84.154 LAC QUI PARLE WATER CONTROL PROJECT.

Subd. 5. Special funds created. (1) There is hereby created a special fund to be known as the Lac qui Parle and Big Stone Lake water control projects fund, in which shall be placed all moneys heretofore or hereafter received for any lands or other property acquired by the state for the Lac qui Parle water control project and heretofore or hereafter sold or leased to the United States pursuant to Laws 1941, chapter 518, or otherwise, also all money heretofore or hereafter received from any source for the sale or lease under any other law of any lands or other property acquired by the state for either the Lac qui Parle or Big Stone Lake water control project, except as otherwise provided in clause (2).

(2) All moneys in excess of $2,500 remaining June 30, 1943, and at the end of each fiscal year thereafter in the Lac qui Parle revolving fund designated by Laws 1941, chapter 142, shall be transferred to said projects fund. When all the property authorized to be sold under said chapter has been sold and the proceeds have been received the Executive Council shall notify the commissioner of management and budget thereof. Thereupon the balance remaining in said revolving fund shall be transferred to said projects fund and said revolving fund shall be abolished.

(3) All moneys in said projects fund are hereby appropriated to the commissioner of conservation for the purposes of Laws 1943, chapter 476, to remain available therefor until expended hereunder or otherwise expressly disposed of by law; provided, that all expenditures hereunder shall be subject to the approval of the governor; provided, that the governor shall not approve any such expenditure without first consulting the Legislative Advisory Commission and securing their recommendation, which shall be advisory only. Failure or refusal of the commission to make a recommendation promptly shall be deemed a negative recommendation.

84A.04 COUNTY AUDITOR TO MAKE LIST OF LANDS.

Subdivision 1. 1929 report. The auditor of each county containing a portion of the preserve shall certify to the commissioner of natural resources a list of the lands within the boundaries of the preserve, except lands within the boundaries of an incorporated city, that have been bid in for the state at the delinquent tax sale held in 1928 for the nonpayment of taxes or special drainage assessments and not redeemed or assigned to an actual purchaser. The certificate must contain:

1. the legal description of each parcel of lands;
2. the amount of principal and interest of delinquent drainage assessments, if any, or assessment installments for all years before the date of the report, against each parcel of land; and
3. the amount of drainage assessments assessed against each parcel of land that have been or are to be extended on the county tax rolls for collection with the taxes for 1927 and later years.

Subd. 2. Annual reports. On or before June 15 of each year after the report, the county auditor shall certify to the commissioner of natural resources a supplemental report giving the information contained in the original report covering the lands within the preserve bid in for the state at the annual tax sale of that year and not included in the previous report.

Subd. 3. Reports of land redemptions. When redemption is made of any parcel of land within the preserve that has been bid in for the state at any tax sale for taxes levied before April 19, 1929, or when the tax liens on the land are assigned to an actual purchaser, the county auditor shall report the fact to the commissioner of natural resources, and the county treasurer shall send the proceeds of redemption to the commissioner of management and budget.

Subd. 4. Drainage ditch bonds; reports. (a) After each distribution of the tax collections on the June and November tax settlements, the county auditor shall certify to the commissioner of natural resources the following information relating to bonds issued to finance or refinance public drainage ditches wholly or partly within the preserve and the collection of assessments levied on account of the ditches:

1. the amount of principal and interest to become due on the bonds before the next tax settlement and distribution;
2. the amount of money collected from the drainage assessments and credited to the funds of these ditches; and
3. the amount of the deficit in the ditch fund of the county chargeable to the ditches.
(b) On approving this certificate, the commissioner of natural resources shall draw a warrant or warrants on the commissioner of management and budget, payable out of the Red Lake Game Preserve fund, for the amount of the deficit in favor of the county.
(c) As to public drainage ditches wholly within the preserve, the amount paid to or for the benefit of the county under paragraph (b) must never exceed the principal and interest of the bonds issued to finance and refinance the ditches outstanding after April 19, 1929, less money on
hand in the county ditch fund to the credit of the ditches. The liability shall be reduced, from time to time, by the amount of all payments of assessments extended after April 19, 1929, made by the owners of lands assessed before that date for benefits on account of the ditches.

(d) As to public drainage ditches partly within and partly outside the preserve, the amount paid to or for the benefit of the county must never exceed a certain percentage of bonds issued to finance and refinance the ditches so outstanding, less money on hand in the county ditch fund to the credit of the ditches after April 19, 1929. This percentage must bear the same proportion to the whole amount of the bonds as the original benefits assessed against lands within the preserve bear to the original total benefits assessed to the entire system of ditches. The liability shall be reduced, from time to time, by the payments of all assessments extended after April 19, 1929, made by the owners of lands in the preserve, of assessments for benefits assessed before April 19, 1929, on account of the ditch.

(e) The commissioner of natural resources may provide and prescribe the forms for reports required by sections 84A.01 to 84A.11 and require any additional information from county officials that the commissioner of management and budget finds necessary for the proper administration of sections 84A.01 to 84A.11.

84A.08 PRESERVE LANDS CLASSIFIED.
On receiving the reports of a county auditor specified in section 84A.04, the commissioner of natural resources shall certify a copy of the report to the department. The department shall classify the lands as to their suitability for agriculture, afforestation or reforestation, or ownership and use by the state for preserving, propagating, breeding, and hunting of wildlife of the kinds specified in section 84A.01. After the state acquires title to the lands they may be reclassified. Lands that become the absolute property of the state under sections 84A.01 to 84A.11 and have been classified as suitable for agriculture, and timber from any lands so acquired, may be sold by the state.

84A.11 WHEN BONDS PAID IN PART BY COUNTIES.
A county containing a portion of the preserve may voluntarily assume, in the manner specified in this section, the obligation to pay a portion of the principal and interest of the bonds issued before April 19, 1929, and remaining unpaid at maturity, of any school district or town in the county and wholly or partly within the preserve. The portion must bear the same proportion to the whole of the unpaid principal and interest as the 1928 assessed valuation of lands then acquired by the state under sections 84A.01 to 84A.11 in that school district or town bears to the total 1928 assessed valuation of the school district or town.

This assumption must be evidenced by a resolution of the county board. A copy of the resolution must be certified to the commissioner of management and budget within one year after the passage of sections 84A.01 to 84A.11.

After that time, if any bonds remain unpaid at maturity, the county board shall, upon demand of the governing body of the school district or town or of a bondholder, provide for the payment of the portion assumed. The county board shall levy general taxes on all the taxable property of the county for that purpose, or shall issue its bonds to raise the sum needed conforming to law respecting the issuance of county refunding bonds. The proceeds of these taxes or bonds must be paid by the county treasurer to the treasurers of the respective school districts or towns.

If a county fails to adopt and certify this resolution, the commissioner of management and budget shall withhold from the payments to be made to the county, under section 84A.04, a sum equal to that portion of the principal and interest of these outstanding bonds that bears the same proportion to the whole principal and interest as the 1928 assessed valuation of lands acquired by the state within the preserve bears to the total 1928 assessed valuation of the school district or town. The money withheld must be set aside in the state treasury and not paid to the county until the full principal and interest of these school district and town bonds is paid.

If any bonds remain unpaid at maturity, upon the demand of the governing body of the school district or town, or a bondholder, the commissioner of management and budget shall issue to the treasurer of the school district or town a warrant for that portion of the past due principal and interest computed as in the case of the county liability authorized to be voluntarily assumed. Money received by a school district or town under this section must be applied to the payment of these past due bonds and interest.
