3.10 employee could have qualified for on the date of death.

3.11 (b) If the employee was under age 55 and has credit for at least 30 years of allowable  
3.12 service on the date of death, the surviving spouse may elect to receive a 100 percent joint

3.16 reduction from age 55 to the age payment begins.

3.17 (c) If the employee was under age 55 and has credit for at least three years of

3.20 June 30, 2010, but did not yet qualify for retirement, the surviving spouse may elect  
3.21 to receive a 100 percent joint and survivor annuity based on the age of the employee  
3.22 and surviving spouse at the time of death. The annuity is payable using the full early  
3.23 retirement reduction under section 352.116, subdivision 1 or 1a, to age 55 and one-half of  
3.24 the early retirement reduction from age 55 to the age payment begins.

3.25 (d) The surviving spouse eligible for benefits under paragraph (a) may apply for the  
3.26 annuity at any time after the date on which the employee or former employee would  
3.27 have attained the required age for retirement based on the allowable service earned.  
3.28 The surviving spouse eligible for surviving spouse benefits under paragraph (b) or (c)  
3.29 may apply for the annuity at any time after the employee's death. The annuity must be

3.35 subdivision 2a. An amount equal to the excess, if any, of the accumulated contributions

4.1 credited to the account of the deceased employee in excess of the total of the benefits paid  
4.2 and payable to the surviving spouse must be paid to the deceased employee's or former  
4.3 employee's last designated beneficiary or, if none, as specified under subdivision 1.

4.4 (e) Any employee or former employee may request in writing, with the signed  
4.5 consent of the spouse, that this subdivision not apply and that payment be made only to a  
4.6 designated beneficiary as otherwise provided by this chapter.

4.7 **EFFECTIVE DATE.** This section is effective the day following final enactment.

4.8 Sec. 5. Minnesota Statutes 2008, section 352.22, subdivision 2, is amended to read:

4.9 Subd. 2. **Amount of refund.** Except as provided in subdivision 3, the refund  
4.10 payable to a person who ceased to be a state employee by reason of a termination of state  
4.11 service is an amount equal to employee accumulated contributions plus interest at the rate  
4.12 of six percent per year compounded daily from the date that the contribution was made  
4.13 until June 30, 2011, or until the date on which the refund is paid, whichever is earlier, and  
4.14 at the rate of four percent per year compounded daily from the date that the contribution  
4.15 was made or from July 1, 2011, whichever is later, until the date on which the refund is  
4.16 paid. Included with the refund is any interest paid as part of repayment of a past refund,  
4.17 plus interest thereon from the date of repayment.

4.18 **EFFECTIVE DATE.** This section is effective the day following final enactment.

4.19 Sec. 6. Minnesota Statutes 2008, section 352.22, subdivision 3, is amended to read:

4.20 Subd. 3. **Deferred annuity.** (a) An employee who has at least three years of  
4.21 allowable service if employed before July 1, 2010, or who has at least five years of  
4.22 allowable service if employed after June 30, 2010, when termination occurs may elect  
4.23 to leave the accumulated contributions in the fund and thereby be entitled to a deferred  
4.24 retirement annuity. The annuity must be computed under the law in effect when state  
4.25 service terminated, on the basis of the allowable service credited to the person before  
4.26 the termination of service.

4.27 (b) An employee on layoff or on leave of absence without pay, except a leave of  
4.28 absence for health reasons, and who does not return to state service must have an annuity,  
4.29 deferred annuity, or other benefit to which the employee may become entitled computed  
4.30 under the law in effect on the employee's last working day.

4.31 (c) No application for a deferred annuity may be made more than 60 days before  
4.32 the time the former employee reaches the required age for entitlement to the payment of  
4.33 the annuity. The deferred annuity begins to accrue no earlier than 60 days before the date

5.1 the application is filed in the office of the system, but not (1) before the date on which  
5.2 the employee reaches the required age for entitlement to the annuity nor (2) before the  
5.3 day following the termination of state service in a position which is not covered by the  
5.4 retirement system.

5.5 (d) Application for the accumulated contributions left on deposit with the fund may  
5.6 be made at any time following the date of the termination of service.

5.7 **EFFECTIVE DATE.** This section is effective the day following final enactment.

5.8 Sec. 7. Minnesota Statutes 2008, section 352.72, subdivision 1, is amended to read:

5.9 Subdivision 1. **Entitlement to annuity.** (a) Any person who has been an employee  
5.10 covered by a retirement system listed in paragraph (b) is entitled when qualified to an  
5.11 annuity from each fund if total allowable service in all funds or in any two of these funds  
5.12 totals three or more years if employed before July 1, 2010, or totals five or more years  
5.13 if employed after June 30, 2010.

5.14 (b) This section applies to the Minnesota State Retirement System, the Public  
5.15 Employees Retirement Association including the Public Employees Retirement  
5.16 Association police and fire fund, the Teachers Retirement Association, the State Patrol  
5.17 Retirement Association, or any other public employee retirement system in the state with  
5.18 a similar provision, except as noted in paragraph (c).

5.19 (c) This section does not apply to other funds providing benefits for police officers  
5.20 or firefighters.

5.21 (d) No portion of the allowable service upon which the retirement annuity from  
5.22 one fund is based shall be again used in the computation for benefits from another fund.  
5.23 No refund may have been taken from any one of these funds since service entitling the  
5.24 employee to coverage under the system or the employee's membership in any of the  
5.25 associations last terminated. The annuity from each fund must be determined by the  
5.26 appropriate provisions of the law except that the requirement that a person must have at  
5.27 least ~~three~~ a specific number of years of allowable service in the respective system or  
5.28 association does not apply for the purposes of this section if the combined service in two  
5.29 or more of these funds equals ~~three or more years~~ at least the longest period of allowable  
5.30 service of any of the applicable retirement plans.

5.31 **EFFECTIVE DATE.** This section is effective the day following final enactment.

5.32 Sec. 8. Minnesota Statutes 2008, section 352.72, subdivision 2, is amended to read:

6.1 Subd. 2. **Computation of deferred annuity.** (a) The deferred annuity, if any,  
6.2 accruing under subdivision 1, or section 352.22, subdivision 3, must be computed as  
6.3 provided in section 352.22, subdivision 3, on the basis of allowable service before  
6.4 termination of state service and augmented as provided herein. The required reserves  
6.5 applicable to a deferred annuity or to an annuity for which a former employee was eligible  
6.6 but had not applied or to any deferred segment of an annuity must be determined as of  
6.7 the date the benefit begins to accrue and augmented by interest compounded annually  
6.8 from the first day of the month following the month in which the employee ceased to be  
6.9 a state employee, or July 1, 1971, whichever is later, to the first day of the month in  
6.10 which the annuity begins to accrue. The rates of interest used for this purpose must be  
6.11 five percent compounded annually until January 1, 1981, and three percent compounded  
6.12 annually thereafter until January 1 of the year following the year in which the former  
6.13 employee attains age 55 or until January 1, 2011, whichever is earlier, and from ~~that date~~  
6.14 the January 1 next following the attainment of age 55 to the effective date of retirement or  
6.15 until January 1, 2011, whichever is earlier, ~~the rate is~~ five percent compounded annually if  
6.16 the employee became an employee before July 1, 2006, ~~and at~~ 2.5 percent compounded  
6.17 annually until January 1, 2011, if the employee becomes an employee after June 30, 2006,  
6.18 and two percent compounded annually after December 31, 2010, irrespective of when the  
6.19 employee became a state employee. If a person has more than one period of uninterrupted  
6.20 service, the required reserves related to each period must be augmented by interest under  
6.21 this subdivision. The sum of the augmented required reserves so determined is the present  
6.22 value of the annuity. "Uninterrupted service" for the purpose of this subdivision means  
6.23 periods of covered employment during which the employee has not been separated from  
6.24 state service for more than two years. If a person repays a refund, the service restored by  
6.25 the repayment must be considered continuous with the next period of service for which the  
6.26 employee has credit with this system. The formula percentages used for each period of  
6.27 uninterrupted service must be those applicable to a new employee. The mortality table  
6.28 and interest assumption used to compute the annuity must be those in effect when the  
6.29 employee files application for annuity. This section does not reduce the annuity otherwise  
6.30 payable under this chapter.

6.31 (b) The retirement annuity or disability benefit of, or the survivor benefit payable on  
6.32 behalf of, a former state employee who terminated service before July 1, 1997, which is  
6.33 not first payable until after June 30, 1997, must be increased on an actuarial equivalent  
6.34 basis to reflect the change in the postretirement interest rate actuarial assumption under  
6.35 section 356.215, subdivision 8, from five percent to six percent under a calculation

7.1 procedure and the tables adopted by the board and approved by the actuary retained under  
7.2 section 356.214.

7.3 **EFFECTIVE DATE.** This section is effective the day following final enactment.

7.4 Sec. 9. Minnesota Statutes 2009 Supplement, section 352.75, subdivision 4, is  
7.5 amended to read:

7.6 Subd. 4. **Existing deferred retirees.** Any former member of the former  
7.7 Metropolitan Transit Commission-Transit Operating Division employees retirement  
7.8 fund is entitled to a retirement annuity from the Minnesota State Retirement System if  
7.9 the employee:

7.10 (1) is not an active employee of the Transit Operating Division of the former  
7.11 Metropolitan Transit Commission on July 1, 1978; (2) has at least ten years of active  
7.12 continuous service with the Transit Operating Division of the former Metropolitan  
7.13 Transit Commission as defined by the former Metropolitan Transit Commission-Transit  
7.14 Operating Division employees retirement plan document in effect on December 31, 1977;  
7.15 (3) has not received a refund of contributions; (4) has not retired or begun receiving an  
7.16 annuity or benefit from the former Metropolitan Transit Commission-Transit Operating  
7.17 Division employees retirement fund; (5) is at least 55 years old; and (6) submits a valid  
7.18 application for a retirement annuity to the executive director of the Minnesota State  
7.19 Retirement System.

7.20 The person is entitled to a retirement annuity in an amount equal to the normal  
7.21 old age retirement allowance calculated under the former Metropolitan Transit  
7.22 Commission-Transit Operating Division employees retirement fund plan document in  
7.23 effect on December 31, 1977, subject to an early retirement reduction or adjustment in  
7.24 amount on account of retirement before the normal retirement age specified in that former  
7.25 Metropolitan Transit Commission-Transit Operating Division employees retirement fund  
7.26 plan document.

7.27 The deferred retirement annuity of any person to whom this subdivision applies  
7.28 must be augmented. The required reserves applicable to the deferred retirement annuity,  
7.29 determined as of the date the allowance begins to accrue using an appropriate mortality  
7.30 table and an interest assumption of five percent, must be augmented by interest at the  
7.31 rate of five percent per year compounded annually from January 1, 1978, to January 1,  
7.32 1981, ~~and~~ three percent per year compounded annually from January 1, 1981, until the  
7.33 date that the annuity begins to accrue or June 30, 2010, whichever is earlier, and two  
7.34 percent after June 30, 2010, to the first day of the month in which the annuity begins to  
7.35 accrue. After the commencement of the retirement annuity, the annuity is eligible for

8.1 postretirement adjustments under section 356.415. On applying for a retirement annuity  
8.2 under this subdivision, the person is entitled to elect a joint and survivor optional annuity  
8.3 under section 352.116, subdivision 3.

8.4 **EFFECTIVE DATE.** This section is effective the day following final enactment.

8.5 Sec. 10. Minnesota Statutes 2008, section 352.93, subdivision 1, is amended to read:

8.6 Subdivision 1. **Basis of annuity; when to apply.** After separation from state  
8.7 service, an employee covered under section 352.91 who has reached age 55 years and has  
8.8 credit for at least three years of covered correctional service or a combination of covered  
8.9 correctional service and general state employees ~~state~~ retirement plan allowable service  
8.10 if first employed as a state employee before July 1, 2010, or has credit for at least ten  
8.11 years of covered correctional service or a combination of covered correctional service  
8.12 and general state employees retirement plan allowable service if first employed as a state  
8.13 employee after June 30, 2010, is entitled upon application to a retirement annuity under  
8.14 this section, based only on covered correctional employees' service. Application may be  
8.15 made no earlier than 60 days before the date the employee is eligible to retire by reason of  
8.16 both age and service requirements.

8.17 **EFFECTIVE DATE.** This section is effective the day following final enactment.

8.18 Sec. 11. Minnesota Statutes 2008, section 352.93, subdivision 2a, is amended to read:

8.24 calculated under subdivision 2, reduced by two-tenths of one percent for each month that  
8.25 the correctional employee is under age 55 at the time of retirement if first employed as  
8.26 a correctional state employee before July 1, 2010, and if retired before July 1, 2015, or  
8.27 reduced by 0.417 percent for each month that the correctional employee is under age 55  
8.28 at the time of retirement if first employed as a correctional state employee after June 30,  
8.29 2010, or if first employed as a correctional state employee before July 1, 2010, and if  
8.30 retired after June 30, 2015.

8.31 **EFFECTIVE DATE.** This section is effective the day following final enactment.

8.32 Sec. 12. Minnesota Statutes 2008, section 352.93, subdivision 3a, is amended to read:

9.1 Subd. 3a. **Optional annuities.** The board may establish optional annuity forms to  
9.2 pay a higher amount from the date of retirement until an employee is first eligible to draw  
9.3 Social Security benefits, reaches age 65, or up to reaches the age the employee is eligible

9.13 allowable service if first employed as a correctional state employee after June 30, 2010,  
9.14 and dies before an annuity or disability benefit has become payable, notwithstanding any

 19.4 on Pensions and Retirement any recommendation by the board to use the sufficiency  
 19.5 exceeding one percent of covered payroll to offset the impact of an actuarial assumption  
 19.6 change recommended by the actuary retained under section 356.214, subdivision 1, and

 19.11 Any proposed benefit improvement must include a recommendation, prepared by the  
 19.12 actuary retained under section 356.214, subdivision 1, and reviewed by the actuary

 41.2 assets by the actuarial accrued liability as reported in the most recent actuarial valuation  
 41.3 prepared under sections 356.214 and 356.215, determines the postretirement increase  
 41.4 as follows:

	<u>Funding Ratio</u>	<u>Postretirement Increase</u>
41.5		
41.6	<u>less than 80 percent</u>	<u>0 percent</u>
41.7	<u>at least 80 percent but less than 90</u>

 41.11 is at least 90 percent as reported in the most recent actuarial valuation prepared under  
 41.12 sections 356.214 and 356.215, this subdivision expires and subsequent postretirement  
 41.13 increases must be paid as specified under subdivision 7.

41.17 **Subd. 7. Calculation of postretirement adjustments.** (a) This subdivision applies  
 41.18 if subdivision 6 has expired.

41.19 (b) A percentage adjustment must be computed and paid under this subdivision to  
 41.20 eligible persons under subdivision 5. This adjustment is determined by reference to the  
 41.21 Consumer Price Index for urban wage earners and clerical workers all items index as  
 41.22 reported by the Bureau of Labor Statistics within the United States Department of Labor  
 41.23 each year as part of the determination of annual cost-of-living adjustments to recipients  
 41.24 of federal old-age, survivors, and disability insurance. For calculations of cost-of-living  
 41.25 adjustments under paragraph (c), the term "average third quarter Consumer Price Index  
 41.26 value" means the sum of the monthly index values as initially reported by the Bureau of  
 41.27 Labor Statistics for the months of July, August, and September, divided by 3.

41.28 (c) Before January 1 of each year, the executive director must calculate the amount  
 41.29 of the cost-of-living adjustment by dividing the most recent average third quarter index  
 41.30 value by the same average third quarter index value from the previous year, subtract one  
 41.31 from the resulting quotient, and express the result as a percentage amount, which must be  
 41.32 rounded to the nearest one-tenth of one percent.

41.33 (d) The amount calculated under paragraph (c) is the full cost-of-living adjustment  
 41.34 to be applied as a permanent increase to the regular payment of each eligible member  
 41.35 on January 1 of the next calendar year. For any eligible member whose effective date

42.1 of benefit commencement occurred during the calendar year before the cost-of-living  
42.2 adjustment is applied, the full increase amount must be prorated on the basis of whole  
42.3 calendar quarters in benefit payment status in the calendar year prior to the January 1 on  
42.4 which the cost-of-living adjustment is applied, calculated to the third decimal place.

42.5 (e) The adjustment must not be less than zero nor greater than five percent.

42.6 (f) If the funding ratio of the plan as determined in the most recent actuarial  
42.7 valuation using the actuarial value of assets is less than 80 percent there will be no  
42.8 postretirement adjustment the following January 1.

42.9 **EFFECTIVE DATE.** This section is effective July 1, 2010.

42.10 Sec. 62. Minnesota Statutes 2008, section 354A.31, subdivision 1, is amended to read:

42.11 Subdivision 1. **Age and service requirements.** Any coordinated member or former  
42.12 coordinated member of the St. Paul Teachers Retirement Fund Association who has  
42.13 ceased to render teaching service for the school district in which the teachers retirement  
42.14 fund association exists and who has either attained the age of at least 55 years with not  
42.15 less than three years of allowable service credit or received credit for not less than 30  
42.16 years of allowable service regardless of age, shall be entitled upon written application to a  
42.17 retirement annuity. Any coordinated member or former coordinated member of the Duluth  
42.18 Teachers Retirement Fund Association who has ceased to render teaching service for the  
42.19 school district in which the teacher retirement fund association exists and who has either  
42.20 attained the age of at least 55 years with not less than three years of allowable service  
42.21 credit if the member became an employee before July 1, 2010, or not less than five years  
42.22 of allowable service credit if the member became an employee after June 30, 2010, or  
42.23 received service credit for not less than 30 years of allowable service regardless of age,  
42.24 shall be entitled upon written application to a retirement annuity.

42.25 **EFFECTIVE DATE.** This section is effective July 1, 2010.

42.26 Sec. 63. Minnesota Statutes 2008, section 354A.35, subdivision 1, is amended to read:

42.27 Subdivision 1. **Death before retirement; refund.** If a coordinated member  
42.28 or former coordinated member dies prior to retirement or prior to the receipt of any  
42.29 retirement annuity or other benefit payment which is or may be payable and a surviving  
42.30 spouse optional annuity is not payable pursuant to subdivision 2, a refund shall be paid to  
42.31 the person's surviving spouse, or if there is none, to the person's designated beneficiary,  
42.32 or if there is none, to the legal representative of the person's estate. For a coordinated  
42.33 member or former coordinated member of the St. Paul Teachers Retirement Fund

43.1 Association, the refund shall be in an amount equal to the person's accumulated employee  
43.2 contributions plus interest at the rate of six percent per annum compounded annually. For  
43.3 a coordinated member or former coordinated member of the Duluth Teachers Retirement  
43.4 Fund Association, the refund shall be in an amount equal to the person's accumulated  
43.5 employee contributions plus interest at the rate of six percent per annum compounded  
43.6 annually to July 1, 2010, and four percent per annum compounded annually thereafter.

43.7 **EFFECTIVE DATE.** This section is effective July 1, 2010.

43.8 Sec. 64. Minnesota Statutes 2008, section 354A.37, subdivision 2, is amended to read:

43.9 Subd. 2. **Eligibility for deferred retirement annuity.** (a) Any coordinated member  
43.10 who ceases to render teaching services for the school district in which the teachers  
43.11 retirement fund association is located, with sufficient allowable service credit to meet  
43.12 the minimum service requirements specified in section 354A.31, subdivision 1, shall be  
43.13 entitled to a deferred retirement annuity in lieu of a refund pursuant to subdivision 1. The  
43.14 deferred retirement annuity shall be computed pursuant to section 354A.31 and shall be  
43.15 augmented as provided in this subdivision. The deferred annuity shall commence upon  
43.16 application after the person on deferred status attains at least the minimum age specified in  
43.17 section 354A.31, subdivision 1.

43.18 (b) The monthly annuity amount that had accrued when the member ceased to  
43.19 render teaching service must be augmented from the first day of the month following the  
43.20 month during which the member ceased to render teaching service to the effective date  
43.21 of retirement. There is no augmentation if this period is less than three months. For a  
43.22 member of the St. Paul Teachers Retirement Fund Association, the rate of augmentation  
43.23 is three percent compounded annually until January 1 of the year following the year in  
43.24 which the former member attains age 55, and five percent compounded annually after that  
43.25 date to the effective date of retirement if the employee became an employee before July  
43.26 1, 2006, and at 2.5 percent compounded annually if the employee becomes an employee  
43.27 after June 30, 2006. For a member of the Duluth Teachers Retirement Fund Association,  
43.28 the rate of augmentation is three percent compounded annually until January 1 of the year  
43.29 following the year in which the former member attains age 55, five percent compounded  
43.30 annually after that date to July 1, 2010, and two percent compounded annually after that  
43.31 date to the effective date of retirement if the employee became an employee before  
43.32 July 1, 2006, and at 2.5 percent compounded annually to July 1, 2010, and two percent  
43.33 compounded annually after that date to the effective date of retirement if the employee  
43.34 becomes an employee after June 30, 2006. If a person has more than one period of  
43.35 uninterrupted service, a separate average salary determined under section 354A.31 must

44.1 be used for each period, and the monthly annuity amount related to each period must be  
44.2 augmented as provided in this subdivision. The sum of the augmented monthly annuity  
44.3 amounts determines the total deferred annuity payable. If a person repays a refund, the  
44.4 service restored by the repayment must be considered as continuous with the next period  
44.5 of service for which the person has credit with the fund. If a person does not render  
44.6 teaching services in any one fiscal year or more consecutive fiscal years and then resumes  
44.7 teaching service, the formula percentages used from the date of resumption of teaching  
44.8 service are those applicable to new members. The mortality table and interest assumption  
44.9 used to compute the annuity are the table established by the fund to compute other  
44.10 annuities, and the interest assumption under section 356.215 in effect when the member  
44.11 retires. A period of uninterrupted service for the purpose of this subdivision means a  
44.12 period of covered teaching service during which the member has not been separated from  
44.13 active service for more than one fiscal year.

44.14 (c) The augmentation provided by this subdivision applies to the benefit provided  
44.15 in section 354A.35, subdivision 2. The augmentation provided by this subdivision does  
44.16 not apply to any period in which a person is on an approved leave of absence from an  
44.17 employer unit.

44.18 **EFFECTIVE DATE.** This section is effective July 1, 2010.

44.19 Sec. 65. Minnesota Statutes 2008, section 354A.37, subdivision 3, is amended to read:

44.25 Retirement Fund Association who qualifies for a refund under subdivision 1 shall receive  
44.26 a refund equal to the amount of the former coordinated member's accumulated employee  
44.27 contributions with interest at the rate of six percent per annum compounded annually to

 49.37 payroll growth assumption for calculating the amortization requirement for the unfunded

 49.39 percentage of an increasing payroll:

50.13 (d) After July 1, 2010, the assumptions set forth in paragraphs (b) and (c) continue to  
 50.14 apply, unless a different salary assumption or a different payroll increase assumption:

50.15 (1) has been proposed by the governing board of the applicable retirement plan;

50.16 (2) is accompanied by the concurring recommendation of the actuary retained under  
 50.17 section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the  
 50.18 most recent actuarial valuation report if section 356.214 does not apply; and

50.19 (3) has been approved or deemed approved under subdivision 18.

50.20 **EFFECTIVE DATE.** This section is effective the day following final enactment.

50.21 Sec. 68. Minnesota Statutes 2009 Supplement, section 356.215, subdivision 11,  
 50.22 is amended to read:

50.23 Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating  
 50.24 the level normal cost, the actuarial valuation of the retirement plan must contain an  
 50.25 exhibit for financial reporting purposes indicating the additional annual contribution  
 50.26 sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit  
 50.27 for contribution determination purposes indicating the additional contribution sufficient  
 50.28 to amortize the unfunded actuarial accrued liability. For the retirement plans listed in  
 50.29 subdivision 8, paragraph (c), the additional contribution must be calculated on a level  
 50.30 percentage of covered payroll basis by the established date for full funding in effect when  
 50.31 the valuation is prepared, assuming annual payroll growth at the applicable percentage  
 50.32 rate set forth in subdivision 8, paragraph (c). For all other retirement plans, the additional  
 50.33 annual contribution must be calculated on a level annual dollar amount basis.

50.34 (b) For any retirement plan other than the Minneapolis Employees Retirement Fund,  
 50.35 the general employees retirement plan of the Public Employees Retirement Association,  
 50.36 the general state employees retirement plan of the Minnesota State Retirement System,  
 50.37 and the St. Paul Teachers Retirement Fund Association, if there has not been a change in

51.1 the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a  
51.2 change in the benefit plan governing annuities and benefits payable from the fund, a  
51.3 change in the actuarial cost method used in calculating the actuarial accrued liability of all  
51.4 or a portion of the fund, or a combination of the three, which change or changes by itself  
51.5 or by themselves without inclusion of any other items of increase or decrease produce a  
51.6 net increase in the unfunded actuarial accrued liability of the fund, the established date for  
51.7 full funding is the first actuarial valuation date occurring after June 1, 2020.

51.8 (c) For any retirement plan other than the Minneapolis Employees Retirement  
51.9 Fund and the general employees retirement plan of the Public Employees Retirement  
51.10 Association, if there has been a change in any or all of the actuarial assumptions used  
51.11 for calculating the actuarial accrued liability of the fund, a change in the benefit plan  
51.12 governing annuities and benefits payable from the fund, a change in the actuarial cost  
51.13 method used in calculating the actuarial accrued liability of all or a portion of the fund,  
51.14 or a combination of the three, and the change or changes, by itself or by themselves and  
51.15 without inclusion of any other items of increase or decrease, produce a net increase in the  
51.16 unfunded actuarial accrued liability in the fund, the established date for full funding must  
51.17 be determined using the following procedure:

51.18 (i) the unfunded actuarial accrued liability of the fund must be determined in  
51.19 accordance with the plan provisions governing annuities and retirement benefits and the  
51.20 actuarial assumptions in effect before an applicable change;

51.21 (ii) the level annual dollar contribution or level percentage, whichever is applicable,  
51.22 needed to amortize the unfunded actuarial accrued liability amount determined under item  
51.23 (i) by the established date for full funding in effect before the change must be calculated  
51.24 using the interest assumption specified in subdivision 8 in effect before the change;

51.25 (iii) the unfunded actuarial accrued liability of the fund must be determined in  
51.26 accordance with any new plan provisions governing annuities and benefits payable from  
51.27 the fund and any new actuarial assumptions and the remaining plan provisions governing  
51.28 annuities and benefits payable from the fund and actuarial assumptions in effect before  
51.29 the change;

51.30 (iv) the level annual dollar contribution or level percentage, whichever is applicable,  
51.31 needed to amortize the difference between the unfunded actuarial accrued liability amount  
51.32 calculated under item (i) and the unfunded actuarial accrued liability amount calculated  
51.33 under item (iii) over a period of 30 years from the end of the plan year in which the  
51.34 applicable change is effective must be calculated using the applicable interest assumption

 53.11 person who has met the qualifications of paragraph (b) may elect to receive a retirement  
 53.12 annuity from each enumerated retirement plan in which the person has at least one-half

 53.14 provisions of paragraph (c).

53.15           (b) A person may receive, upon retirement, a retirement annuity from each  
 53.16 enumerated retirement plan in which the person has at least one-half year of allowable  
 53.17 service, and augmentation of a deferred annuity calculated at the appropriate rate under  
 53.18 the laws governing each public pension plan or fund named in subdivision 3, based on  
 53.19 the date of the person's initial entry into public employment from the date the person  
 53.20 terminated all public service if:

53.21           (1) the person has allowable service ~~totaling an amount that allows the person to~~  
 53.22 ~~receive an annuity~~ in any two or more of the enumerated plans;

53.23           (2) the person has sufficient allowable service in total that equals or exceeds the  
 53.24 applicable service credit vesting requirement of the retirement plan with the longest  
 53.25 applicable service credit vesting requirement; and

53.26           ~~(2)~~ (3) the person has not begun to receive an annuity from any enumerated plan or  
 53.27 the person has made application for benefits from each applicable plan and the effective  
 53.28 dates of the retirement annuity with each plan under which the person chooses to receive  
 53.29 an annuity are within a one-year period.

53.30           (c) The retirement annuity from each plan must be based upon the allowable service,  
 53.31 accrual rates, and average salary in the applicable plan except as further specified or  
 53.32 modified in the following clauses:

53.33           (1) the laws governing annuities must be the law in effect on the date of termination

54.3 (2) the "average salary" on which the annuity from each covered plan in which  
54.4 the employee has credit in a formula plan must be based on the employee's highest five  
54.5 successive years of covered salary during the entire service in covered plans;

54.6 (3) the accrual rates to be used by each plan must be those percentages prescribed by  
54.7 each plan's formula as continued for the respective years of allowable service from one  
54.8 plan to the next, recognizing all previous allowable service with the other covered plans;

54.10 for and the application of each plan's provisions in respect to reduction in the annuity  
54.11 amount for retirement prior to normal retirement age; and

54.12 (5) the annuity amount payable for any allowable service under a nonformula plan

54.33 formula to a prorated service credit for the period of duplicated service based on a fraction  
54.34 of the salary on which deductions were paid to that fund for the period divided by the total  
54.35 salary on which deductions were paid to all plans for the period.

55.1 (h) If the period of duplicated service credit is less than one-half year, or when  
55.2 added to other service credit with that plan is less than one-half year, the service credit
