Each evaluation must include the participating colleges, universities, and community financial institutions. The commissioner and the board shall report the results of the pilot project evaluation to the appropriate committees of the legislature by December 1, 2011, with recommendations on the future implementation of the pilot project.

Sec. 9. Minnesota Statutes 2009 Supplement, section 45.30, subdivision 6, is amended to read:

Subd. 6. Course approval. (a) Courses must be approved by the commissioner in advance. A course that is required by federal criteria or a reciprocity agreement to receive a substantive review will be approved or disapproved on the basis of its compliance with the provisions of laws and rules relating to the appropriate industry. At the commissioner's discretion, a course that is not required by federal criteria or a reciprocity agreement to receive a substantive review may be approved based on a qualified provider's certification on a form specified by the commissioner that the course complies with the provisions of this chapter and the laws and rules relating to the appropriate industry. For the purposes of this section, a "qualified provider" is one of the following: (1) a degree-granting institution of higher learning located within this state; (2) a private school licensed by the Minnesota Office of Higher Education; or (3) when conducting courses for its members, a bona fide trade association that staffs and maintains in this state a physical location that contains course and student records and that has done so for not less than three years. The commissioner may review any approved course and may cancel its approval with regard to all future offerings. The commissioner must make the final determination as to accreditation and assignment of credit hours for courses. Courses must be at least one hour in length, except courses for real estate appraisers must be at least two hours in length.

Individuals wishing to receive credit for continuing education courses that have not been previously approved may submit the course information for approval. Courses must be in compliance with the laws and rules governing the types of courses that will and will not be approved.

Approval will not include time spent on meals or other unrelated activities.

- (b) Courses must be submitted at least 30 days before the initial proposed course offering.
- (c) Approval must be granted for a subsequent offering of identical continuing education courses without requiring a new application. The commissioner must deny future offerings of courses if they are found not to be in compliance with the laws relating to course approval.
- (d) When either the content of an approved course or its method of instruction changes, the course is no longer approved for license education credit. A new application must be submitted for the changed course if the education provider intends to offer it for license education credit.

If during a current notice filing the issuer determines it is likely to sell shares in excess of the shares for which fees have been paid to the administrator, the issuer shall submit an amended notice filing to the administrator under section 80A.50, together with a fee of $\frac{1}{20}$ 1/10 of one percent of the maximum aggregate offering price of the additional shares. Shares for which a fee has been paid, but which have not been sold at the time of expiration of the notice filing, may not be sold unless an additional fee to cover the shares has been paid to the administrator as provided in this section and section 80A.50. If the filing is made in connection with redeemable securities issued by such a company or trust, there is no maximum fee for securities filings made according to this paragraph. If the filing is made in connection with any other federal covered security under Section 18(b)(2) of the Securities Act of 1933, there is an additional fee of one-tenth of one percent of the maximum aggregate offering price at which the securities are to be offered in this state, and the combined fees shall not exceed \$300. 122.2	improve the success rate and the return on investment of department employees engaged		
122.3	in audit activities;

Subd. 4. **Transporting hazardous material or waste; permit application.** Data submitted under section 221.0355, subdivision 9, and received by the commissioner of transportation on applications for permits to transport hazardous material or hazardous waste are classified under section 221.0355, subdivision 9.

135A.61 HIGH SCHOOL-TO-COLLEGE DEVELOPMENTAL TRANSITION PROGRAMS.

Subdivision 1. **High school-to-college developmental transition programs.** All public higher education systems and other higher education institutions in Minnesota are encouraged to offer research-based high school-to-college developmental transition programs to prepare students for college-level academic coursework. A program under this section must, at a minimum, include instruction to develop the skills and abilities necessary to be ready for college-level coursework when the student enrolls in a degree, diploma, or certificate program and must address the academic skills identified as needing improvement by a college readiness assessment completed by the student. A program offered under this section must not constitute more than the equivalent of one semester of full-time study occurring in the summer following high school graduation. The courses completed in a program under this section must be identified on the student's transcript with a unique identifier to distinguish it from other developmental education courses or programs.

- Subd. 2. **High school-to-college developmental transition programs evaluation report.** (a) Institutions that offer a high school-to-college developmental transition program and enroll students that receive a grant under section 136A.121, subdivision 9b, must annually submit data and information about the services provided and program outcomes to the director of the Minnesota Office of Higher Education.
- (b) The director must establish and convene a data working group to develop: (1) the data methodology to be used in evaluating the effectiveness of the programs implemented to improve the academic performance of participants, including the identification of appropriate comparison groups; and (2) a timeline for institutions to submit data and information to the director. The data working group must develop procedures that ensure consistency in the data collected by each institution. Data group members must have expertise in data collection processes and the delivery of academic programs to students, and represent the types of institutions that offer a program under this section. The data group must assist the director in analyzing and synthesizing institutional data and information to be included in the evaluation report submitted to the legislature under subdivision 3.
- (c) Participating institutions must specify both program and student outcome goals and the activities implemented to achieve the goals. The goals must be clearly stated and measurable, and data collected must enable the director to verify the program has met the outcome goals established for the program.
 - (d) The data and information submitted must include, at a minimum, the following:
 - (1) demographic information about program participants;
 - (2) names of the high schools from which the students graduated;
- (3) the college readiness test used to determine the student was not ready for college-level academic coursework;
- (4) the academic content areas assessed and the scores received by the students on the college readiness test;
- (5) a description of the services, including any supplemental noncredit academic support services, provided to students;
 - (6) data on the registration load, courses completed, and grades received by students;
- (7) the retention of students from the term they participated in the program to the fall term immediately following graduation from high school;
 - (8) information about the student's enrollment in subsequent terms; and
- (9) other information specified by the director or the data group that facilitates the evaluation process.
- Subd. 3. **Report to legislature.** By March 15 of each year, beginning in 2011, the director shall submit a report to the committees of the legislature with jurisdiction over higher education finance and policy that evaluates the effectiveness of programs in improving the academic performance of students who participated in the transition programs.

136A.121 GRANTS.

Repealed Minnesota Statutes: H1671-2

- Subd. 9b. Onetime grant for high school-to-college developmental transition program. (a) A student who enrolls in a program under section 135A.61 is eligible for a onetime grant to help pay expenses to attend the program. The amount of the grant must be determined according to subdivision 5, except as modified by paragraph (b). The requirement in subdivision 9a that subtracts a federal Pell Grant award for which a student would be eligible, even if the student has exhausted the federal Pell Grant award, does not apply to a student who receives a grant under this subdivision in the award year in which the grant is received. The maximum grant under this subdivision must be reduced by the average amount a student would earn working in an on-campus work-study position for ten hours per week during a summer term. The office must determine an amount for student earnings in a summer term, using available data about earnings, before determining the amount awarded under this subdivision.
- (b) For a student with an expected family contribution of zero, the maximum amount of the grant is the cost of attendance under subdivision 6.
- (c) A grant under this subdivision counts as one of the nine semesters of eligibility under subdivision 9. A grant under this subdivision must not be awarded for the same term for which another grant is awarded under this section.

136A.127 ACHIEVE SCHOLARSHIP PROGRAM.

Subdivision 1. **Establishment.** The achieve scholarship program is established to provide scholarships to eligible students within the limits of appropriations for the program.

- Subd. 2. **Definition; qualifying program.** For the purposes of this section, a "qualifying program" means a rigorous secondary school program of study defined by the Department of Education under agreement with the Secretary of Education for the purposes of determining eligibility for the federal Academic Competitiveness Grant Program under Title IV of the Higher Education Act of 1965, as amended. If a qualifying program includes a foreign language requirement, the foreign language requirement is waived for a student whose first language is not English and who attains English language proficiency.
- Subd. 3. **Documentation of qualifying programs.** The student shall request a transcript from the high school. The high school shall provide a transcript to the Office of Higher Education or to the eligible institution in which the student is enrolling, documenting the qualifying program. If the transcript is not sufficient to document a qualifying program, the student may be required to submit further documentation that the office deems sufficient.
- Subd. 4. **Student eligibility.** To be eligible to receive a scholarship under this section, in addition to the requirements listed under section 136A.121, a student must:
 - (1) submit a Free Application for Federal Student Aid (FAFSA);
- (2) complete a qualifying program in a high school or in a home-school setting under section 120A.22, graduate from a Minnesota high school, and graduate with an unweighted grade point average of 2.5 or higher;
 - (3) qualify for a federal Pell Grant or state grant under section 136A.121;
- (4) be a United States citizen or eligible noncitizen, as defined in section 484 of the Higher Education Act, United States Code, title 20, sections 1091 et seq., as amended, and Code of Federal Regulations, title 34, section 668.33;
 - (5) be a Minnesota resident, as defined in section 136A.101, subdivision 8; and
- (6) enroll full-time in a degree, diploma, or certificate program during the academic year immediately following high school graduation at an eligible institution as defined under section 136A.101, subdivision 4.
- Subd. 5. **Administration.** The achieve scholarship program shall be administered by the Minnesota Office of Higher Education. The director shall develop forms and procedures necessary to administer the program.
- Subd. 6. **Application.** A student must complete and submit an application for the achieve scholarship.
- Subd. 7. **Deadline.** The deadline for the office to accept applications for achieve scholarships is the same as that used for the state grant in section 136A.121, subdivision 13.
- Subd. 9. **Scholarship awards.** The amount of the scholarship is equal to the maximum assigned student responsibility for a four-year program, as defined in section 136A.121, subdivision 5, minus the assigned family responsibility as defined in section 136A.101, subdivision 5a, multiplied by 0.50. The minimum scholarship is \$1,200 per academic year based on the institution's academic calendar and the student's continued eligibility. The scholarship may be used to pay for qualifying expenses at eligible institutions.
- Subd. 9b. **Additional award for online course completion.** An eligible student who has completed at least one online course while in high school or in a home-school setting under

Repealed Minnesota Statutes: H1671-2

section 120A.22 may receive an additional award of up to \$150 to be used in conjunction with the award in subdivision 9. - Subd. 5. **Hazardous waste transporter.** (a) A carrier with its principal place of business in Minnesota or who designates Minnesota as its base state shall file a disclosure statement with and obtain a permit from the commissioner that specifically authorizes the transportation of hazardous waste before transporting a hazardous waste in Minnesota. A carrier that designates another participating state as its base state shall file a disclosure statement with and obtain a permit from that state that specifically authorizes the transportation of hazardous waste before transporting a hazardous waste in Minnesota. A registration is valid for one year from the date a notice of registration form is issued and a permit is valid for three years from the date issued or until a carrier fails to renew its registration, whichever occurs first.

- (b) A carrier shall calculate its percentage of Minnesota transportation and its percentage of hazardous material transportation as follows:
- (1) A carrier shall determine its percentage of Minnesota transportation by dividing the number of miles it traveled in Minnesota under the international registration plan, pursuant to section 168.187, during the previous year, by the number of miles it traveled in the United States and Canada under the international registration plan during the previous year. If a carrier operated only in Minnesota, it must use 100 percent of the miles traveled as its percentage of Minnesota transportation. If a carrier does not register its vehicles through the international registration plan, it must calculate the number of miles traveled in the manner required under the international registration plan. If a carrier operates more than one fleet under the international registration plan the carrier must add all miles traveled by all vehicles in all fleets to calculate its mileage. A Minnesota carrier who operates in an adjacent state under a reciprocal agreement with that state must include the miles operated under the agreement as miles traveled in Minnesota in calculating mileage under this clause.
 - (2) A carrier shall determine its percentage of hazardous material transportation as follows:
- (i) for less-than-truckload shipments, it must divide the weight of the carrier's hazardous material and hazardous waste shipments transported during the previous year by the total weight of all shipments transported during the previous year; or
- (ii) for truckload shipments, it must divide the number of shipments transported during the previous year for which placarding, marking, or manifesting, was required by Code of Federal Regulations, title 49, part 172, by the total number of all shipments transported during the previous year.
- (c) A carrier that transports both truckload and less-than-truckload shipments of hazardous material or hazardous waste must determine its percentage of hazardous material transportation by calculating the absolute percentage of business that is hazardous material transportation on a proportional basis with the percentage of business that is not hazardous material transportation or

Repealed Minnesota Statutes: H1671-2

by calculating its percentage within the ranges allowed following procedures under the uniform program.

- (d) A carrier may use data from its most recent complete fiscal year or the most recent complete calendar year in calculating the percentages required in this subdivision for transportation conducted during the previous year.
- Subd. 7. **Shipper registration.** (a) A shipper who maintains a distribution, terminal, warehouse, or other facility in Minnesota used to ship hazardous material or hazardous waste and who is required to comply with Code of Federal Regulations, title 49, sections 107.601 to 107.620, shall file, with the commissioner, a complete and accurate copy of its current registration statement, on the form described in Code of Federal Regulations, title 49, section 107.608, and a copy of its current federal certificate of registration. The fee for filing the registration statement is \$250. If the carrier is required to pay a fee under section 299K.095, the commissioner shall credit the actual amount paid by carrier during the previous 12 months toward payment of the fee required in this subdivision, not to exceed \$250 annually.
- (b) Upon a carrier's compliance with this subdivision, the commissioner shall issue a certificate of registration to the carrier. A certificate of registration must bear an effective date and show the carrier's Minnesota hazardous material transportation registration number. A certificate of registration is valid for one year from the date it is issued and must be kept at the carrier's principal place of business.

uniform application relating to a carrier's customers and service provided to specific customers, financial balance sheet and income statement data, ownership and debt liability data, and information relating to a carrier's parent companies, affiliates, and subsidiaries. The commissioner also may conduct investigations and audits necessary to determine if a carrier is entitled to a permit or to make suspension or revocation determinations.
- Subd. 11. **Administrative penalties.** The commissioner may issue an order requiring violations of this section to be corrected. An order may include the administrative assessment of a monetary penalty up to a maximum of \$10,000 for all violations of this section identified during a single inspection, investigation, or audit. Penalties collected under this section must be deposited in the state treasury and credited to the trunk highway fund.
- Subd. 12. **Suspension, revocation, and denial.** (a) The commissioner may suspend or revoke a permit issued under this section or order the suspension of the transportation of hazardous material or hazardous waste in Minnesota by a carrier who has obtained a permit from another participating state under the uniform program if the commissioner determines that a carrier:
- (1) committed a violation of Code of Federal Regulations, title 49, parts 100 to 180, 383, 387, or 390 to 397, while engaging in hazardous materials transportation if the violation posed an imminent hazard to the public or the environment;
 - (2) made a knowing falsification of a material fact in a uniform application;
- (3) has received an unsatisfactory safety rating from the state or the United States Department of Transportation; or
 - (4) has exhibited reckless disregard for the public and the environment.
- (b) In determining if a carrier has exhibited reckless disregard for the public and the environment in violation of paragraph (a), clause (4), the commissioner shall consider:
- (1) whether the carrier has engaged in a pattern of violations of Code of Federal Regulations, title 49, parts 100 to 180, 383, 387, or 390 to 397, or regulations governing the management of hazardous waste, while engaging in hazardous materials transportation, when the violations are viewed in relation to the number of truck-miles of hazardous material transportation and the number of vehicles in the carrier's fleet;
- (2) the actual or potential level of environmental damage resulting from an incident or a violation of the federal regulations described in paragraph (a), clause (1);
- (3) the response by the carrier to an incident or a violation of the federal regulations described in paragraph (a), clause (1);
 - (4) the carrier's history of violations for the past three years;
 - (5) any mitigating factors; and
- (6) other factors as justice requires, if the commissioner specifically identifies the additional factors in the order of suspension or revocation.

A carrier who wishes to contest a denial, suspension, or revocation is entitled to a hearing under chapter 14.
- Subd. 13. **Base state agreement.** The commissioner may enter into agreements with federal agencies, a national repository, or other participating states as necessary to allow the reciprocal registration and permitting of carriers transporting hazardous material or hazardous waste. - Subd. 14. **Preemption.** This section preempts and supersedes any hazardous material or hazardous waste transportation registration or permitting program administered or enforced by any state agency, city, county, or other political subdivision of the state.

Repealed Minnesota Statutes: H1671-2

- Subd. 17. **Exemptions.** This section does not apply to the intrastate transportation described as follows:
