1.26 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

1.27 **ARTICLE 1**

1.28 **AGRICULTURAL POLICY**

1.29 Section 1. Minnesota Statutes 2016, section 15.985, is amended to read:

1.30 **15.985 ADVISORY INSPECTIONS.**

2.1 (a) Upon the voluntary request of a person to a state agency for an advisory inspection
2.2 for the purpose of complying with state law, the agency must, except as provided in
2.3 paragraphs (f) and (g), conduct an advisory inspection. An agency is not required to conduct
2.4 an advisory inspection if the agency has a regularly scheduled inspection that would occur
2.5 within 90 days after the request for the advisory inspection, or if before an advisory inspection
2.6 is requested, the agency has notified the person that it will be conducting an inspection
2.7 within 45 days. If an advisory inspection results in findings that potentially could make a
2.8 person subject to a fine or other penalty imposed by the agency, the agency must notify the
2.9 person in writing of those findings within ten days of the inspection.

2.10 (1) Except as provided in clause (2), if within 60 days of receiving notice, the person
2.11 notifies the agency that it has corrected the situation that made the person potentially subject
2.12 to the fine or penalty, and the agency later determines that the situation is corrected, the
2.13 agency may not impose a fine or penalty as a result of the findings in the advisory inspection.

2.14 (2) For violations of chapter 177, if the person notifies the agency within the time period
2.15 for remedying violations required under the applicable section of chapter 177 that it has
2.16 corrected the situation that made the person potentially subject to the fine or penalty, and
2.17 the agency later determines that the situation is corrected, the agency may not impose a fine
2.18 or penalty as a result of the finding in the advisory inspection.

2.19 (3) A person may not request more than one advisory inspection from the same agency
2.20 in a calendar year. A person may not request an advisory inspection after an inspection
2.21 resulting in a fine or other penalty has been determined and the violator notified of the
2.22 amount to be paid, until fines or penalties have been paid or settled.

2.23 (b) For purposes of this section:

2.24 (1) "inspection" includes an examination of real or personal property or an audit or other
2.25 examination of financial or other documents;

2.26 (2) "penalty" includes a civil or administrative fine or other financial sanction;

2.27 (3) "person" includes a real person and businesses, including corporations, partnerships,
2.28 limited liability companies, and unincorporated associations; and

2.29 (4) "state agency" means a department, agency, board, commission, constitutional office,
2.30 or other group in the executive branch of state government.

2.31 (c) If an agency revises, amends, extends, or adds additional violations to a notice, the
2.32 person has 60 days from the date of those changes to correct the situation without fine or

3.1 penalty. For violations of chapter 177, the person has the time period for remedying violations
3.2 under the applicable section of chapter 177 to correct the situation without fine or penalty.

3.3 (d) An agency conducting an inspection under this section may impose and collect from
3.4 the person requesting the inspection a fee equal to the costs incurred by the agency related
3.5 to the inspection. Fees under this section shall be considered charges for goods and services
3.6 provided for the direct and primary use of a private individual, business, or other entity
3.7 under section 16A.1283, paragraph (b), clause (3). Fee revenue collected under this section
3.8 must be deposited in an appropriate fund other than the general fund and is appropriated
3.9 from that fund to the agency collecting the fee for the purpose of conducting inspections
3.10 under this section.

3.11 (e) Nothing in this section shall prohibit or interfere with an agency offering similar
3.12 programs that allow independent audits or inspections, including the environmental
3.13 improvement program under chapter 114C. If a person conducts a self-audit under chapter
3.14 114C, the terms and conditions of this section do not apply. For advisory inspections
3.15 conducted by the Pollution Control Agency, terms and conditions of sections 114C.20 to
3.16 114C.28 shall be used instead of those in paragraphs (a) to (c) and (g).

3.17 (f) If agency staff resources are limited, an agency must give higher priority to the
3.18 agency's regular inspections over advisory inspections under this section. Insofar as
3.19 conducting advisory inspections reduces an agency's costs, the savings must be reflected
3.20 in the charges for advisory inspections. Before hiring additional staff complement for
3.21 purposes of this section, an agency must report to the chairs and ranking minority members
3.22 of the legislative budget committees with jurisdiction over the agency documenting: (1) the
3.23 demand for advisory inspections and why additional staff complement is needed to meet
3.24 the demand; and (2) that the revenue generated by advisory inspections will cover the
3.25 expenses of the additional staff complement. If a person requests an advisory inspection,
3.26 but the agency does not have staff resources necessary to conduct the advisory inspection
3.27 before a regular inspection is conducted, and the regular inspection results in findings that
3.28 could make a person subject to a fine or penalty, the agency must take into account the
3.29 person's request for an advisory inspection and the person's desire to take corrective action
3.30 before taking any enforcement action against the person.

3.31 (g) This section does not apply to:

3.32 (1) criminal penalties;

3.33 (2) situations in which implementation of this section is prohibited by federal law or
3.34 would result in loss of federal funding or in other federal sanctions or in which

4.1 implementation would interfere with multistate agreements, international agreements, or
 4.2 agreements between state and federal regulatory agencies;

4.3 (3) conduct constituting fraud;

4.4 (4) violations in a manner that endangers human life or presents significant risk of major
 4.5 injury or severe emotional harm to humans;

4.6 (5) violations that are part of a pattern that has occurred repeatedly and shows willful
 4.7 intent;

4.8 (6) violations for which it may be demonstrated that the alternative inspections process
 4.9 is being used to avoid enforcement;

4.10 (7) violations that occur within three years of violating an applicable law;

4.11 (8) the Department of Revenue;

4.12 (9) the Workers' Compensation Division at the Department of Labor and Industry;

4.13 (10) violations of vehicle size weight limits under sections 169.80 to 169.88;

4.14 (11) commercial motor vehicle inspections under section 169.781 and motor carrier
 4.15 regulations under chapter 221;

4.16 ~~(12) the Dairy and Food Inspection Division of the Department of Agriculture, if the~~
 4.17 ~~division provides free inspections similar to those under this section;~~

4.18 ~~(13)~~ (12) state inspections or surveys of hospitals, nursing homes, outpatient surgical
 4.19 centers, supervised living facilities, board and lodging with special services, home care,
 4.20 housing with services and assisted living settings, hospice, and supplemental nursing services
 4.21 agencies;

4.22 ~~(14)~~ (13) examinations of health maintenance organizations or county-based purchasing
 4.23 entities regulated under chapter 62D;

4.24 ~~(15)~~ (14) special transportation services under section 174.30; and

4.25 ~~(16)~~ (15) entities regulated by the Department of Commerce's Financial Institutions and
 4.26 Insurance Divisions for purposes of regulatory requirements of those divisions.

4.27 If an agency determines that this section does not apply due to situations specified in clause
 4.28 (2), the agency must report the basis for that determination to the chairs and ranking minority
 4.29 members of the legislative committees with jurisdiction over the agency.

4.30 (h) An agency may terminate an advisory inspection and proceed as if an inspection
 4.31 were a regular inspection if, in the process of conducting an advisory inspection, the agency

5.1 finds a situation that the agency determines: could lead to criminal penalties; endangers
5.2 human life or presents significant risk of major injury or severe emotional harm to humans;
5.3 presents a severe and imminent threat to animals, food, feed, crops, commodities, or the
5.4 environment; or evidences a pattern of willful violations.

5.5 Sec. 2. Minnesota Statutes 2016, section 18B.01, subdivision 8, is amended to read:

5.22 directly applied to the seed before planting and classified by the United States Environmental
5.23 Protection Agency as a "treated article or substance" under Code of Federal Regulations,
5.24 title 40, section 152.25(a).

5.25 Sec. 6. Minnesota Statutes 2016, section 18B.01, is amended by adding a subdivision to

6.15 of any pesticide or treated seed.

6.16 Sec. 10. Minnesota Statutes 2016, section 18B.03, subdivision 1, is amended to read:

6.17 Subdivision 1. **Administration by commissioner.** The commissioner shall administer,
6.18 implement, and enforce this chapter and the Department of Agriculture is the lead state
6.19 agency for the regulation of pesticides and treated seed. The commissioner has the sole
6.20 regulatory authority over the terrestrial application of pesticides, including, but not limited
6.21 to, the application of pesticides to agricultural crops, structures, and other nonaquatic
6.22 environments. Except as provided in subdivision 3, a state agency other than the Department
6.23 of Agriculture shall not regulate or require permits for the terrestrial or nonaquatic application
6.24 of pesticides.

6.25 Sec. 11. Minnesota Statutes 2016, section 18B.03, subdivision 4, is amended to read:

6.26 Subd. 4. **Pollinator enforcement.** The commissioner may take enforcement action under

6.28 in harm to pollinators, including but not limited to the use of treated seed, applying a pesticide
6.29 in a manner inconsistent with the pesticide product's label or labeling and resulting in
6.30 pollinator death or willfully applying pesticide in a manner inconsistent with the pesticide

7.1 product's label or labeling. The commissioner must deposit any penalty collected under this
 7.2 subdivision in the pesticide regulatory account in section 18B.05.

7.3 Sec. 12. Minnesota Statutes 2016, section 18B.04, is amended to read:

7.4 **18B.04 PESTICIDE IMPACT ON ENVIRONMENT.**

7.5 (a) The commissioner shall:

7.6 (1) determine the impact of pesticides on the environment, including the impacts on
 7.7 surface water and groundwater in this state;

7.8 (2) develop best management practices involving pesticide or treated seed distribution,
 7.9 storage, handling, use, and disposal; and

7.10 (3) cooperate with and assist other state agencies and local governments to protect public
 7.11 health, pollinators, and the environment from harmful exposure to pesticides or treated seed.

7.12 (b) The commissioner may assemble a group of experts under section 16C.10, subdivision
 7.13 2, to consult in the investigation of pollinator deaths or illnesses. The group of experts may
 7.14 include representatives from local, state, and federal agencies; academia, including the
 7.15 University of Minnesota; the state pollinator bank; or other professionals as deemed necessary
 7.16 by the commissioner. The amount necessary for the purposes of this paragraph, not to exceed
 7.17 \$100,000 per fiscal year, is appropriated from the pesticide regulatory account in section
 7.18 18B.05.

7.19 (c) The commissioner may engage the University of Minnesota and others in conducting
 7.20 research and demonstration projects related to treated seed, and developing recommended
 7.21 best management practices for the use of treated seed.

7.22 Sec. 13. Minnesota Statutes 2016, section 18B.26, subdivision 1, is amended to read:

7.23 Subdivision 1. **Requirement.** (a) Except as provided in paragraphs (b) to ~~(d)~~ (e), a person
 7.24 may not use or distribute a pesticide in this state unless it is registered with the commissioner.
 7.25 Pesticide registrations expire on December 31 of each year and may be renewed on or before
 7.26 that date for the following calendar year.

7.27 (b) Registration is not required if a pesticide is shipped from one plant or warehouse to
 7.28 another plant or warehouse operated by the same person and used solely at the plant or
 7.29 warehouse as an ingredient in the formulation of a pesticide that is registered under this
 7.30 chapter.

8.1 (c) An unregistered pesticide that was previously registered with the commissioner may
8.2 be used for a period of two years following the cancellation of the registration of the pesticide,
8.3 unless the commissioner determines that the continued use of the pesticide would cause
8.4 unreasonable adverse effects on the environment, or with the written permission of the
8.5 commissioner. To use the unregistered pesticide at any time after the two-year period, the
8.6 pesticide end user must demonstrate to the satisfaction of the commissioner, if requested,
8.7 that the pesticide has been continuously registered under a different brand name or by a
8.8 different manufacturer and has similar composition, or, the pesticide end user obtains the
8.9 written permission of the commissioner.

8.10 (d) The commissioner may allow specific pesticide products that are not registered with
8.11 the commissioner to be distributed in this state for use in another state.

8.12 (e) A substance or mixture of substances being tested only to determine its potential
8.13 efficacy as a pesticide, or to determine its toxicity or other properties, and not requiring the
8.14 issuance of an experimental use permit under United States Environmental Protection
8.15 Agency criteria specified in federal regulations, is not required to be registered.

8.16 ~~(e)~~ (f) Each pesticide with a unique United States Environmental Protection Agency
8.17 pesticide registration number or a unique brand name must be registered with the
8.18 commissioner.

8.19 ~~(f)~~ (g) It is unlawful for a person to distribute or use a pesticide in the state, or to sell
8.20 into the state for use in the state, any pesticide product that has not been registered by the
8.21 commissioner and for which the applicable pesticide registration application fee, gross sales
8.22 fee, or waste pesticide program surcharge is not paid pursuant to subdivisions 3 and 4.

8.23 ~~(g)~~ (h) Every person who sells for use in the state a pesticide product that has been
8.24 registered by the commissioner shall pay to the commissioner the applicable registration
8.25 application fees, sales fees, and waste pesticide program surcharges. These sales expressly
8.26 include all sales made electronically, telephonically, or by any other means that result in a
8.27 pesticide product being shipped to or used in the state. There is a rebuttable presumption
8.28 that pesticide products that are sold or distributed in or into the state by any person are sold
8.29 or distributed for use in the state.

8.30 Sec. 14. Minnesota Statutes 2016, section 18B.28, subdivision 1, is amended to read:

8.31 Subdivision 1. **Requirement.** A person may not use or distribute an experimental use
8.32 pesticide product in the state until it is registered with the commissioner. Experimental use
8.33 pesticide product registrations expire on December 31 of each year and may be renewed

9.1 on or before that date. A substance or mixture of substances being tested only to determine
 9.2 its potential efficacy as a pesticide, or to determine its toxicity or other properties, and not
 9.3 requiring the issuance of an experimental use permit under United States Environmental
 9.4 Protection Agency criteria specified in federal regulations, is not required to be registered.

9.5 Sec. 15. Minnesota Statutes 2016, section 18B.28, subdivision 3, is amended to read:

9.6 Subd. 3. **Application.** A person must file an application for experimental use pesticide
 9.7 product registration with the commissioner. An application to register an experimental use
 9.8 pesticide product must include:

9.9 (1) the name and address of the applicant;

9.10 (2) a ~~federal~~ copy of the United States Environmental Protection Agency approval
 9.11 document permit;

9.12 (3) a description of the purpose or objectives of the experimental use product;

9.13 (4) ~~an~~ a copy of the experimental use pesticide labeling accepted experimental use
 9.14 pesticide product label by the United States Environmental Protection Agency;

9.15 (5) the name, address, and telephone number of cooperators or participants in this state;

9.16 (6) the amount of material to be shipped or used in this state; and

9.17 (7) other information requested by the commissioner.

9.18 Sec. 16. Minnesota Statutes 2016, section 18B.305, subdivision 1, is amended to read:

9.19 Subdivision 1. **Education and training.** (a) The commissioner, as the lead agency, shall
 9.20 develop, implement or approve, and evaluate, in consultation with University of Minnesota
 9.21 Extension, the Minnesota State Colleges and Universities system, and other educational
 9.22 institutions, innovative educational and training programs addressing pesticide and pest
 9.23 management concerns including:

9.24 (1) water quality protection;

9.25 (2) endangered species protection;

9.26 (3) minimizing pesticide residues in food and water;

9.27 (4) worker protection and applicator safety;

9.28 (5) chronic toxicity;

9.29 (6) integrated pest management and pest resistance;

10.1 (7) pesticide disposal;

10.2 (8) pesticide drift;

10.3 (9) treated seed;

10.4 ~~(9)~~ (10) relevant laws including pesticide labels and labeling and state and federal rules
10.5 and regulations; and

10.6 ~~(10)~~ (11) current science and technology updates.

10.7 (b) The commissioner shall appoint educational planning committees which must include
10.8 representatives of industry and applicators.

10.9 (c) Specific current regulatory concerns must be discussed and, if appropriate,
10.10 incorporated into each training session. Relevant changes to pesticide product labels or
10.11 labeling or state and federal rules and regulations may be included.

10.12 (d) The commissioner may approve programs from private industry, higher education
10.13 institutions, and nonprofit organizations that meet minimum requirements for education,
10.14 training, and certification.

10.15 Sec. 17. **[18B.306] TREATED SEED DISTRIBUTOR ENROLLMENT AND**
10.16 **REPORTING.**

10.17 Subdivision 1. Requirement. (a) A treated seed distributor must not distribute treated
10.18 seed for use in the state without first enrolling with the commissioner pursuant to subdivision
10.19 4.

10.20 (b) Each location or place of business from which a treated seed distributor distributes
10.21 treated seed for use in the state is required to have a separate treated seed distributor
10.22 enrollment.

10.23 Subd. 2. Exemption. A person who is a treated seed dealer or treated seed end user
10.24 under this chapter is exempt from the requirement of subdivision 1.

10.25 Subd. 3. Enrollment. A treated seed distributor's enrollment certification:

10.26 (1) is issued by the commissioner upon receipt and review of a completed initial or
10.27 renewal application;

10.28 (2) is valid for one year and expires on January 31 of each year;

10.29 (3) is not transferable from one location or place of business to another location or place
10.30 of business; and

11.1 (4) must be maintained at the treated seed distributor's place of business.

11.2 Subd. 4. **Application.** (a) A person must apply for enrollment of a treated seed distributor
11.3 location to the commissioner on forms and in a manner approved by the commissioner.

11.4 (b) The applicant must be the person in charge of each location or place of business from
11.5 which treated seed is distributed for use in the state.

11.6 (c) The commissioner may require that the applicant provide other information considered
11.7 pertinent by the commissioner.

11.8 (d) An enrolled treated seed distributor who changes the distributor's name, address, or
11.9 place of business must immediately notify the commissioner of the change.

11.10 (e) Beginning January 31, 2019, an application for renewal of a treated seed enrollment
11.11 is complete only when a satisfactory report under subdivision 6 is received by the
11.12 commissioner.

11.13 Subd. 5. **Records.** A person enrolled as a treated seed distributor must maintain for five
11.14 years at the person's principal place of business accurate records of distributions for use in
11.15 the state of treated seed, including those of its branch locations. The records shall be made
11.16 available for audit under this chapter and chapter 18D.

11.17 Subd. 6. **Report of treated seed distribution to commissioner.** A person who is a
11.18 treated seed distributor who distributes for use in the state treated seed shall, no later than
11.19 January 31 of each year, report to commissioner:

11.20 (1) the amount and type of each agricultural pesticide used to produce treated seed
11.21 distributed for use in the state. The commissioner shall specify the form of the report or

 42.5 raw milk for pasteurization or for manufacture is received, handled, or prepared for
 42.6 processing or for resale as unpasteurized milk or fluid milk products.

42.7 Subd. 13. **Minnesota farmstead cheese.** "Minnesota farmstead cheese" means cheese
 42.8 manufactured in Minnesota on the same farm that the milk used in its manufacturing is
 42.9 produced.

42.10 Subd. 14. **Misbranded or misbranding.** "Misbranded" or "misbranding" means an item
 42.11 is covered by section 34A.03.

42.30 Sec. 3. **[32D.02] INSPECTION AUTHORITY AND DUTIES.**

42.31 Subdivision 1. **Enforcement.** The commissioner is charged with the enforcement of this
 42.32 chapter.

43.1 Subd. 2. **Power and authority.** For the purpose of enforcing this chapter, the
43.2 commissioner and the commissioner's assistants, agents, and employees have the power
43.3 and authority granted under sections 31.02 to 31.171.

43.4 Subd. 3. **Inspection of dairies.** At times the commissioner determines proper, the
43.5 commissioner shall inspect all places where dairy products are made, stored, or served as
43.6 food for purchase, and all places where hoofed mammals are kept by persons engaged in
43.7 the sale of milk, and shall require the correction of all unsanitary conditions and practices.

43.8 Subd. 4. **Refusal of inspection.** A refusal or physical threat that prevents the completion
43.9 of an inspection or neglect to obey a lawful direction of the commissioner or the
43.10 commissioner's agent given while carrying out this section may result in the suspension of
43.11 the offender's permit or certification or other enforcement as deemed appropriate by the
43.12 commissioner. The offender is required to meet with a representative of the offender's plant
43.13 or marketing organization and a representative of the commissioner within 48 hours of
43.14 receiving notice, excluding holidays or weekends, or the suspension or enforcement action
43.15 shall take effect. A producer may request a hearing before the commissioner or the
43.16 commissioner's agent if a serious concern exists relative to the retention of the offender's
43.17 permit or certification to sell milk.

43.18 Subd. 5. **Inspection service.** To ensure compliance with the laws and rules governing
43.19 the production, handling, processing, and sale of milk and dairy products, the commissioner
43.20 is authorized, through a duly trained and qualified milk inspector, to inspect milk and milk
43.21 products and the premises and plants where milk and milk products are produced, handled,
43.22 and processed. Inspection services must acquaint the processor and producers with the
43.23 requirements for a Grade A or manufacturing grade milk supply for preliminary inspection
43.24 to determine if a processor has brought the processor's farms and plants to the state of
43.25 compliance that qualifies the processor's products for the Grade A or manufacturing grade
43.26 label, and for continuous inspection to ensure that a farm or plant and all products from a
43.27 farm or plant are in compliance with this chapter.

43.28 Subd. 6. **Field service.** Grade A or manufacturing grade processors shall provide a
43.29 continuous field service to assist producers who sell their milk to the processor's plant to
43.30 attain and maintain compliance with this chapter. A person who performs field service must
43.31 first obtain a permit from the commissioner. A person desiring to secure a permit must apply
43.32 on a form provided by the commissioner, and before a permit is issued the commissioner
43.33 shall determine that the applicant is competent and qualified to perform field service. The
43.34 permit is not transferable to another person and may be revoked for due cause after the
43.35 holder of the permit has been given the opportunity for a hearing. The permit holder must

44.1 be given a notice in writing of the time and place of the hearing at least seven days before
44.2 the date of the hearing.

44.3 Subd. 7. **Enforcement standards.** The standards in this chapter and rules adopted under
44.4 this chapter by the commissioner shall be the only standards for use in Minnesota. No
44.5 municipality or other subdivision of state government shall provide, by ordinance, more
44.6 stringent or comprehensive standards than are contained in this chapter and rules adopted
44.7 by the commissioner under this chapter.

44.8 Subd. 8. **Rules.** (a) The commissioner shall by rule adopt identity, production, and
44.9 processing standards for both Grade A and manufacturing grade milk and dairy products.

44.10 (b) In the exercise of the authority to establish requirements for Grade A milk and milk
44.11 products, the commissioner adopts definitions, standards of identity, and requirements for
44.12 production and processing contained in the most current version of the Grade A Pasteurized
44.13 Milk Ordinance, and its associated documents, of the United States Department of Health
44.14 and Human Services in a manner provided for and not in conflict with law.

44.15 (c) Producers of milk, other than Grade A, shall conform to the standards contained in
44.16 subparts B, C, D, E, and F of the United States Department of Agriculture Agricultural
44.17 Marketing Service Recommended Requirements for Milk for Manufacturing Purposes and
44.18 its Production and Processing, except that the commissioner shall develop methods by which
44.19 producers are able to comply with the standards without violation of religious beliefs.

44.20 Subd. 9. **Certified industry inspection.** Industry personnel may be certified to perform
44.21 any inspection, to the extent allowed by federal law and provided that performance of the
44.22 inspections is consistent with rules adopted in subdivision 8.

44.23 Subd. 10. **Fees; dairy services account.** (a) All fees and penalties collected under this
44.24 chapter shall be deposited into the dairy services account in the agricultural fund and used
44.25 for the purposes of administering this chapter.

44.26 (b) Unless otherwise noted, all fees are payable by a processor or marketing organization
44.27 and are invoiced on July 1 of each year for Grade A and January 1 of each year for
44.28 manufacturing grade, and if not paid within 30 days of the due date, inspection service may
44.29 be discontinued. If a farm discontinues the production of milk within six months of the
44.30 billing date, a request for a refund based on inspection services not received may be made
44.31 by the processor or by the marketing organization on behalf of its patrons. This request must
44.32 be made in writing by June 30 for manufacturing grade or by December 31 for Grade A.
44.33 Upon approval by the commissioner, refunds must be made to the processor or marketing
44.34 organization.

45.1 Sec. 4. **[32D.03] BULK MILK HAULER AND SAMPLER LICENSE.**

45.2 Subdivision 1. License requirement. A person collecting milk from a dairy farm and
45.3 transporting the milk by bulk pickup and not in individual containers from farm to plant
45.4 must obtain a bulk milk hauler and sampler license.

45.5 Subd. 2. Application. A person desiring to secure a bulk milk hauler and sampler license
45.6 must apply on a form provided by the commissioner. Before the license is issued, the
45.7 commissioner shall determine that the applicant is competent and qualified.

45.8 Subd. 3. Term of license; transferability. An initial bulk milk hauler and sampler
45.9 license issued by the commissioner expires on the following December 31 and is not
45.10 transferable. A renewal bulk milk hauler and sampler license is not transferable, is valid for
45.11 two years, and expires on December 31 of the second year.

45.12 Subd. 4. Fees and penalties. The fee for an initial or renewal bulk milk hauler and
45.13 sampler license is \$60. The fee shall be paid to the commissioner before the commissioner
45.14 issues an initial or renewal bulk milk hauler and sampler license. If a bulk milk hauler and
45.15 sampler license renewal is not applied for on or before January 1, a fee of \$30 shall be
45.16 imposed. A person who does not renew a bulk milk hauler and sampler license within one
45.17 year following its December 31 expiration date, except those persons who do not renew the
45.18 bulk milk hauler and sampler license while engaged in active military service, shall be
45.19 required to prove competency and qualification pursuant to section 32D.07 before a bulk
45.20 milk hauler and sampler license is issued. The commissioner may require any other person
45.21 who renews a bulk milk hauler and sampler license to prove competency and qualification
45.22 in the same manner.

45.23 Subd. 5. Suspension or cancellation. The commissioner is empowered to conduct
45.24 enforcement action, suspend, or cancel any bulk milk hauler and sampler license pursuant
45.25 to section 34A.06.

45.27 All farm bulk milk pickup tankers, milk transports, and tankers used to transport milk
45.28 products must be inspected and obtain a permit issued by the commissioner at least once
45.29 every 12 months. The owner or operator must pay a \$25 permit fee per tanker to the
45.30 commissioner. The commissioner may appoint a person the commissioner deems qualified
45.31 to make inspections.

46.1 Sec. 6. **[32D.05] GRADE A DAIRY FARM PERMITTING; WATER WELL**
46.2 **DISTANCE REQUIREMENT.**

46.3 (a) No milk producer may sell or distribute milk from a dairy farm as Grade A milk
46.4 without a valid Grade A dairy farm permit issued by the commissioner.

46.5 (b) A dairy farmer who wishes to be permitted to produce Grade A milk may not be
46.6 denied the Grade A permit solely because of provisions in rules adopted by the commissioner
46.7 requiring a minimum distance between a water well and dairy farm. To be eligible for a
46.8 Grade A permit, the following conditions must be met:

46.9 (1) the water well must have been in place prior to January 1, 1974;

46.10 (2) the water well must comply with all other rules applicable to the well, other than the
46.11 distance requirement; and

46.12 (3) water from the well must be tested at least once every 12 months. More frequent
46.13 testing may be required in compliance with guidelines established by the commissioner if
46.14 water test results fail to meet water quality requirements.

46.15 Sec. 7. **[32D.06] GRADE A DAIRY FARM INSPECTION; FEES.**

46.16 (a) As provided in section 32D.02, subdivision 4, the commissioner shall provide
46.17 inspection service to any milk producer who wishes to market Grade A milk and is in
46.18 compliance with the requirement for the production of Grade A milk. Grade A inspections
46.19 shall be completed at least once every six months.

46.20 (b) The fee for inspections must be no more than \$50 per farm, paid annually by the
46.21 processor or by the marketing organization on behalf of its patrons.

46.22 (c) For a farm requiring a reinspection in addition to the required biannual inspections,
46.23 an additional fee must be paid by the processor or by the marketing organization on behalf
46.24 of its patrons. The fee for reinspection of a farm with fewer than 100 hooved milk-producing
46.25 animals is \$60 per reinspection. The fee for reinspection of a farm with 100 or more hooved
46.26 milk-producing animals is \$150 per reinspection.

46.27 Sec. 8. **[32D.07] MANUFACTURING GRADE DAIRY FARM CERTIFICATION.**

46.28 A producer who wishes to sell milk for manufacturing purposes must obtain from the
46.29 commissioner an annual Grade B farm certification.

47.5 be paid annually by the processor or the marketing organization on behalf of its patrons.

47.6 (c) For a producer requiring more than one inspection for certification, a reinspection
47.7 fee of \$45 must be paid by the processor or by the marketing organization on behalf of its
47.8 patrons.

47.9 Sec. 10. **[32D.09] DAIRY PLANT LICENSING AND PERMITTING.**

47.11 28A.04.

47.12 Subd. 2. **Permitting.** No person shall operate a dairy plant in this state unless the dairy
47.13 plant, equipment, and water supply and plumbing system have been first approved by the
47.14 commissioner and a permit issued to operate the same. A permit may be revoked by the
47.15 commissioner for due cause pursuant to section 34A.06.

47.16 Subd. 3. **Approval.** At the time of filing the application for a permit, the applicant shall
47.17 submit to the commissioner duplicate floor plans of the plant that show the placement of
47.18 equipment, the source of water supply and method of distribution, a detailed pasteurization
47.19 flow chart, and the location of the plumbing system, including the disposal of wastes. New
47.20 construction or alteration of an existing dairy plant shall be made only with the approval of
47.21 the commissioner and duplicate plans for the construction or alteration shall be submitted
47.22 to the commissioner for approval. The fee for approval services is \$45 per hour of department
47.23 staff time spent in the approval process.

47.24 Subd. 4. **Farmstead cheese.** (a) The commissioner or the commissioner's designee shall
47.25 issue an additional permit to a dairy plant that desires to use the name "Minnesota farmstead
47.26 cheese" upon application made by the dairy plant for use of the name, provided the cheese
47.27 meets the definition in section 32D.01, subdivision 13.

47.28 (b) No cheese or packaged cheese that is sold, offered or exposed for sale, or held in
47.29 possession with intent to sell at either retail or wholesale in this state may be labeled or
47.30 described as "Minnesota farmstead cheese" unless it meets the criteria in section 32D.01,
47.31 subdivision 13, and the manufacturer has obtained the designated permit.

48.1 Sec. 11. [32D.10] INSPECTIONS.

48.2 (a) Inspections of Grade A plants must be completed at least once every three months.
48.3 A pasteurization plant requesting Grade A inspection must pay an annual inspection fee of
48.4 no more than \$500.

48.5 (b) Inspections of manufacturing plants that process milk or milk products other than
48.6 Grade A must be completed at least once every six months. A manufacturing plant that
48.7 pasteurizes milk or milk by-products must pay an annual fee based on the number of
48.8 pasteurization units. The fee must not exceed \$140 per unit.

48.9 Sec. 12. [32D.11] PROCUREMENT FEE.

48.10 A dairy plant operator in this state must pay to the commissioner on or before the 18th
48.11 of each month a fee of 1.1 cents per hundredweight of milk purchased the previous month.
48.12 If a milk producer in this state ships milk out of the state for sale, the producer must pay
48.13 the fee to the commissioner unless the purchaser voluntarily pays the fee. Producers who
48.14 ship milk out of state and processors must submit to the commissioner monthly reports
48.15 related to milk purchases along with the appropriate procurement fee. The commissioner
48.16 shall have access to all relevant purchase or sale records as necessary to verify compliance

48.20 (a) A manufacturer must pay to the commissioner a fee for fluid milk processed and
48.21 milk used in the manufacture of fluid milk products sold for retail sale in Minnesota in an
48.22 amount not less than five cents and not more than nine cents per hundredweight as set by
48.23 the commissioner's order. No change within any 12-month period may be in excess of one
48.24 cent per hundredweight.

48.25 (b) A processor must report quantities of milk processed under paragraph (a) on forms
48.26 provided by the commissioner. Processor fees must be paid monthly. The commissioner
48.27 may require the production of records as necessary to determine compliance with this
48.28 paragraph.

48.29 (c) The commissioner may create within the department a dairy consulting program to
48.30 provide assistance to dairy producers who are experiencing problems meeting the sanitation
48.31 and quality requirements of the dairy laws and rules. The commissioner may use money

49.1 appropriated from the dairy services account to pay for the program authorized in this
49.2 paragraph.

49.3 **Sec. 14. [32D.13] MILK QUALITY STANDARDS.**

49.4 **Subdivision 1. Visible adulteration or odors.** Milk shall not be visibly adulterated, or
49.5 have any objectionable odor, or be abnormal in appearance or consistency.

49.6 **Subd. 2. Grade A raw milk.** (a) The bacterial count of Grade A raw milk from producers
49.7 must not exceed 100,000 bacteria per milliliter prior to commingling with other producer

49.21 milk other than Grade A pasteurized milk, at any time after pasteurization until delivery,
49.22 must not exceed 20,000 bacteria per milliliter.

49.23 **Subd. 6. Exceptions.** Bacterial count standards do not apply to sour cream, cultured
49.24 buttermilk, and other cultured fluid milk products.

50.4 hours after the most recent milking, the temperature of the milk shall not exceed 45 degrees
50.5 Fahrenheit (7 degrees Celsius). If the milk consists of a blend of milk from two or more
50.6 milking, and the milk is received or collected less than two hours after the most recent
50.7 milking, the blend temperature shall not exceed 50 degrees Fahrenheit (10 degrees Celsius).

50.8 Subd. 10. **Industry enforcement.** A dairy plant is not required to reject milk shipments
50.9 in response to a violation of subdivisions 2 to 9 unless the commissioner suspends or revokes
50.10 the dairy plant permit or milk producer's Grade A permit or manufacturing grade certification.

50.11 **Sec. 15. [32D.14] OFFICIAL PRODUCER SAMPLES.**

50.12 (a) An official producer sample for each producer must be analyzed for bacteria, somatic
50.13 cell count, temperature, and antibiotic residues at least once per month in four out of every

50.21 producer must report to the commissioner at least one representative test result for bacteria,
50.22 somatic cell count, temperature, and antibiotic residues. The result shall be reported within
50.23 seven days after the laboratory obtains the test results.

50.24 (b) A laboratory that performs the tests required under this section for a dairy plant may
50.25 report the test results for the dairy plant.

50.26 (c) A dairy plant or laboratory shall report test results under this section in an electronic
50.27 form approved by the department or using an approved alternative.

50.28 **Sec. 17. [32D.16] ENFORCEMENT.**

50.29 The commissioner shall suspend a producer's permit or certification if three of the last
50.30 five official producer samples exceed the applicable standard. The commissioner shall

51.1 provide warning of a pending suspension when two of the last four producer samples exceed
 51.2 the applicable standard.

51.3 **Sec. 18. [32D.17] LABORATORY CERTIFICATION.**

51.4 (a) A laboratory and its methods are required to be approved or certified prior to testing
 51.5 Grade A milk samples. The results of approved or certified laboratories may be used by
 51.6 official regulatory agencies in enforcement of requirements for milk and milk products. The
 51.7 approval or certification remains valid unless suspended or revoked by the commissioner
 51.8 for failure to comply with the requirements of this chapter.

51.9 (b) Certified or approved laboratories must receive a permit from the commissioner.
 51.10 The permit remains valid without renewal unless suspended or revoked by the commissioner

 51.16 following suspension or revocation of a permit, shall be accompanied by an annual fee
 51.17 based on the number of analyses approved and the number of specific tests for which they
 51.18 are approved. The fee must not be less than \$150 nor more than \$200 for each analysis
 51.19 approved and not less than \$35 nor more than \$50 for each test approved. The commissioner
 51.20 may annually adjust assessments within the limits established by this subdivision to meet

52.5 Subd. 2. **Apparatus to conform to specifications.** Glassware, test bottles, pipettes, acid
 52.6 measures, chemicals, scales, and other apparatus used in the operation of these tests shall
 52.7 conform to the specifications for the particular test method.

52.8 Subd. 3. **Penalties for violations.** A person who:

52.9 (1) employs any test other than those tests authorized by rule adopted by the
 52.10 commissioner, or any methods other than the standard official methods for determining the
 52.11 milk fat content of milk or cream;

52.12 (2) incorrectly samples milk or cream purchased or sold;

52.13 (3) incorrectly weighs milk or cream purchased or sold;

52.14 (4) incorrectly grades milk or cream purchased or sold;

52.15 (5) makes a false entry of the weight, test result, or grade of any milk or cream purchased
 52.16 or sold;

52.17 (6) incorrectly samples, weighs, tests, or records or reports weights or tests of skim milk
 52.18 or buttermilk purchased or sold;

52.19 (7) underreads the tests;

52.20 (8) falsifies the reading of the tests;

52.21 (9) manipulates the reading of the tests; or

52.22 (10) falsely states, certifies, or uses in the purchase or sale of milk or cream a misreading
 52.23 of such tests, whether the tests or actual reading have been made by the person or by any
 52.24 other person,

52.25 is guilty of a misdemeanor.

52.26 **Sec. 20. [32D.19] ADULTERATED DAIRY PRODUCTS.**

52.27 Subdivision 1. **Purchase and sale prohibition.** A person may not sell or knowingly
 52.28 buy adulterated dairy products.

52.29 Subd. 2. **Manufacture of food for human consumption from adulterated milk or**
 52.30 **cream prohibited.** An article of food for human consumption may not be manufactured

53.1 from adulterated milk or cream, except as provided in the Federal Food, Drug, and Cosmetic
53.2 Act, United States Code, title 21, section 301 et seq., and related federal regulations.

53.3 Subd. 3. **Adulterated milk.** For purposes of this section, milk is adulterated if it:

53.4 (1) is drawn in a filthy or unsanitary place;

53.5 (2) is drawn from unhealthy or diseased animals;

53.6 (3) is drawn from animals that are fed garbage or an unwholesome animal or vegetable
53.7 substance;

53.8 (4) is drawn from animals within two days after birthing;

53.9 (5) contains water in excess of that normally found in milk;

53.10 (6) contains a substance that is not a normal constituent of the milk except as allowed
53.11 in this chapter; or

53.12 (7) contains drug residues or other chemical or biological substances in amounts above
53.13 the tolerances or safe levels established by rule.

53.14 Subd. 4. **Drug residues.** (a) Before processing milk, all bulk milk pickup tankers must
53.15 be tested for the presence of beta lactam drug residues and for other residues as determined
53.16 necessary by the commissioner. Milk received from a producer in other than a bulk milk
53.17 pickup tanker is also subject to this section.

53.18 (b) Bulk milk tankers that confirm positive for beta lactam drug residues or other residues
53.19 must follow up with producer sample testing of all producers contained on the positive load.

53.20 (c) Individual producer samples must be tested for the presence of beta lactam drug
53.21 residues at least once a month for four out of every six-month period. Results of these tests
53.22 must be reported to the commissioner as official producer sample results using established
53.23 electronic reporting procedures.

53.24 (d) Drug residue testing methods must be those approved by the Food and Drug
53.25 Administration (FDA) and the National Conference of Interstate Milk Shipments or listed
53.26 in the FDA's current version of M-a-85.

53.27 (e) All drug residue samples testing positive must be reported to the commissioner or
53.28 the commissioner's designee within 24 hours. The report must include how and where the
53.29 milk was disposed of, and the volume, the responsible producer, and the possible cause of
53.30 the violative residue. All milk sample residue results must be recorded and retained for six
53.31 months by the receiving plant for examination by the commissioner or the commissioner's
53.32 designee.

54.1 Subd. 5. Penalties. (a) The permit or certification of a milk producer identified as having
54.2 a positive drug residue is immediately suspended. The producer must not ship milk while
54.3 the permit or certification is suspended.

54.4 (b) The producer's permit or certification may be reinstated after being sampled by the
54.5 commissioner or the commissioner's designee and testing negative on the sample.

54.6 (c) A milk producer may not change plants within 30 days, without permission of the
54.7 commissioner, after receiving notification from the commissioner of a residue violation.

54.8 (d) The producer that is identified with the drug residue violation is responsible for the
54.9 value of all milk on any load that tests positive for drug residues and any costs associated
54.10 with its disposal. Payment shall be made to the purchaser of the milk.

54.11 (e) For the first and second violation within a 12-month period, the dairy producer must,
54.12 within 30 days of the date of the residue:

54.13 (1) meet with the dairy inspector to review potential causes of the adulteration; and

54.14 (2) complete the designated drug residue prevention educational program with a licensed
54.15 veterinarian and submit the signed certificate to the commissioner.

54.16 (f) Failure to comply with the requirements for the first and second violation listed in
54.17 paragraph (e) may result in suspension of the producer's permit or certification until the
54.18 conditions in paragraph (e) are met.

54.19 (g) For the third or subsequent violation within a 12-month period, the commissioner
54.20 may initiate proceedings for further enforcement action, that may include a penalty of up
54.21 to a 30-day permit or certification suspension. In lieu of a suspension, the producer may be
54.22 assessed an administrative penalty of up to \$1,000 or the value of milk sold during the
54.23 intended suspension period.

54.24 Subd. 6. Other forms of adulteration. A milk producer who violates subdivision 3 is
54.25 subject to any of the following penalties:

54.26 (1) the permit or certification of a milk producer identified as having adulterated milk
54.27 is immediately suspended. The producer may not ship milk while the permit or certification
54.28 is suspended;

54.29 (2) the producer that is identified with the adulterated milk violation is responsible for
54.30 the value of all milk on any load that is contaminated by the adulterant and any costs
54.31 associated with its disposal. Payment shall be made to the purchaser of the milk;

55.1 (3) the producer's permit or certification may be reinstated after the commissioner receives
55.2 adequate verification that the milk is no longer adulterated; and

55.3 (4) the commissioner may, after evaluation of the severity and repetitive nature of the
55.4 adulteration, initiate additional enforcement action in the form of permit or certification
55.5 suspension for up to 30 days or in lieu of suspension, an administrative penalty of up to
55.6 \$1,000, or the value of the milk sold during the intended suspension period for each violation.

55.7 Subd. 7. **Civil penalty.** A person other than a milk producer who causes milk to be
55.8 adulterated is subject to a civil penalty of up to \$1,000.

55.9 Subd. 8. **Appeals.** A dairy producer may appeal an adulteration violation by sending
55.10 written notice to the commissioner within ten days of receipt of the notice of a violation.
55.11 The appeal must contain a description of why the producer wishes to appeal the violation.

55.12 Sec. 21. **[32D.20] LIMITATION ON SALE.**

55.13 Subdivision 1. **Pasteurization.** No milk or fluid milk products shall be sold, offered or
55.14 exposed for sale, or held in possession for sale for the purpose of human consumption in
55.15 fluid form in this state unless the milk or fluid milk product has been pasteurized and cooled,
55.16 as defined in section 32D.01, subdivision 15, provided that this section shall not apply to
55.17 milk, cream, or skim milk occasionally secured or purchased for personal use by a consumer
55.18 at the place or farm where the milk is produced.

55.19 Subd. 2. **Labels.** (a) Pasteurized milk or fluid milk products offered or exposed for sale
55.20 or held in possession for sale shall be labeled or otherwise designated as pasteurized milk
55.21 or pasteurized fluid milk products, and in the case of fluid milk products the label shall also
55.22 state the name of the specific product.

55.23 (b) Milk and dairy products must be labeled with the plant number where the product
55.24 was produced, or if produced in a state where official plant numbers are not assigned, the
55.25 name of the manufacturer and the address of the plant where it was manufactured.

55.26 Sec. 22. **[32D.21] COOLING AFTER PASTEURIZATION.**

55.27 Immediately following pasteurization, all milk and fluid milk products shall be cooled
55.28 in properly operated equipment approved by the commissioner to a temperature of 45 degrees
55.29 Fahrenheit or lower, and maintained at 45 degrees Fahrenheit or lower until delivered;
55.30 provided, however, that if the milk or fluid milk product is to be cultured immediately after
55.31 pasteurization, then cooling may be delayed until after the culturing process is completed;

56.1 provided further that the commissioner may prescribe by rule standards more stringent than
56.2 those imposed by this section.

56.3 Sec. 23. **[32D.22] MANUFACTURE OF CHEESE; REQUIREMENTS IN PROCESS.**

56.4 No person, firm, or corporation shall manufacture, transport, sell, offer, or expose for
56.5 sale or have in possession with intent to sell at retail to a consumer any cheese that has not
56.6 been (1) manufactured from milk or milk products that have been pasteurized; (2) subjected
56.7 to a heat treatment equivalent to pasteurization during the process of manufacturing or
56.8 processing; or (3) subjected to an aging process where it has been kept for at least 60 days
56.9 after manufacture at a temperature no lower than 35 degrees Fahrenheit.

56.10 Sec. 24. **[32D.23] RECOMBINANT BOVINE GROWTH HORMONE LABELING.**

56.11 Subdivision 1. **Labeling.** Products offered for wholesale or retail sale in this state that
56.12 contain milk, cream, or any product or by-product of milk or cream that have been processed
56.13 and handled pursuant to this section may be labeled with an rBGH statement that is not
56.14 false or misleading and in accordance with the federal labeling standards. Products offered
56.15 for wholesale or retail sale in this state need not contain any further label information relative
56.16 to the use of rBGH in milk production.

56.17 Subd. 2. **Affidavit; records.** (a) A dairy plant purchasing milk or cream to be used in
56.18 products labeled with rBGH claims pursuant to subdivision 1 must provide an affidavit
56.19 from each producer that states that all cows used in the producer's dairy operations have
56.20 not and will not be treated with rBGH, without advanced written notice of at least 30 days.

56.21 (b) The affidavit must be signed by the producer or authorized representative. Affidavits
56.22 must be kept on file for not less than two years after receiving written notice that rBGH use
56.23 status will change.

56.24 (c) If a plant chooses to process and handle only milk or milk products sourced from
56.25 cows who have not been treated with rBGH, the plant, as an alternative to providing
56.26 individual producer affidavits, may provide one affidavit to certify that the plant has
56.27 procedures in place to verify that all producers are not using rBGH. A copy of the written
56.28 procedure that describes this verification process must also be provided with the plant
56.29 affidavit.

56.30 (d) All affidavits and corresponding records must be available for inspection by the
56.31 commissioner.

57.1 (e) Dairy plants supplying milk or cream to a processor or manufacturer of a product to
 57.2 be labeled pursuant to subdivision 1, for use in that product, shall supply a certification to
 57.3 that processor or manufacturer stating that producers of the supplied milk or cream have
 57.4 executed and delivered affidavits pursuant to this subdivision.

57.5 Subd. 3. **Separation of nontreated cows and milk.** Milk or cream from
 57.6 non-rBGH-treated cows used in manufacturing or processing of products labeled pursuant
 57.7 to subdivision 1 must be kept fully separate from any other milk or cream through all stages
 57.8 of storage, transportation, and processing until the milk or resulting dairy products are in
 57.9 final packaged form in a properly labeled container. Records of the separation must be kept
 57.10 by the dairy plant and product processor or manufacturer at all stages and made available
 57.11 to the commissioner for inspection.

57.12 Sec. 25. **[32D.24] DAIRY TRADE PRACTICES; DEFINITIONS.**

57.13 Subdivision 1. **Application.** The definitions in this section apply to sections 32D.24 to

18B.01 DEFINITIONS.

Subd. 10a. **Genetic engineering.** "Genetic engineering" means the modification of the genetic composition of an organism using molecular techniques. This does not include selective breeding, hybridization, or nondirected mutagenesis.

Subd. 10b. **Genetically engineered pesticide.** "Genetically engineered pesticide" means an organism that has been modified through the use of genetic engineering, intended to prevent, destroy, repel, or mitigate a pest, and an organism that has been modified through the use of genetic engineering, intended for use as a plant regulator, defoliant, or desiccant.

Subd. 22a. **Release.** "Release" means the placement or use of a genetically engineered organism outside a contained laboratory, greenhouse, building, structure, or other similar facility or under other conditions not specifically determined by the commissioner to be adequately contained.

**18B.285 EXPERIMENTAL GENETICALLY ENGINEERED PESTICIDE
PRODUCT REGISTRATION.**

Subdivision 1. **Requirement.** (a) A person may not use, distribute, or conduct release experiments with a genetically engineered pesticide in any amount in the state until it is registered under this section or section 18B.26. Use, distribution, or release of a genetically engineered pesticide must be registered under this section until the commissioner determines by rule or order that the genetically engineered pesticide may be subject to section 18B.26. Experimental genetically engineered pesticide product registrations expire on December 31 of each year and may be renewed on or before that date.

(b) After reviewing a completed application, the commissioner may issue an experimental genetically engineered pesticide product registration if the commissioner determines that the applicant has adequately demonstrated that the proposed release does not have the potential for unreasonable adverse effects on the environment. The commissioner may prescribe terms and conditions, including, but not limited to, the period for the experimental genetically engineered pesticide product registration, the amount or number of genetically engineered pesticide product to be used, monitoring activities, department inspection schedules, reporting of experiment results, and experiment termination procedures. A person may not violate terms or conditions of a registration issued under this section. After an experimental genetically engineered pesticide product registration is issued, the commissioner may revoke or change the registration at any time if the commissioner finds that its terms or conditions are being violated or are inadequate to avoid unreasonable adverse effects on the environment.

(c) The commissioner may deny issuance of an experimental genetically engineered pesticide product registration if the commissioner determines that the use to be made of the pesticide under the proposed terms and conditions may cause unreasonable adverse effects on the environment.

Subd. 2. **Application.** A person must file an application for experimental genetically engineered pesticide product registration with the commissioner. An application to register an experimental genetically engineered pesticide product must include:

- (1) the name and address of the applicant;
- (2) any United States Environmental Protection Agency regulatory application or approval document required under federal law or rule;
- (3) the purpose or objectives of the product;
- (4) an experimental genetically engineered pesticide product use label;
- (5) the name, address, and telephone number of cooperators or participants in this state;
- (6) the amount of material to be shipped or used in this state; and
- (7) other information requested by the commissioner.

Subd. 3. **Application fee.** An application for registration of an experimental genetically engineered pesticide product must be accompanied by a nonrefundable application fee of \$125.

**25.371 GOOD MANUFACTURING PRACTICES CERTIFICATE FOR
COMMERCIAL FEED AND FEED INGREDIENTS.**

Subdivision 1. **Definition of words and terms.** In addition to the definitions in section 25.33, for the purpose of this section, the terms defined in this subdivision have the meanings given them.

(a) "Adulteration" means the presence of any poisonous or deleterious substance at a level that may render feed or feed ingredients injurious to human or animal health, as provided in section 25.37, paragraph (a).

APPENDIX

Repealed Minnesota Statutes: 17-0077

(b) "Establishment" includes, but is not limited to, buildings, structures, facilities, equipment, and conveyances that receive, store, manufacture, process, package, label, transport, or distribute feed or feed ingredients.

(c) "Pest" means any objectionable animal, including, but not limited to, bats, birds, rodents, insects, and insect larvae.

Subd. 3. **Personnel.** (a) Persons working in direct contact with feed and feed ingredients must conform to good hygienic practices to minimize the risk of adulteration.

(b) Persons who receive, store, manufacture, process, package, label, sample, transport, or distribute feed or feed ingredients must be trained for the persons' areas of responsibility.

Subd. 4. **Establishments.** (a) Establishments must be of a size, construction, and design to facilitate routine maintenance and cleaning.

(b) The grounds of establishments must be maintained in a condition that minimizes pest infestation of feed or feed ingredients.

Subd. 5. **Maintenance and housekeeping.** (a) Establishments must be kept in sufficient repair and condition to minimize the risk of adulteration.

(b) Establishments must be cleaned in a manner and at a frequency that minimizes the risk of adulteration.

(c) Establishments must implement procedures that are effective in minimizing pest infestation of feed or feed ingredients.

(d) Substances not approved for use in feed or feed ingredients must be received, stored, and used in a manner that minimizes the risk of adulteration, and in accordance with applicable laws and regulations. These substances must be physically separated from work areas and equipment used for the production or storage of feed and feed ingredients.

Subd. 6. **Equipment.** (a) All equipment, including scales, metering devices, and mixers must be of a suitable size, design, construction, precision, and accuracy for the equipment's intended purpose, and to minimize the risk of adulteration.

(b) All equipment, including scales, metering devices, and mixers must be designed to facilitate inspection and cleaning, and must be properly maintained and operated to minimize the risk of adulteration.

(c) All equipment must be constructed and maintained so as to minimize the risk of lubricants and coolants becoming adulterants in feed or feed ingredients.

(d) All scales and metering devices must be tested for accuracy upon installation and at least annually thereafter.

(e) All mixers must be tested to demonstrate the capability of the equipment to produce a homogeneous mix upon installation and periodically thereafter to ensure proper function. Mixers must be operated utilizing procedures that provide for proper mixing and proper mixing times as demonstrated by testing.

(f) Records sufficient to document the testing of equipment identified in paragraphs (d) and (e) must be maintained until a subsequent test is conducted or for one year from the date of the test, whichever is longer.

Subd. 7. **Receiving and storage for further manufacture.** Specifications and procedures effective in minimizing the risk of adulteration must be established and implemented to govern the acceptance, rejection, and storage of inbound feed or feed ingredients intended for further manufacturing of feed or feed ingredients. The procedures must include the following:

Prior to processing milk, all bulk milk pickup tankers must be tested for the presence of beta lactum drug residues and for other residues as determined necessary by the commissioner. Test methods must be those approved by the Association of Analytical Chemists (AOAC) or under the AOAC C2 program. Bulk milk tankers testing positive must be reported to the commissioner or the commissioner's agent within 24 hours. This report must include how and where the milk was disposed of, the volume, the responsible producer, and the possible cause of the violative residue. All milk sample residue results must be recorded and retained for examination by the commissioner or the commissioner's agent for six months by the receiving plant. Milk received from a producer in other than a bulk milk pickup tanker is also subject to this section.

Subd. 3. **Adulterated milk.** For purposes of this section and section 32.22, milk is adulterated if it:

Subd. 4. **Penalties.** (a) A person, other than a milk producer, who violates this section is guilty of a misdemeanor or subject to a civil penalty up to \$1,000.

(b) A milk producer may not change milk plants within 30 days, without permission of the commissioner, after receiving notification from the commissioner under paragraph (c) or (d) that the milk producer has violated this section.

(c) A milk producer who violates subdivision 3, clause (1), (2), (3), (4), or (5), is subject to clauses (1) to (3) of this paragraph.

(1) Upon notification of the first violation in a 12-month period, the producer must meet with the qualified dairy sanitarian to initiate corrective action within 30 days.

(2) Upon the second violation within a 12-month period, the producer is subject to a civil penalty of \$300. The commissioner shall notify the producer by certified mail stating the penalty is payable in 30 days, the consequences of failure to pay the penalty, and the consequences of future violations.

(3) Upon the third violation within a 12-month period, the producer is subject to an additional civil penalty of \$300 and possible revocation of the producer's permit or certification. The commissioner shall notify the producer by certified mail that all civil penalties owed must be paid within 30 days and that the commissioner is initiating administrative procedures to revoke the producer's permit or certification to sell milk for at least 30 days.

(d) The producer's shipment of milk must be immediately suspended if the producer is identified as an individual source of milk containing residues causing a bulk load of milk to test positive in violation of subdivision 3, clause (6) or (7). The Grade A or manufacturing grade permit must be converted to temporary status for not more than 30 days and shipment may resume only after subsequent milk has been sampled by the commissioner or the commissioner's agent and found to contain no residues above established tolerances or safe levels.

The Grade A or manufacturing grade permit may be restored if the producer completes the "Milk and Dairy Beef Residue Prevention Protocol" with a licensed veterinarian, displays the signed certificate in the milkhouse, and sends verification to the commissioner within the 30-day temporary permit status period. If the producer does not comply within the temporary permit status period, the Grade A or manufacturing grade permit must be suspended. A milk producer whose milk supply is in violation of subdivision 3, clause (6) or (7), and has caused a bulk load to test positive is subject to clauses (1) to (3) of this paragraph.

(1) For the first violation in a 12-month period, the penalty is the value of all milk on the contaminated load plus any costs associated with the disposition of the contaminated load. Future pickups are prohibited until subsequent testing reveals the milk is free of drug residue. A farm inspection must be completed by a qualified dairy sanitarian and the producer to determine the cause of the residue and actions required to prevent future violations.

APPENDIX

Repealed Minnesota Statutes: 17-0077

(2) For the second violation in a 12-month period, the penalty is the value of all milk on the contaminated load plus any costs associated with the disposition of the contaminated load. Future pickups are prohibited until subsequent testing reveals the milk is free of drug residue. A farm inspection must be completed by a qualified dairy sanitarian to determine the cause of the residue and actions required to prevent future violations.

(3) For the third or subsequent violation in a 12-month period, the penalty is the value of all milk on the contaminated load plus any costs associated with the disposition of the contaminated load. Future pickups are prohibited until subsequent testing reveals the milk is free of drug residue. The commissioner or the commissioner's agent shall also notify the producer by certified mail that the commissioner is initiating administrative procedures to revoke the producer's permit or certification to sell milk for a minimum of 30 days.

(4) If a bulk load of milk tests negative for residues and there is a positive producer sample on the load, no civil penalties may be assessed to the producer. The plant must report the positive result within 24 hours and reject further milk shipments from that producer until the producer's milk tests negative. A farm inspection must be completed by a qualified dairy sanitarian to determine the cause of the residue and actions required to prevent future violations. The department shall suspend the producer's permit and count the violation on the producer's record. The Grade A or manufacturing grade permit must be converted to temporary status for not more than 30 days during which time the producer must review the "Milk and Dairy Beef Residue Prevention Protocol" with a licensed veterinarian, display the signed certificate in the milkhouse, and send verification to the commissioner. If these conditions are met, the Grade A or manufacturing grade permit must be reinstated. If the producer does not comply within the temporary permit status period, the Grade A or manufacturing grade permit must be suspended.

(e) A milk producer that has been certified as completing the "Milk and Dairy Beef Residue Prevention Protocol" within 12 months of the first violation of subdivision 3, clause (7), need only review the cause of the violation with a field service representative within three days to maintain Grade A or manufacturing grade permit and shipping status if all other requirements of this section are met.

(f) Civil penalties collected under this section must be deposited in the milk inspection services account established in this chapter.

(4) No lights shall be placed directly over the bulk tank.

(5) The bulk tank shall be properly located in the milk room for easy access to all areas for cleaning and servicing.

(6) The milkhouse shall be used only for storage of milk, milk utensils, and supplies incidental to the production of milk.

(7) This section is effective for all bulk tanks for milk produced for manufacturing purposes.

(8) No milk processor shall buy milk from any producer of milk using a bulk tank to be used for manufacturing purposes unless such producer has complied with the provisions of this section.

(9) After July 1, 1965, no person shall install a bulk tank except in a milk room or milkhouse which complies with the provisions of this section.

(10) The enforcement of this section shall be administered by the Minnesota Department of Agriculture.

APPENDIX

Repealed Minnesota Statutes: 17-0077

32.22 SKIMMED MILK.

Notwithstanding the provisions of section 32.21, milk from which the cream has been removed, if such milk is otherwise wholesome and unadulterated, may be sold as such to makers of skimmed milk cheese, and by licensed dealers; but in the latter case only from vessels legibly marked "skimmed milk" in plain, common black letters upon a light colored background, each letter being at least one inch high and one-half inch wide, and these words being placed on the top or side of such vessel. These requirements shall not apply to skimmed or separated milk delivered to any patron of a creamery who furnishes milk thereto, but all skimmed milk from creameries and all whey from cheese factories so delivered to patrons shall first be pasteurized at a minimum temperature of 145 degrees Fahrenheit for not less than 30 minutes, or at a minimum temperature of 180 degrees Fahrenheit for continuous flow pasteurization.

- (6) who shall incorrectly sample, weigh, test, or record or report weights or tests of skim milk or buttermilk purchased or sold, or
- (7) who shall underread the tests, or
- (8) who shall falsify the reading of the tests, or
- (9) who shall manipulate the reading of the tests, or
- (10) who shall falsely state, certify, or use in the purchase or sale of milk or cream a misreading of such tests, whether the tests or actual reading shall have been made by such person or by any other person, shall be guilty of a misdemeanor.

milk, and in case of pasteurized fluid milk products the label shall also state the name of the specific product.

32.394 GRADE A PASTEURIZED MILK.

Subdivision 1. **Grade A pasteurized bacteria counts.** Grade A pasteurized milk, fluid milk products and goat milk are Grade A raw milk, fluid milk products and goat milk for pasteurization which have been pasteurized, cooled and prepared for distribution in a dairy plant approved by the commissioner, the bacterial count of which at no time after pasteurization and until delivery exceeds 20,000 bacteria per milliliter. The coliform count must not exceed ten per milliliter except that bulk tank transport shipments must not exceed 100 per milliliter. The standard plate count standard shall be omitted in the case of sour cream, cultured buttermilk, other cultured fluid milk products and cultured goat milk; provided further that the commissioner may prescribe standards and rules adopted in accordance with law more stringent than those imposed by this subdivision.

Subd. 2. **Grade A raw bacteria counts.** Grade A raw milk or goat milk for pasteurization purposes is raw milk or goat milk which complies with all the requirements for its production, the bacterial count of which does not exceed 100,000 bacteria per milliliter prior to commingling with other producer milk at which time the bacteria count must not exceed 300,000 per milliliter prior to pasteurization. The commissioner may prescribe standards and rules adopted in accordance with law more stringent than those imposed by this subdivision.

Subd. 3. **Exemption.** Nothing in this section shall be construed to mean compulsory grading of pasteurized milk, pasteurized fluid milk products, pasteurized goat milk, raw milk for pasteurization, or raw goat milk for pasteurization; such grade shall apply only to pasteurized milk, pasteurized fluid milk products, pasteurized goat milk, raw milk for pasteurization, or raw goat milk for pasteurization on which the grade is declared on the label.

Subd. 4. **Rules.** The commissioner shall by rule adopt identity, production, and processing standards for milk, milk products, and goat milk which are intended to bear the Grade A label.

In the exercise of the authority to establish requirements for Grade A milk, milk products, and goat milk, the commissioner adopts definitions, standards of identity, and requirements for production and processing contained in the "Grade A Pasteurized Milk Ordinance" of the United States Department of Health and Human Services, in a manner provided for and not in conflict with law.

Subd. 5. **Sales as Grade A milk.** No person shall sell, offer or expose for sale, any milk, milk products or goat milk labeled Grade A, unless the milk, milk products or goat milk have been produced and processed in accordance with the requirements of Minnesota law and rule. Any processor desiring to use the Grade A label on milk, milk products or goat milk shall make application for a permit to the commissioner on a form prescribed and furnished by the commissioner. The permit shall be issued by the commissioner when the commissioner has determined that the applicant has complied with the requirements of Minnesota law and rule. Permits shall not be transferable with respect to person or location. A permit may be suspended by the commissioner upon failure by the holder of the permit to comply with any of the terms of Minnesota law and rule or for interference with inspection, and may be revoked by the commissioner for due cause after the holder of the permit has been given the opportunity for a hearing, in which case the holder of the permit shall be given a notice in writing of the time and place of such hearing at least seven days before the date of such hearing.

Subd. 6. **Inspection service.** To assure compliance with the laws and rules governing the production, handling, processing, and sale of Grade A milk, Grade A milk products and Grade A goat milk, the commissioner is hereby authorized to provide a service to be performed by trained and duly qualified milk sanitarians, for the inspection of such milk, milk products and goat milk, and of the premises and plants where such milk, milk products and goat milk are produced, handled and processed. Such service shall be for acquainting the processor and producers with the requirements for a Grade A milk supply, for preliminary inspection to determine if a processor has brought the processor's farms and plant to the state of compliance which will qualify the processor's products for the Grade A label, and for continuous inspection to assure that any farms and plants so accepted and all products therefrom so labeled shall remain in compliance. Said Grade A processor shall provide a continuous field service to assist the producers, who sell their milk to the processor's plant, to attain and to maintain compliance with Grade A requirements. Any person who performs such field service for such Grade A processor first shall obtain a permit therefor from the commissioner. Any person desiring to secure such permit shall make application therefor on a form provided by the commissioner, and before a permit is issued the commissioner shall determine that the applicant is competent and qualified to perform such field service. Said permit shall not be transferable and may be revoked for due cause after the

holder of the permit has been given the opportunity for a hearing in which case the holder of the permit shall be given a notice in writing of the time and place of such hearing at least seven days before the date of such hearing.

Subd. 7. **Availability.** The aforesaid state service shall be available to all processors who wish to use the Grade A label on their milk, milk products and goat milk and who have not available to them substantially equivalent service, imposed with equal effectiveness by a city within the state.

Subd. 8. **Grade A inspection fees.** A processor or marketing organization of milk, milk products, sheep milk, or goat milk who wishes to market Grade A milk or use the Grade A label must apply for Grade A inspection service from the commissioner. A pasteurization plant requesting Grade A inspection service must hold a Grade A permit and pay an annual inspection fee of no more than \$500. For Grade A farm inspection service, the fee must be no more than \$50 per farm, paid annually by the processor or by the marketing organization on behalf of its patrons. For a farm requiring a reinspection in addition to the required biannual inspections, an additional fee must be paid by the processor or by the marketing organization on behalf of its patrons. The fee for reinspection of a farm with fewer than 100 cows is \$60 per reinspection. The fee for reinspection of a farm with 100 or more cows is \$150 per reinspection.

Subd. 8a. **Laboratory certification.** A laboratory, before conducting a test the results of which are to be used in the enforcement of requirements for distribution of milk, milk products or goat milk under the Grade A label, must be certified as meeting the requirements for laboratory approval that are established by rule of the commissioner, and must receive a permit from the commissioner. The permit shall remain valid without renewal unless suspended or revoked by the commissioner for failure to comply with the requirements. Satisfactory analytical procedures and results for split samples, the nature, number and frequency of which shall be in accordance with rules established by the commissioner, shall be required of a certified laboratory for retention of its certification and permit.

An application for initial certification or biennial recertification, or for recertification following suspension or revocation of a permit shall be accompanied by an annual fee based on the number of analysts approved and the number of specific tests for which they are approved. The fee is not less than \$150 or more than \$200 for each analyst approved and not less than \$35 or more than \$50 for each test approved. The commissioner may annually adjust assessments within the limits established by this subdivision to meet the cost recovery of the services required by this subdivision.

Subd. 8b. **Manufacturing grade farm certification.** A processor or marketing organization of milk, milk products, sheep milk, or goat milk who wishes to market other than Grade A milk must apply for a manufacturing grade farm certification inspection from the commissioner. A manufacturing plant that pasteurizes milk or milk by-products must pay an annual fee based on the number of pasteurization units. This fee must not exceed \$140 per unit. The fee for farm certification inspection must not be more than \$25 per farm to be paid annually by the processor or by the marketing organization on behalf of its patrons. For a farm requiring more than the one inspection for certification, a reinspection fee of \$45 must be paid by the processor or by the marketing organization on behalf of its patrons.

Subd. 8c. **Grade A or manufacturing grade raw milk.** Grade A or manufacturing grade raw milk must not have been stored longer than 72 hours when it is picked up at the farm by the receiving plant. The commissioner or an agent of the commissioner may waive the 72-hour time limit in a case of hardship, emergency, or natural disaster. On farms permitted or certified for bulk tank storage, the milk may only be picked up from approved bulk milk tanks in proper working order.

Subd. 8d. **Processor assessment.** (a) A manufacturer shall pay to the commissioner a fee for fluid milk processed and milk used in the manufacture of fluid milk products sold for retail sale in Minnesota in an amount not less than five cents and not more than nine cents per hundredweight as set by the commissioner's order except that beginning July 1, 2003, the fee is set at seven cents per hundredweight and thereafter no change within any 12-month period may be in excess of one cent per hundredweight.

(b) Processors must report quantities of milk processed under paragraph (a) on forms provided by the commissioner. Processor fees must be paid monthly. The commissioner may require the production of records as necessary to determine compliance with this subdivision.

(c) The commissioner may create within the department a dairy consulting program to provide assistance to dairy producers who are experiencing problems meeting the sanitation and quality requirements of the dairy laws and rules.

The commissioner may use money appropriated from the dairy services account created in subdivision 9 to pay for the program authorized in this paragraph.

APPENDIX

Repealed Minnesota Statutes: 17-0077

Subd. 8e. **Farm bulk milk pickup tankers.** Farm bulk milk pickup tankers, milk transports, and tankers used to transport milk products must be inspected and obtain a permit issued by the commissioner annually by July 1. The owner or operator must pay a \$25 permit fee per tanker to the commissioner. The commissioner may appoint such persons as the commissioner deems qualified to make inspections.

Subd. 9. **Payments; refunds; disposition.** Fees are payable by a processor or marketing organization by July 1 of each year for Grade A, and by January 1 of each year for manufacturing grade, and if not paid within 30 days of the due date, the service must be discontinued, and permission to market manufacturing grade or Grade A milk or milk products or use the Grade A label must be withdrawn. A processor may terminate payment and service without loss of the Grade A label if written notice of that intention is given prior to the due date of the payment of an assessment and if the continuous inspection of the plant is assumed by a city whose milk control ordinance is substantially equivalent to Minnesota law and rule and is enforced with equal effectiveness. If a farm discontinues the production of milk within six months of the billing date, a request for a refund based on inspection services not received may be made by the processor or by the marketing organization on behalf of its patrons. This request must be made in writing by July 1 for manufacturing grade, or by December 31 for Grade A, and on approval by the commissioner refunds must be made to the processor or marketing organization.

The fees for services performed by the activities of this section must be deposited in the agricultural fund and constitute a separate account to be known as the dairy services account, which is hereby created. Money in the account, including interest earned, is appropriated to the commissioner to administer this chapter.

Subd. 11. **Waiver of rules; water well distance requirement.** A dairy farmer who wishes to be permitted to produce grade A milk may not be denied the grade A permit solely because of provisions in rules adopted by the commissioner of health requiring a minimum distance between a water well and a dairy barn. To be eligible for a grade A permit, the following conditions must be met:

- (1) the water well must have been in place prior to January 1, 1974;
- (2) the water well must comply with all rules of the commissioner of health other than the minimum distance requirement; and
- (3) water from the well must be tested at least once every six months in compliance with guidelines established by the commissioner of agriculture unless the water from the well meets water quality requirements for three consecutive years, in which case the water must be tested only once every 12 months until the water fails to meet water quality requirements during one of the tests.

Subd. 12. **Water testing guidelines.** The commissioner of agriculture, in consultation with the commissioner of health, shall establish guidelines for the testing required under section 32.394, subdivision 11, clause (3).

32.395 MILK OTHER THAN GRADE A.

Subdivision 1. **Pasteurized milk, fluid milk products and goat milk, other than Grade A.** Pasteurized milk, fluid milk products and goat milk, other than Grade A, are raw milk, fluid milk products and goat milk for pasteurization which have been pasteurized, cooled and prepared for distribution in a plant approved by the commissioner, the bacterial count of which at no time after pasteurization and until delivery, exceeds 50,000 bacteria per milliliter, standard plate count, as determined by averaging the logarithms of the results of the last four consecutive tests of samples taken on separate days, except that such average may be over 50,000 bacteria per milliliter if the last individual result is 50,000 bacteria per milliliter or lower, and not more than one of the last four coliform counts of which shall exceed ten per milliliter unless the last individual result is ten per milliliter or lower; provided that the standard plate count standard shall be omitted in the case of sour cream, cultured buttermilk, other cultured fluid milk products and cultured goat milk.

Subd. 2. **Raw milk or raw goat milk for pasteurization purposes, other than Grade A.** Raw milk or raw goat milk for pasteurization purposes, other than Grade A, is raw milk or raw goat milk which complies with all the requirements for its production, the bacterial count of which does not exceed 500,000 bacteria per milliliter, standard plate count or direct microscopic clump count, as determined by averaging the logarithms of the results of the last four consecutive tests of samples taken on separate days, except that such average may be over 500,000 bacteria per milliliter if the last individual result is 500,000 bacteria per milliliter or lower.

Subd. 3. **Rules.** The commissioner is authorized to promulgate by rule production and processing standards for pasteurized milk, pasteurized fluid milk products, pasteurized goat milk, raw milk for pasteurization and raw goat milk for pasteurization.

APPENDIX

Repealed Minnesota Statutes: 17-0077

Subd. 4. **Other methods.** The commissioner may authorize, in respect to raw milk or raw goat milk for pasteurization purposes, any other method or methods of determining bacterial count.

32.397 ENFORCEMENT STANDARDS.

The standards set forth in sections 32.391 to 32.398 and rules adopted thereunder by the commissioner shall be the only such standards for use in the state of Minnesota. No municipality or other subdivision of state government shall provide, by ordinance more stringent or comprehensive standards than are contained in sections 32.391 to 32.398 and rules adopted thereunder by the commissioner.

Subdivision 1. **Standards, grades, and price differentials.** In order to protect the public health and welfare, to promote the interests of the dairy industry in Minnesota, and to secure uniformity, the commissioner of agriculture may adopt standards, grades and price differentials between various grades of milk and cream for milk and cream purchased for manufacturing purposes. Before adopting any standards, grades, or price differentials for milk and cream, the commissioner shall hold a public hearing thereon, as provided by law. Until such standards, grades and price differentials are made and filed, the standards, grades, and price differential heretofore made by the commissioner remain in effect except as otherwise prescribed by law.

Subd. 2. **Statement of purchases furnished to seller.** All milk or cream purchased for manufacturing purposes shall be purchased on the basis of the standards, grades, and price differentials between grades so adopted. Every purchaser of milk or cream for manufacturing purposes shall, at time of payment therefor, furnish the person from whom purchased a statement showing the date of grading, the grade, and the price paid therefor. The statement may be included on the check delivered by the purchaser to the seller in payment of the milk or cream.
