage amount as the number of full months of annuity or benefit receipt as of the current June 30 bears to 12 full months. The partial percentage amount determined shall then be applied to the amount of the monthly annuity or benefit payable to each annuitant or benefit recipient eligible to receive a partial postretirement adjustment. The postretirement adjustments shall commence to be paid on January 1 following the calculations required pursuant to this section and shall thereafter be included in the monthly annuity or benefit paid to the recipient. Any adjustments pursuant to this

APPENDIX

Repealed Minnesota Statutes: H0723-2

section shall be paid automatically unless the intended recipient files a written notice with the applicable participating public pension fund or plan requesting that the adjustment not be paid.

Subd. 11. **Adjustment for mortality gains and losses.** As of June 30 annually, the actuary retained under section 356.214 shall calculate the amount of required reserves representing any mortality gains and any mortality losses incurred by each participating public pension fund or plan during the fiscal year and report the results of those calculations to the applicable participating public pension fund or plan. The actuary shall report separately the amount of the reserves for annuitants and benefit recipients who are eligible for a postretirement benefit adjustment and the amount of reserves for annuitants and benefit recipients who are not eligible for a postretirement benefit adjustment. If the net amount of required reserves represents a mortality gain, the participating public pension fund or plan shall certify that amount to the state board, which shall sell sufficient securities or transfer sufficient available cash to equal the amount of money certified. If the amount of required reserves represents a mortality loss, the participating public pension fund or plan shall transfer to the state board an amount equal to the amount of the net mortality loss. The amount of the transfers shall be determined before any postretirement benefit adjustments have been made. All transfers resulting from mortality adjustments shall be completed annually by December 31 for the preceding June 30. Interest shall be charged or credited on any transfers after December 31 based upon the preretirement interest assumption for the participating plan or fund as specified in section 356.215, subdivision 8, stated as a monthly rate. Book values of the assets of the fund for the purposes of subdivision 9 shall be determined only after all adjustments for mortality gains and losses for the fiscal year have been made.

Subd. 12. **Appropriation of required amounts.** All money necessary to meet the requirements of the certification of withdrawals and all money necessary to pay postretirement adjustments pursuant to this section are hereby and from time to time appropriated from the postretirement investment fund to the state board.

11A.181 DISSOLUTION OF MINNESOTA POSTRETIREMENT INVESTMENT FUND.

Subdivision 1. **Conditions for dissolution.** The postretirement investment fund established in section 11A.18 must be dissolved according to the schedule in subdivision 2 if the composite funded ratio calculated as of June 30 of that year under section 11A.18, subdivision 2a, is:

- (1) less than 85 percent and was less than 85 percent as of June 30 of the immediately preceding year; or
- (2) less than 80 percent.

Subd. 2. **Transition.** If conditions for dissolution of the postretirement investment fund under subdivision 1 apply:

(1) the retirement plans shall not transfer reserves as required under sections 11A.18, subdivision 6; 352.119, subdivision 2; 352B.26, subdivision 3; 353.271, subdivision 2; 354.63, subdivision 2; and 490.123, subdivision 1e, to the postretirement investment fund after December 31 of the calendar year in which conditions for dissolution under subdivision 1 occur;

(2) the retirement plans shall not transfer additional funds to the Minnesota postretirement investment fund as a result of the calculation by the actuary retained under section 356.214 of net mortality losses under section 11A.18, subdivision 11;

(3) the assets of the postretirement investment fund must be transferred back to each participating public retirement plan on June 30 of the year following the year in which conditions for dissolution under subdivision 1 occur. The assets to be transferred to each public retirement plan must be based on each plan's participation in the postretirement fund as determined under section 11A.18, subdivision 7, on the June 30 when the transfer back to the plan occurs; and

(4) the postretirement investment fund ceases to exist upon the transfer of all assets as required in clause (3).

Subd. 3. **Postretirement adjustments.** (a) Notwithstanding section 11A.18 or any other law to the contrary, if the postretirement investment fund is dissolved, postretirement adjustments are payable only as follows:

(1) a postretirement increase of 2.5 percent must be applied each year, effective January 1, to the monthly annuity or benefit of each annuitant and benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the prior January 1; and

(2) for each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least one full month, an annual postretirement increase of 1/12 of 2.5 percent for each month the person has been receiving an annuity or benefit must be applied, effective January 1 of the year in which the person has been retired for less than 12 months.

APPENDIX

Repealed Minnesota Statutes: H0723-2

(b) The increases provided by this subdivision commence on the first January 1 occurring after the postretirement fund is dissolved under subdivision 2.

352.119 PARTICIPATION IN POSTRETIREMENT INVESTMENT FUND.

Subd. 2. **Valuation of assets; adjustment of benefits.** (a) The required reserves for retirement annuities or disability benefits under this chapter as determined in accordance with the appropriate mortality table adopted by the board of directors based on experience of the fund as recommended by the actuary retained under section 356.214 and using the interest assumption specified in section 356.215, subdivision 8, must be transferred to the Minnesota postretirement investment fund as of the last business day of the month in which the retirement annuity or disability benefit begins.

(b) Annuity and benefit payments must be adjusted in accordance with section 11A.18.

Subd. 3. **Increases made automatically.** Increases in benefit payments under this section will be made automatically unless the intended recipient files written notice with the system requesting that the increase not be made.

Subd. 4. **Determining applicable law.** The annuity is computed under the law in effect as of the last day for which the employee receives pay, or if on medical leave, the day the leave terminates. However, if the employee has returned to covered employment following a termination, the employee must have earned at least six months of allowable service following their return to qualify for improved benefits resulting from any law change enacted subsequent to that termination.

352.86 TRANSPORTATION DEPARTMENT PILOTS.

Subd. 3. **Election of coverage.** To be covered by this section, an employee of the Department of Transportation described in subdivision 1 who is employed in the described position on July 1, 1982, or after must file a notice with the executive director of the Minnesota State Retirement System on a form prescribed by the executive director stating whether or not the employee elects to be covered by this special plan. Notice must be filed by August 1, 1982, or within 90 days of employment, whichever is later. Elections are irrevocable during any period of covered employment.

352B.01 DEFINITIONS.

Subdivision 1. **Scope.** In this chapter, each of the terms defined in this section has the meaning given to it.

Subd. 2. **Member.** "Member" means:

(1) a State Patrol member currently employed under section 299D.03 by the state, who is a peace officer under section 626.84, and whose salary or compensation is paid out of state funds;

(4) a person who is employed by the state in the Department of Public Safety in a data processing management position with salary or compensation paid from state funds, who was a crime bureau officer covered by the State Patrol retirement plan on August 15, 1987, and who was initially hired in the data processing management position within the department during September 1987, or January 1988, with membership continuing for the duration of the person's employment in that position, whether or not the person has the power of arrest by warrant after August 15, 1987;

Prevention under section 45.0135 after January 1, 2005, and who has not attained the mandatory retirement age specified in section 43A.34, subdivision 4; and

(8) an employee of the Department of Public Safety, who is a licensed peace officer under section 626.84, subdivision 1, paragraph (c), and is employed as the statewide coordinator of the Gang and Drug Oversight Council.

Subd. 3. **Allowable service.** (a) "Allowable service" means:

(1) for members defined in subdivision 2, clause (1), service in any month for which payments have been made to the State Patrol retirement fund, and

(2) for members defined in subdivision 2, clauses (2) and (3), service for which payments have been made to the State Patrol retirement fund, service for which payments were made to the State Police officers retirement fund after June 30, 1961, and all prior service which was credited to a member for service on or before June 30, 1961.

(b) Allowable service also includes any period of absence from duty by a member who, by reason of injury incurred in the performance of duty, is temporarily disabled and for which disability the state is liable under the workers' compensation law, until the date authorized by the executive director for commencement of payment of a disability benefit or return to employment.

(c) MS 2002 [Expired]

(d) Allowable service means service in a month during which a member is paid a salary from which a member contribution is deducted, deposited, and credited in the State Patrol retirement plan.

Subd. 3b. **Credit for break in service to provide uniformed service.** (a) A member who is absent from employment by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), and who returns to state employment in a position covered by the plan upon discharge from service in the uniformed service within the time frame required in United States Code, title 38, section 4312(e), may obtain service credit for the period of the uniformed service, provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions.

(b) The member may obtain credit by paying into the fund an equivalent member contribution based on the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to provide employment services to the state rather than to provide uniformed service, or if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the purchase period.

(c) The equivalent employer contribution and, if applicable, the equivalent employer additional contribution, must be paid by the employing unit, using the employer and employer additional contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution.

(d) If the member equivalent contributions provided for in this subdivision are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this subdivision.

(e) To receive allowable service credit under this subdivision, the contributions specified in this section must be transmitted to the fund during the period which begins with the date on which the individual returns to state employment covered by the plan and which has a duration of three times the length of the uniformed service period, but not to exceed five years. If the determined payment period is calculated to be less than one year, the contributions required under this subdivision to receive service credit may be within one year from the discharge date.

**356.41 BENEFIT ADJUSTMENTS FOR CERTAIN DISABILITY AND SURVIVOR

(b) If a disability benefit is not included in the participation in the Minnesota postretirement investment fund, the disability benefit is recomputed as a retirement annuity and the recipient would have been eligible for an adjustment under this section if the disability benefit was not recomputed, the recipient remains eligible for the adjustment under this section after the recomputation.

(c) For the survivor of a deceased annuitant who receives a survivor benefit calculated under a prior law rather than the second portion of a joint and survivor annuity, any period of receipt of a retirement annuity by the annuitant must be utilized in determining the period of receipt for eligibility to receive an adjustment under this section.

(d) No recipient, however, is entitled to more than one adjustment under this section or section 11A.18 applicable to one benefit during a year by reason of this section.

Calculation of this amount must be made using the applicable preretirement interest rate for the association specified in section 356.215, subdivision 8, and the mortality table adopted for the fund. The calculation must assume continuous future service in the fund until, and retirement at, the age at which the minimum requirements of the fund for normal retirement or retirement with an annuity unreduced for retirement at an early age, including section 356.30, are met with the additional service credit purchased. The calculation must also assume a future salary history that includes annual salary increases at the applicable salary increase rate for the fund or association specified in section 356.215, subdivision 8.
